

2023 PA Performance Survey

Information Page

Page description:

OMB Control No. 3060-1307,
March, 2023
10 minutes per response

PURPOSE: The Numbering Administration Oversight Working Group (NAOWG) of the North American Numbering Council (NANC) seeks aggregated input from your organization as to the yearly performance of the Pooling Administrator (PA) services. Responses to the questions contained in this survey are intended to provide information relative to your satisfaction with the performance of the PA.

Please note that while the NANPA and Pooling organizations have been combined, the websites and systems are still separate. Therefore, this survey requests input on the performance of the **Pooling Administrator (PA)**, and not the Routing Number Administrator (RNA) or the North American Numbering Plan Administrator (NANPA). If you wish to comment on those services, please complete the RNA survey and the NANPA survey.

EVALUATION PERIOD: January 1, 2023 through December 31, 2023

SUBMISSION DEADLINE: 5 PM ET, March 31, 2024

QUALIFICATION: Respondents are asked to submit only one (aggregated) survey per functional entity, e.g., per service provider or per regulatory agency. If multiple surveys for an entity are received, the NAOWG will consolidate the responses so that one response per entity is counted.

SUBMITTING YOUR SURVEY: If you are not submitting your survey via the online tool, return your completed survey via email to the NAOWG contacts listed below. Ensure the name of your organization and your last name are appended to the end of the file name, e.g. **"2023_PA_Survey - Telco Jones.doc."**

SURVEY DESCRIPTION: Your satisfaction ratings will be combined with all other survey responses for each of the questions. Your comments recorded in the comment box at the end of the survey are strongly encouraged, especially if a rating of "Not Met" has been selected. Specific examples of your experiences with the PA will provide valuable information concerning current processes that are working well and in identifying areas where process improvements are needed.

Please complete all fields marked with an asterisk "*".

We have estimated that your response to this collection of information will take an average of 10 minutes. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, Office of Managing Director, AMD-PPM, Washington, DC 20554, Paperwork Reduction Act Project (3060-1307). We will also accept your PRA comments via the Internet if you send an e-mail to PRA@fcc.gov.

Please DO NOT SEND COMPLETED SURVEYS TO THIS ADDRESS. You are not required to respond to a collection of

information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number and/or we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-1307. THIS NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995,

PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

Privacy Act Statement

Authority: The Commission is authorized to pursue this collection pursuant to the authority contained in 47 U.S.C. §§ 151, 152, 154 (i)-(j) & (o), 155, 251(e)(1) & (3), 254, 257, 301, 303, 332, 402, 1302; and 5 U.S.C. §§ 602(c) and 609(a)(3).

Purpose: The purpose of this performance satisfaction survey is to provide input for the annual performance evaluation report of the Federal Communications Commission (FCC) vendor(s) acting as administrator for telephone number management functions. These functions may be performed by one or multiple vendors under one or multiple contracts. The relevant vendor contract(s) require that the FCC and/or its designee shall develop and conduct a performance survey for the administrator. The results of this customer satisfaction survey will provide FCC with indicators regarding how well the vendor(s) are acting as administrator. At least a portion of the survey results will be incorporated into the annual performance evaluation report. The survey will collect personally identifiable information (PII) in the form of the survey respondents' business contact information, including the name of entity representative submitting the survey. This PII needs to be collected to help monitor the accuracy of the survey, facilitate sending the respondent a copy of the survey, and allow any necessary follow-up communications with the respondent.

Routine Uses: The FCC may release information provided in this form to individuals and entities when necessary and appropriate under 5 U.S.C. § 552a(b) of the Privacy Act to: the public in FCC releases of notices or actions or when required to comply with federal laws or FCC regulations requiring public disclosure of the information contained in our records; to third parties, including individuals and businesses in the communications industry and public safety, FCC vendors and their contractors, and to other federal agencies or state, local, U.S. territorial, and Tribal government entities to administer, support, participate in, or receive information related to, FCC programs and activities; or to ensure compliance with the confidentiality and other rules regarding information sharing in the FCC's programs and activities; to other federal agencies or to other administrative or adjudicative bodies before which the FCC is authorized to appear; to federal, state, or local law enforcement when FCC becomes aware of an indication of a violation or potential violation of a civil or criminal statute, law, regulation, or order; to Federal agencies, non-Federal entities, their employees, and agents for the purpose of detecting and preventing fraud, waste, and abuse in Federal programs; to non-federal personnel, including contractors, grantees, and

volunteers who have been engaged to assist the FCC in the performance of a contract service, grant, cooperative agreement, or other activity related to this system of records and who need to have access to the records in order to perform their activity; and, to appropriate agencies, entities, and persons when the FCC suspects or has confirmed that there has been a breach of information related to this system.

A complete list of the routine uses can be found in the system of records notice associated with this collection, FCC-2, Business Contacts and Certifications, posted at <https://www.fcc.gov/managing-director/privacy-transparency/privacy-act-information>.

Disclosure: Responding to this survey is voluntary. However, if you do not respond, it will harm the ability of the FCC to evaluate the vendor(s) performance pursuant to their contracts and the FCC will lack the necessary information to modify the vendor(s) policies and procedures. This will, in turn, harm the FCC's ability to meet its policy goals related to numbering.
