So that our website remains safe and available for its intended use, network traffic is monitored to identify unauthorized attempts to access, upload, change information, or otherwise cause damage to the web service. Use of the government computer network for unauthorized purposes is a violation of Federal law and can be punished with fines or imprisonment (PUBLIC LAW 99-474).</p>

## Instructions

The instructions and other relevant information will be displayed on the Login Screen.

## FAQs

Frequently Asked Questions (FAQs), provided from a link on the Banner, should include the following:

	<p><b>1. What is the 2023 Census Test?</b> The goal of the census test is to help inform the next census. The next census will count every person living in the United States once, only once and in the right place. Article I, Section 2 of the U.S. Constitution mandates that this population and housing count occur every 10 years. Census data guide how more than \$675 billion in federal funding is distributed to states and communities each year.</p>
	<p><b>2. Am I required to respond to this survey?</b> Yes, you are required by law to respond to this survey. We are conducting this survey under the authority of Title 13, U.S. Code, Sections 141 and 193. This collection of information has been approved by the Office of Management and Budget (OMB). The eight-digit OMB approval number is 0607-0971. If this number were not displayed, we could not conduct the survey.</p>
	<p><b>3. How long will my 2023 Census Test questionnaire take?</b> The Census Bureau estimates that completing the questionnaire will take 10 minutes on average. Send comments regarding this burden estimate or any other aspect of this burden to &lt;adm.pra@census.gov&gt;. Use "Paperwork Reduction Project 0607-0971 " as the subject.</p>
	<p><b>4. Who should complete the questionnaire?</b> This questionnaire should be completed by the person who owns or rents the living quarters or any other person who is at least 15 years of age with knowledge of the household.</p>
	<p><b>5. How do I change my answers?</b> For questions where you must choose a single response from a list, clicking another response will change your answer to that response.  If it is a "select all that apply" question, you may click on a selected check box to unselect the box and remove it as one of your answers.</p>
	<p><b>7. How will the Census Bureau use the information I provide?</b> By law, the Census Bureau can only use your responses to produce statistics.</p>
	<p><b>8. Is it safe to complete the questionnaire online?</b> Yes. For each online questionnaire, we are required to provide an explanation to respondents about the confidentiality of the data and the laws that protect those data (e.g., Title 13, U.S. Code Section 9(a)).</p>

	<p>Per the Federal Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through screening of the systems that transmit your data. All web data submissions are encrypted in order to protect your privacy, even in the remote chance that your responses are intercepted.</p> <p>More information on this topic can be found on the Data Protection and Privacy Policy webpage (<a href="https://www.census.gov/privacy/">https://www.census.gov/privacy/</a>).</p>
	<p><b>9. Do I have to complete the questionnaire for my household members?</b> Yes, you will be asked to provide information for each household member.</p>
	<p><b>10. How do I submit my responses?</b> At the end of the questionnaire, you will submit your questionnaire and see a confirmation page. Then, you may close the web browser. Once your questionnaire is submitted, you will not be able to access your information or change any of your responses.</p>

## Global Requirements

### Timeouts

The instrument will time out if a respondent is inactive for 15 minutes.

### Languages
