SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. 3501 *et seq.*, chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection’s purpose, the Collection’s likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) the practical utility of the Collection; (2) the accuracy of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology.

In response to your comments, we may revise this ICR or decide not to seek an extension of approval for the Collection. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must contain the OMB Control Number of the ICR and the docket number of this

request, USCG–2024–0234, and must be received by May 28, 2024.

Submitting Comments

We encourage you to submit comments through the Federal eRulemaking Portal at <https://www.regulations.gov>. If your material cannot be submitted using <https://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions. Documents mentioned in this notice, and all public comments, are in our online docket at <https://www.regulations.gov> and can be viewed by following that website’s instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted.

We accept anonymous comments. All comments received will be posted without change to <https://www.regulations.gov> and will include any personal information you have provided. For more about privacy and submissions in response to this document, see DHS’s eRulemaking System of Records notice (85 FR 14226, March 11, 2020).

Title: National Response Resource Inventory.

OMB Control Number: 1625–0102.

Summary: The information is needed to improve the effectiveness of deploying response equipment in the event of an oil spill. It may also be used in the development of contingency plans.

Need: Section 4202 of the Oil Pollution Act of 1990 (Pub. L. 101–380) requires the Coast Guard to compile and maintain a comprehensive list of spill removal equipment in a response resource inventory (RRI). This collection helps fulfill that requirement.

Forms: None.

Respondents: Oil spill removal organizations.

Frequency: On occasion.

Hour Burden Estimate: The estimated burden has increased from 1,378 hours to 1,964 hours a year, primarily due to the addition of the new optional Non-Floating Oils/Dispersants application.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: March 22, 2024.

Kathleen Claffie,
Chief, Office of Privacy Management, U.S. Coast Guard.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA–2023–0031; OMB No. 1660–NW157]

Agency Information Collection Activities: Submission for OMB Review, Comment Request; Generic Clearance for FEMA’s Major Disaster, Emergency Response, Emergency Recovery, and Hazard Mitigation Programs

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: 30-Day notice of new collection and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA) will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission seeks comments concerning a new generic information collection allowing FEMA to individually update instruments needed to provide financial, non-financial, program management, and technical assistance for FEMA’s major disaster, emergency response, emergency recovery, and hazard mitigation activities.

DATES: Comments must be submitted on or before April 29, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Director, Information Management Division, 500 C Street SW, Washington, DC 20472, email address: FEMA-Information-Collections-Management@fema.dhs.gov or Jennie Orenstein, Branch Chief, FEMA’s Federal Insurance and Mitigation Administration’s Policy, Tools and Training Branch, at jennie.gallardy@fema.dhs.gov or (202) 212–4071.

SUPPLEMENTARY INFORMATION: The Robert T. Stafford Disaster Relief and Emergency Assistance Act (Pub. L. 93–288, as amended), 42 U.S.C. 5121–5207

(Stafford Act) provides broad authority to FEMA for disaster and emergency relief operations, reducing risk to people and property from hazards, and related activities and operations. The Stafford Act authorizes FEMA to provide financial and technical assistance to assist state, local, territorial, and Tribal (SLTT) governments and certain private non-profit (PNP) entities with the response to and recovery from Presidentially declared major disasters and emergencies, and the implementation of hazard mitigation measures and related activities that reduce or eliminate long-term risk to people and property from hazards and their effects.

The National Flood Insurance Act of 1968 ("NFIA"), as amended, and the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4001, *et seq.*) authorize FEMA's National Flood Insurance Program (NFIP), including a wide range of related activities. For instance, the NFIA authorizes FEMA to provide financial assistance for planning and carrying out projects and activities designed to reduce the risk of flood damage to NFIP-insured structures.

FEMA routinely receives additional guidance from Congress, through new legislation, and the President through Executive Orders (E.O.). Congressional and E.O. mandates often require significant adjustments to previously approved information collections to provide timely assistance to survivors and are often required within weeks. FEMA is proposing moving instruments from currently approved information collections into this new generic information collection to provide the necessary flexibility to update individual existing instruments and create new instruments as new guidance from Congress and the President is received, deliver timely assistance to survivors (both before and after a disaster), and maintain compliance with the Paperwork Reduction Act.

This proposed information collection previously published in the **Federal Register** on December 11, 2023, at 88 FR 85898 with a 60-day public comment period. No comments were received. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.
