Report Signs of Citrus Disease

Last Modified: Mar 18, 2020

Print

Spanish Version

IS YOUR CITRUS SICK?

By reporting signs of citrus disease, you're helping save our citrus! The symptom checklist and corresponding photos below will help you identify the key symptoms of a plant infected by citrus greening, citrus canker, citrus black spot and sweet orange scab.

If you think you have identified an infected plant, report it immediately. To avoid spreading the disease, do not move your plant. Just fill out the form below or call your USDA State Plant Health Director's office.

If you are younger than 18 years of age, please ask a parent, guardian or trusted adult to help you submit your report.

Thanks again for helping stop the spread of citrus disease!

Pest Reporting Form 3: Emerald Ash Borer

<https://www.aphis.usda.gov/aphis/ourfocus/planthealth/plant-pest-and-disease-programs/pests-and-diseases/emerald-ash-borer/report-it>

The screenshot shows the top portion of the reporting form. On the left is a navigation menu with options: Plant Health, Program Overview, Pests and Diseases, Import into the U.S., Export from the U.S., International, and Manuals. The main content area is titled "Report EAB and Ash Tree Damage" and includes a "Print" button. Below the title is a paragraph of instructions: "If you think you've seen the emerald ash borer (EAB) or ash tree damage caused by an infestation, please complete the form below. Or if you prefer to make a report by phone, please call 1-866-322-4512. If you have a digital camera, take pictures of the insect and the damage to your ash trees. If possible, place an adult in a container and freeze it, and any larvae in a container with rubbing alcohol, to help with identification." A green banner below the instructions says "Need help identifying symptoms? Click here to view pictures of damage and the insect." The form itself is titled "Plant Protection and Quarantine Pest Reporting Form (PPQ Form 10)" and has a "Contact Information" section with fields for First Name, Last Name, Phone Number, Email Address, City, County, State (dropdown), and Zip Code. At the bottom of the form is a small disclaimer and a "OMB APPROVED" stamp.

This screenshot shows the second step of the reporting form, titled "Location and Date of Sighting". It contains fields for Street Location, City, County, State (dropdown), and Zip Code. Below these is a "Date of Sighting" field with a calendar icon. The "Description of Sighting Location" field is a large text area with a small note: "Be sure to include specific landmarks that facilitate the location of the suspected pest or disease, and GPS coordinates (if available)". At the bottom of the form are "Back", "Next", "Submit", and "Cancel" buttons. The footer of the page includes links for Home, Our Focus, Resources, and Topics of Interest.
