

requested instances of take equate to no more than 13 percent of any stock expected to be taken, less than benchmark of less than one-third of stock abundance often used to substantiate a small numbers finding. Comparing estimated instances of take against stock abundance for assessment of small numbers is a conservative approach and is likely to over-estimate the number of animals that may be affected by the activity.

Based on the analysis contained herein of the specified activity (including the mitigation and monitoring measures) and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals would be taken relative to the population size of the affected species or stocks.

Unmitigable Adverse Impact Analysis and Determination

There are no relevant subsistence uses of the affected marine mammal stocks or species implicated by this action. Therefore, NMFS has determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

No incidental take of ESA-listed species is proposed for authorization or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our proposed action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment. This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual

for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review.

Authorization

NMFS has issued an IHA to the Navy for the incidental take of marine mammals due to in-water construction activities associated with the Floating Dry Dock Project at Naval Base San Diego in San Diego, California from March 1, 2024 to February 28, 2025, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: September 28, 2023.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Proposed Information Collection; Comment Request; U.S.-Canada Albacore Treaty Reporting System

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before December 4, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0492 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Karen Palmigiano, National Marine Fisheries Service (NMFS), karen.palmigiano@noaa.gov, 206-526-4491, West Coast Region (WCR) Permits Branch, 7600 Sand Point Way NE, Bldg. 1, Seattle, WA 98115.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS), West Coast Region (WCR), manages the United States (U.S.)—Canada Albacore Tuna Treaty of 1981 (Treaty). Owners of vessels that fish from U.S. West Coast ports for albacore tuna (*Thunnus alalunga*) are required to notify the NMFS WCR of their desire to be on the list of vessels provided to Canada each year indicating vessels eligible to fish for albacore tuna in waters under the jurisdiction of Canada. Additionally, vessel operators are required to report in advance their intention to fish in Canadian waters prior to crossing the maritime border as well as to mark their fishing vessels to facilitate enforcement of the effort limits under the Treaty. Vessel operators are also required to maintain and submit a logbook of all catch and fishing effort. The regulations implementing the reporting and vessel marking requirements under the Treaty are at 50 CFR part 300.172–300.176. If a vessel enters into Canadian waters without adhering to these regulations, they will be in violation of the treaty and Canadian enforcement may issue a fine or a warning.

The estimated burden below includes hours to complete the logbook requirement, although it is assumed that most if not all of the respondents already complete the required logbook under the mandatory West Coast Highly Migratory Species Fishery Management Plan (HMS FMP), OMB Control No. 0648-0223. Duplicate reporting under the Treaty and HMS FMP is not required. Most years, there will be much less fishing (and thus less reporting)

under the Treaty than the level on which the estimate is based.

II. Method of Collection

Requests to be placed on the vessel eligibility list may be made by telephone or in writing via mail, fax, or email. Communications to comply with 'hail in' and 'hail out' requirements are made via ship to shore radio or via telephone and are compiled in an electronic database by Fisheries and Oceans Canada. Summaries of hail reports are provided to NMFS on a periodic basis. Vessel marking requirements entail painting the letter 'U' immediately after the U.S. Coast Guard documentation identification number or state registration number already on the vessel. Logbooks are maintained in preprinted paper format and submitted via mail.

III. Data

OMB Control Number: 0648-0492.

Form Number(s): None.

Type of Review: Regular submission (extension of current information collection).

Affected Public: Businesses and other for-profit institutions.

Estimated Number of Respondents: 135.

Estimated Time per Response: Five minutes for the request to be placed on the eligible list per year; 2 hours and 55 minutes for required vessel markings; 10 minutes for logbook entries; 5 minutes for each set of two hail reports for border crossings per year.

Estimated Total Annual Burden Hours: 43 hours.

Estimated Total Annual Cost to Public: \$250.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of

public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Public Wireless Supply Chain Innovation Fund Program Performance Progress Report

AGENCY: National Telecommunications and Information Administration (NTIA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding the submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before December 4, 2023.

ADDRESSES: Interested persons are invited to submit written comments by mail to Carolyn Dunn, Grants Director, Innovation Fund, Office of International Affairs, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 4701, Washington, DC 20230, or by email to innovationfund@ntia.gov. Please

reference PWSCIF Data Collection in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be direct to Carolyn Dunn, Grants Director, Innovation Fund, Office of International Affairs, National Telecommunications and Information Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Room 4701, Washington, DC 20230, or email at innovationfund@ntia.gov or via telephone at 202-482-4103.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Public Wireless Supply Chain Innovation Fund (PWSCIF) Program, authorized by Section 9202(a)(1) of the *William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021*, Public Law 116-283, 134 Stat. 3388 (Jan. 1, 2021) (*FY21 NDAA*) and appropriated by Div. A., Section 106 of the *CHIPS and Science Act of 2022*, Public Law 117-167, 136 Stat. 1392 (Aug. 9, 2022) provides funding for efforts that accelerate the development, deployment, and adoption of open and interoperable radio access networks (RAN) through a competitive grant program. On April 12, 2023, NTIA published the program's Notice of Funding Opportunity (NOFO) on <https://www.ntia.gov/page/innovation-fund/grant-programs/notice-of-funding-opportunity> to describe the requirements under which it will award grants for the Public Wireless Supply Chain Innovation Fund. The NOFO requires award recipients to submit bi-annual performance progress reports twice a year for the duration of the performance period of the grant. Award recipients must follow the reporting requirements described in Section A.01 Report Requirement of the Department of Commerce Financial Assistance Standard Terms and Conditions (dated November 12, 2020). Additionally, in accordance with 2 CFR part 170, all recipients of a federal award made on or after October 1, 2010, must comply with reporting requirements under the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109-282).

NTIA will use the information collected from each award recipient to effectively administer and monitor the grant program to ensure the achievement of the Public Wireless Supply Chain Innovation Fund Grant
