

FY24 Internships Retrospective Survey

Si desea completar esta encuesta en español: [enlace a la versión en español](#)

The purpose of this Internship Retrospective Survey is to assess the impact of NASA OSTEM Internship experiences on Intern's education and career plans in the first several years following their internship experience. Findings from the survey will inform the NASA OSTEM Internship Program about the educational and career impacts that Interns experience after completing at least one NASA OSTEM Internship Program Internship.

This study is confidential. The benefit of completing this survey is the potential for improving future Intern experiences.

This survey contains up to 19 questions and should take approximately 10 minutes to complete. This survey will include multiple choice, Likert scale, and free-response type questions. You will receive no compensation for completing this survey. Your honest responses will shape future internship experiences for your peers who come after you.

Privacy Act Notification: The information you provide via this form is protected from unauthorized disclosure in accordance with the Privacy Act of 1974. It will be used by NASA for the specific purpose of managing registrants, selecting applicants, implementing and evaluating STEM engagement investments. Collection of the information is authorized by the National Aeronautics and Space Act of 1958 § 403(a)(b), 42 U.S.C. § 2473 (c)(1). Provision of the requested information is strictly voluntary; however, failure to provide the information may result in NASA's inability to provide you with the information or STEM services you desire. NASA may disclose information to NASA administrators and managers, Office of Management and Budget officials, and members of Congress for the purposes of accountability and tracking of program and project efficiency and effectiveness.
