U.S. PACIFIC HIGHLY MIGRATORY SPECIES HOOK AND LINE LOGBOOK

U.S. NATIONAL MARINE FISHERIES SERVICE

(Twelfth Edition, May 2018)

INSTRUCTIONS FOR COMPLETING THE LOGBOOK FORM

Complete one line of the daily catch section for each day's fishing. Do not combine multiple trips on a single logbook page. Complete each column on the form by circling the appropriate selection or entering the appropriate information. Seven days of fishing can be recorded on each log sheet. **INSERT THE FOLDED FLAP OF THE BACK COVER UNDER THE YELLOW COPY OF THE SHEET BEING WRITTEN ON**. This will prevent the entries from being transferred to the underlying sheets. Sign and date each sheet that is submitted. Record the primary fishing gear used during the trip.

TOP OF THE PAGE

Enter the Vessel Name, Coast Guard Document Number or State Marine Board Number, Captain's Name, Departure and Arrival Ports, Port where catch was landed, Departure and Arrival Dates, Total Pounds Landed per trip including all fish sold and those kept for personal use. Also record all landing receipt numbers from all sales.

DAILY FISHING SECTIONS

- 1. **DATE**: Enter the date of fishing.
- 2. **FISHING CODE:** Circle the appropriate code number identifying the vessel's major activity during the day.
- 3. LOCATION (LAT/LONG): Enter the location (to the nearest minute) where most of the fish were caught.
- 4. TARGET CATCH:

SPECIES NAME: Circle the species name or enter the name of other species that were targeted.

NUMBER KEPT: Enter the total number of the indicated species caught and kept for the day. Enter 0 if no fish were caught and kept.

DISCARD NUMBERS: Enter the total number of the indicated species discarded (dead or alive) for the day.

- 5. **HRS FISHED**: Enter the total number of hours (to the nearest whole hour) that fishing occurred during the day.
- 6. **BYCATCH**: Enter the species name, number kept and number discarded of species other than the target species that were caught during the day.
- 7. **COMMENTS**: Record any observations related to fishing activities such as number of gill net vessels seen during the day, percentage or numbers of catch that had gill net scars, movement of fish, type of feed, water color, bird flocks, temperature "edges" or "fronts", etc.
- 8. **SIGNATURE**: Sign and date each page.

SUBMITTING LOGBOOKS

This logbook is mandatory for all U.S. vessels using hook and line gear to fish for highly migratory species. Vessels are required to submit original (white forms) within 30 days after each trip to the following address:

National Marine Fisheries Service
Southwest Fisheries Science Center
8901 La Jolla Shores Dr.
La Jolla, CA 92037

ALL INFORMATION RECEIVED FROM YOU WILL BE KEPT CONFIDENTIAL

North Pacific albacore ages from Wells et al., 2013. Age and growth of North Pacific albacore (Thunnus alalunga): implications for stock assessment:

 L_{∞} = 124.1 cm FL, K = 0.164 year⁻¹, and t_0 = -2.239

Weights from Watanabe et al., 2006. Revised practical solutions of application issues of length-weight relationship for the North Pacific albacore with respect to the stock assessment.: kg=0.87x 10⁻⁴ x cm^{2.6}
