

## **SUPPORTING STATEMENT A FOR Acknowledgment of Deactivation/Removal**

### **A. JUSTIFICATION**

**1. Explain the circumstances that make the collection of information necessary. Identify any legal or administrative requirements that necessitate the collection. Attach a copy of the appropriate section of each statute and regulation mandating or authorizing the collection of information.**

The Office of Field Operations, Special Operations Division, oversees and manages ATF's Confidential Informant (CI) Program. ATF Special Agents (SAs) and Task Force Officers (TFOs), also identified as CI handlers, utilize CIs to assist in investigating criminal activity. Since the use of a CI is a sensitive matter and requires the association of CI handlers with individuals whose motivations may be suspect or ultimately challenged by courts, this investigative technique is carefully controlled and closely monitored. A CI can be utilized after properly identifying, documenting, and receiving approval from the Special Agent in Charge (SAC) or his/her designee. Once approved, the individual is registered as an active CI. At any point while active, ATF may decide to deactivate the CI or remove the CI for cause. Whether deactivated or removed for cause, the CI should be notified.

The Department of Justice (DOJ), Attorney General's Guidelines Regarding the Use of Confidential Informants or (the Guidelines) subparagraph V., A., General Provisions, mandate that if the CI can be located, the CI must be immediately notified that he or she has been deactivated (for cause or for any other reason) as a CI and obtain documentation that such notification was provided. The Guidelines further state that the notification must be clearly conveyed to the CI; and the CI must acknowledge his or her receipt and understanding of the notification.

The Guidelines subparagraph V., B., Delayed Notification to a Confidential Informant, advises that a decision may be made to delay notification when an ongoing investigation or prosecution could be jeopardized. Further, the Guidelines state that the decision to delay notification, and the reason(s) supporting it and must be documented.

The CI handler will use the Acknowledgment of Deactivation/Removal, ATF F 3252.9, to document the notification to the CI; and to record the CI's acknowledgement of the notification of deactivation or removal. The acknowledgment will be maintained in the CI's official record.

ATF is authorized by 28 USC 599A, Bureau of Alcohol, Tobacco, Firearms and Explosives and 28 CFR 0.130, General Functions

**2. Indicate how, by whom, and for what purpose the information is to be used. Except for a new collection, indicate the actual use the agency has made of the information received from the current collection.**

The information provided on ATF F 3252.9 will be collected and maintained by ATF's Office of Field Operations. The purpose of the collection is to document the CI's acknowledgment that he or she is no longer authorized to serve as an ATF CI. The CI will review the ATF F 325.29 sign and date to acknowledge his or her understanding of the notification. In addition to the CI's acknowledgment, the form will capture the CI's contact information (i.e., telephone number(s), current address, name of current employer, and employer's address). The form will identify the CI by their ATF CI number. ATF Form 3252.9 will be used to document the CI's acknowledgment of his or her deactivation or removal and current contact information.

**3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses, and the basis for the decision for adopting this means of collection. Also, describe any consideration of using information technology to reduce burden.**

ATF F 3252.9 will be a fillable and accessible form that will be made available to CI handlers on the ATF intra-web. However, the form will be unavailable to the wider public via the ATF website. In preparation to notify the CI in-person, the CI handler will complete portions of the form. The information completed by the CI handler is minimal: CI Number, Handler Last Name, Handler First Name, Handler's Title, Field Division, Field Office, Date, Law Enforcement Officer (LEO) Witness Last Name, LEO Witness First Name, and LEO Witness Title.

The form will be deemed complete when the CI handler enters the above information, and the form is personally signed and dated by the CI. After completion, the ATF Form 3252.9 will be scanned and stored electronically as a .pdf attachment to the deactivation or removal for cause action in the CI's record within ATF's Confidential Informant Master Registry and Reporting System (CIMRRS).

**4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purposes described in Item A.2 above.**

ATF uses a uniform subject classification system for forms to identify duplication and to ensure that any similar information already available cannot be used or modified for use for the purpose of this information collection.

**5. If the collection of information impacts small businesses or other small entities, describe any methods used to minimize burden.**

There is no significant impact on small business or other private entities.

**6. Describe the consequence to federal program or policy activities if the collection is not conducted or is conducted less frequently, as well as any technical or legal obstacles to reducing burden.**

The consequences of not conducting this information collection would result in ATF's non-compliance with the Guidelines document. All DOJ law enforcement organizations (except the Federal Bureau of Investigations) must comply with the Guidelines. Ensuring the CI acknowledges his or her deactivation or removal from serving as an ATF CI is pertinent and mandatory.

**7. Explain any special circumstances that would cause an information collection to be conducted in a manner:**

- **requiring respondents to report information to the agency more often than quarterly;**
- **requiring respondents to prepare a written response to a collection of information in fewer than 30 days after receipt of it;**
- **requiring respondents to submit more than an original and two copies of any document;**
- **requiring respondents to retain records, other than health, medical, government contract, grant-in-aid, or tax records for more than three years;**
- **in connection with a statistical survey, that is not designed to produce valid and reliable results that can be generalized to the universe of study;**
- **requiring the use of statistical data classification that has not been reviewed and approved by OMB;**
- **that includes a pledge of confidentiality that is not supported by authority established in statute or regulation, that is not supported by disclosure and data security policies that are consistent with the pledge, or which unnecessarily impedes sharing of data with other agencies for compatible confidential use; or**
- **requiring respondents to submit proprietary trade secret, or other confidential information unless the agency can demonstrate that it has instituted procedures to protect the information's confidentiality to the extent permitted by law.**

There are no special circumstances.

