

fur seals, monitoring and reporting through co-management processes established under their respective cooperative agreements. The regulations at 50 CFR 216.72 state that Pribilofians are responsible for reporting their subsistence needs and actual level of subsistence take. NMFS receives electronic copies of the northern fur seal subsistence use reports from the tribal governments of St. Paul and St. George annually. NMFS subsequently posts these reports online (<https://www.fisheries.noaa.gov/alaska/marine-mammal-protection/northern-fur-seal-subsistence-harvest-estimates-and-reports>) and includes the relevant data in the annual Alaska Marine Mammal Stock Assessment Report. The only change requested is the changing of the title of the information collection to Pribilof Islands, Taking for Subsistence Purposes.

Affected Public: Individuals or households, and State, Local or Tribal Government.

Frequency: Annual.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Fur Seal Act (16 U.S.C. 1155).

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Resident Perceptions of Offshore Wind Energy Development Off the Oregon Coast

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on October 3, 2022 (87 FR 59781) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Resident Perceptions of Offshore Wind Energy Development off the Oregon Coast.

OMB Control Number: 0648–0744.

Form Number(s): None.

Type of Request: Reinstatement with change.

Number of Respondents: 4,617.

Average Hours per Response: Focus groups: 1 hour; Questionnaire: 20 minutes.

Total Annual Burden Hours: 1,571.

Needs and Uses: Pursuant to E.O. 14057 (Executive Order on Catalyzing Clean Energy Industries and Jobs Through Federal Sustainability), the Outer Continental Shelf Land Act, the National Environmental Policy Act, and the Coastal Zone Management Act, this request is for a reinstatement of an information collection with change. This information collection will focus on a different geographical location (the coast of Oregon) and include focus groups, which will help guide any revisions necessary to the survey instrument.

The BOEM Pacific OCS Region has an active Renewable Energy Program and is currently processing wind and wave energy lease requests. Due to the relatively steep continental slope and deep water off the West Coast, different

types of offshore renewable energy technologies have been proposed for the Pacific Region than for the Atlantic Region. Outside of official public engagement forums, preferences about offshore wind energy development generally remain unknown for members of the public, as well as for groups who may not perceive themselves as stakeholders. Failure to gain the perspective of communities regarding potential benefits or impacts is problematic, particularly when latent stakeholders to local projects emerge late in the planning process.

The National Ocean Service (NOS) proposes to collect data on the opinions, values, and attitudes of Oregon Coast residents relative to offshore wind energy development. Respondents (age 18 years and older) will be randomly sampled from households in seven coastal counties. This information will be used by BOEM, NOAA, and others to understand what is important to communities; understand how differing values and perceptions across communities influence local receptivity to proposed development; and improve communication efforts targeted to residents, enabling agencies to more effectively and efficiently direct outreach and community inclusion activities. Additionally, NOAA has a vested interest in offshore wind energy development, from many perspectives, including as it relates to the resilience, well-being, and sustainability of coastal communities.

Affected Public: Individuals or households.

Frequency: This is a one-time information collection for this region, although the collection may be deployed to other regions in the future.

Respondent's Obligation: Voluntary.

Legal Authority: NOAA's Programmatic Authority—Integrated Coastal and Ocean Observation System Act (33 U.S.C. 3601 *et seq.*); BOEM's Programmatic Authority—Outer Continental Shelf Lands Act (43 U.S.C. 1346).

National Technical Information Service

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Limited Access Death Master File Certification Form (Certification Form)

AGENCY: National Technical Information Service (NTIS), Department of Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 27, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Daniel Ramsey, Supervisory Program Manager, Office of Program Management, National Technical Information Service, Department of Commerce, at dramsey@ntis.gov or at PRAcomments@doc.gov. Please reference OMB Control Number 0692–0013 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Daniel Ramsey, Supervisory Program Manager, Office of Program Management, National Technical Information Service, Department of Commerce, 5301 Shawnee Road, Alexandria, VA 22312 by email:

dramsey@ntis.gov or telephone: 703–605–6703.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of an existing information collection. NTIS issued a final rule establishing a program through which persons may become eligible to obtain access to Death Master File (DMF) information about an individual within three years of that individual's death (81 FR 34882, June 1, 2016). The final rule was promulgated under Section 203 of the Bipartisan Budget Act of 2013, Public Law 113–67 (Act). The Act prohibits the Secretary of Commerce (Secretary) from disclosing DMF information during the three-year period following an individual's death (Limited Access DMF), unless the person requesting the information has been certified to access the Limited Access DMF pursuant to certain criteria in a program that the Secretary establishes. The Secretary delegated the authority to carry out Section 203 to the Director of NTIS.

The final rule requires that a Person seeking access to the Limited Access Death Master File establish a legitimate fraud prevention interest or legitimate business purpose pursuant to a law, governmental rule, regulation, or fiduciary duty. The Certification Form collects information that NTIS will use to evaluate whether the respondent qualifies to receive the Limited Access Death Master File under the rule.

II. Method of Collection

Electronic.

III. Data

OMB Control Number: 0692–0013.

Form Number(s): NTIS FM161.

Type of Review: Regular submission (extension of approved information collection.)

Affected Public: Individuals or households.

Estimated Number of Respondents: 260.

Estimated Time per Response: 3 hours.

Estimated Total Annual Burden Hours: 780.

Estimated Total Annual Cost to Public: \$888,160.

Respondent's Obligation: Voluntary.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the

accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
