0535-0273 – Cooperator Funded Chemical Use Surveys

Maryland Pesticide Use Survey

The Maryland Department of Agriculture requested the Maryland Pesticide Survey be conducted in 2023 be for the 2022 crop year as well as 2025 for the 2024 crop year instead of the 2024 for the 2023 crop year. The revised schedule with changes is now:

Crop Year	Survey	Target Commodity	Reference Year	Year Survey is Conducted
2022	Maryland Pesticide	All	2022	2023
	Minnesota Pesticide & Fertilizer	None due to Census of Agriculture		
	Minnesota Pesticide & Fertilizer Best Management Practices	None		
	Mississippi Cropping Practices Survey	Cotton	2022	2022
	Illinois Cultural Practices - Nutrient Loss Reduction Strategy	None		
2023	Maryland Pesticide	None		
	Minnesota Pesticide & Fertilizer	Corn & Wheat	2023	2024
	Minnesota Pesticide & Fertilizer Best Management Practices	Corn & Soybeans	2023	2023
	Mississippi Cropping Practices Survey	Rice	2023	2023
	Illinois Cultural Practices - Nutrient Loss Reduction Strategy	Field crops acreage > 100 acres	2023	2024
2024	Maryland Pesticide	All	2024	2025
	Minnesota Pesticide & Fertilizer	TBD	2024	2025
	Minnesota Pesticide & Fertilizer Best Management Practices	None due to Minnesota Pesticide & Fertilizer		
	Mississippi Cropping Practices Survey	Wheat	2024	2024
	Illinois Cultural Practices - Nutrient Loss Reduction Strategy	None.		

This change will not impact the requested annual sample size and respondent burden.