**8. If applicable, provide a copy and identify the date and page number of publication in the *Federal Register* of the agency's notice, required by 5 CFR 1320.8(d), soliciting comments on the information collection prior to submission to OMB. Summarize public comments received in response to that notice and describe actions taken by the agency in response to these comments. Specifically address comments received on cost and hour burden.**

**Describe efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.**

**Consultation with representatives of those from whom information is to be obtained or those who must compile records should occur at least once every 3 years -- even if the collection-of-information activity is the same as in prior periods. There may be circumstances that may preclude consultation in a specific situation. These circumstances should be explained.**

The 60-Day Notice was published in the Federal Register on February 9, 2023 (88 FR 8459). The comment period ended on April 8, 2023. No comments were received.

**9. Explain any decision to provide any payments or gifts to respondents, other than remuneration of contractors or grantees.**

No government funds will be used as payment or for gifts to respondents.

**10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulation, or agency policy.**

C

ATF F 3252.9 will be maintained in the CI's electronic record in CIMRRS. The information contained in the CI record is protected by the Privacy Act of 1974, System of Records Criminal Investigation Report System 82 FR 24147. Only authorized ATF personnel will have access to the file room, secure cabinet, and CI files. In accordance with the Federal Information Processing Standard 199 Categorization, CIMRRS is identified as a High Value Asset and determined to be a Major Application. Therefore, the information contained in CIMRRS is protected in accordance with Federal standards applicable to a Major Application.

CI information is protected by ATF personnel in accordance with the Guidelines, the Privacy Act of 1974, and ATF's policy. ATF's internal policy, as outlined in ATF O 3252.1B, Use of Confidential Informants, aligns with the Guidelines and the Privacy Act of 1974.

**11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. This justification should include the reasons why the agency considers the questions necessary, the specific uses to be made of the information, the explanation to be given to persons from whom the information is requested, and any steps to be taken to obtain their consent.**

The form does not contain sensitive questions.

**12. Provide estimates of the hour burden of the collection of information. The statement should:**

- **Indicate the number of respondents, frequency of response, annual hour burden, and an explanation of how the burden was estimated. Unless directed to do so, agencies should not conduct special surveys to obtain information on which to base hour burden estimates. Consultation with a sample (fewer than 10) of potential respondents is desirable. If the hour burden on respondents is expected to vary widely because of differences in activity, size, or complexity, show the range of estimated hour burden, and explain the reasons for the variance. General, estimates should not include burden hours for customary and usual business practices.**
- **If this request for approval covers more than one form, provide separate hour burden estimates for each form.**
- **Provide estimates of annualized cost to respondents for the hour burdens for collections of information, identifying and using appropriate wage rate categories. The cost of contracting out or paying outside parties for information collection activities should not be included here. Instead, this cost should be included in Item 14.**

**Estimated Annualized Respondent Cost and Hour Burden**

<b>Activity</b>	<b>Number of Respondents</b>	<b>Frequency</b>	<b>Total Annual Responses</b>	<b>Time Per Response</b>	<b>Total Annual Burden (Hours)</b>
ATF 3252.9	300	1	300	15min	75hrs
<i>Unduplicated Totals</i>	<i>300</i>		<i>300</i>		<i>75hrs</i>

**13. Provide an estimate of the total annual cost burden to respondents or recordkeepers resulting from the collection of information. (Do not include the cost of any hour burden shown in Items 12 and 14).**

- **The cost estimate should be split into two components: (a) a total capital and start up cost component (annualized over its expected useful life); and (b) a total operation and maintenance and purchase of service component. The estimates should take into account costs associated with generating, maintaining, and disclosing or providing the information. Include descriptions of methods used to estimate major cost factors including system and technology acquisition, expected useful life of capital equipment, the discount rate(s), and the time period over which costs will be incurred. Capital and start-up costs include, among other items, preparations for collecting information such as purchasing computers and software; monitoring, sampling, drilling and testing equipment; and record storage facilities.**

- **If cost estimates are expected to vary widely, agencies should present ranges of cost burdens and explain the reasons for the variance. The cost of purchasing or contracting out information collection services should be a part of this cost burden estimate. In developing cost burden estimates, agencies may consult with a sample of respondents (fewer than 10), utilize the 60-day pre-OMB submission public comment process and use existing economic or regulatory impact analysis associated with the rulemaking containing the information collection, as appropriate.**
- **Generally, estimates should not include purchases of equipment or services, or portions thereof, made: (1) prior to October 1, 1995, (2) to achieve regulatory compliance with requirements not associated with the information collection, (3) for reasons other than to provide information or keep records for the government, or (4) as part of customary and usual business or private practices.**

Cost is non-existent as completion and submission of the form is coordinated by the CI handler. The CI handler will upload the completed document into ATF's CIMRRS system.

**14. Provide estimates of the annualized cost to the Federal Government. Also, provide a description of the method used to estimate cost, which should include quantification of hours, operational expenses (such as equipment, overhead, printing, and support staff), any other expense that would not have been incurred without this collection of information. Agencies also may aggregate cost estimates from Items 12, 13, and 14 into a single table.**

The cost to the federal government is \$0.

**15. Explain the reasons for any program changes or adjustments.**

There are no changes associated with this submission as this is a new collection.

**16. For collections of information whose results will be published, outline plans for tabulations, and publication. Address any complex analytical techniques that will be used. Provide the time schedule for the entire project, including beginning and ending dates of the collection of information, completion of report, publication dates, and other actions.**

The results of this collection will not be published.

**17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons that display would be inappropriate.**

We are requesting no exemption.

**18. Explain each exception to the certification statement.**

This collection of information does not include any exceptions to the certificate statement.

Acknowledgment of Deactivation/Removal  
OMB Control Number 1140-0NEW  
OMB Expiration Date: XX/XX/XXXX

**B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS.**

This collection does/does not contain statistical data.
