BILLING CODE P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30Day-23-1313]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request (ICR) titled “Distribution of Traceable Opioid Material Kits (TOM Kits) across U.S. and International Laboratories” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on 09/16/2022 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or

other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Distribution of Traceable Opioid Material Kits (TOM Kits) across U.S. and International Laboratories (OMB Control No. 0920-1313, expiration date 12/31/2022)—Revision—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In response to the Health and Human Services (HHS) Acting Secretary’s 2017 and ongoing public health emergency declaration on opioids, the Centers for Disease Control and Prevention (CDC) has led the development of Traceable Opioid Material Kits (TOM Kits) to support detection of emerging opioids. CDC maintains the contents of the TOM Kits based on new needs identified, in part, through the U.S. Drug Enforcement Agency (DEA) Emerging Threat Reports. For example, the DEA 2018 data indicated that fentanyl and fentanyl-related compounds accounted for approximately 76 percent of their opioid identifications.

The CDC is requesting a three-year Paperwork Reduction Act (PRA) clearance for a revision of this ICR (formerly known as “Distribution of Traceable Opioid Material Kits [TOM Kits] across U.S. Laboratories”)(OMB Control No. 0920-1313). As part of the proposed revisions, CDC will be expanding its program to include a new line of TOM Kits, the Emerging Drug Panel (EDP) Kits. For the EDP Kits, non-opioid compounds will be identified and updated by searching recent lists put out by the DEA and the Center for

Forensic Science Research and Education (CFSRE). These lists provide data on all classes of drugs that were recently identified in the field and provide recommendations on which drugs should be included in testing. They are updated several times a year and keep up with the changing drug landscape in the United States. For the current round, EDP Kits will include synthetic cannabinoids, stimulants, hallucinogens, and benzodiazepines.

CDC will distribute TOM Kits through a single vendor, which will manufacture the test kits. The CDC vendor will distribute these kits to domestic laboratories, as previously approved under CDC contract. As a revision, the CDC vendor will distribute these test kits to international laboratories in partnership with the United Nations and under a separate contract with the International Narcotics Control Board (INCB) (hereafter, collectively coined the “UN”). The UN, and not the CDC, is paying the vendor to ship the kits to international requesters.

TOM Kits are not intended for diagnostic use and are free to domestic and international laboratories in the public, private, clinical, law enforcement, research, and public health domains. The CDC vendor collects both application and laboratory information on domestic laboratories when they apply for test kits. International laboratories that apply for test kits through the UN will be directed to complete and share their laboratory information with the vendor, but not with the CDC. This information is used to prioritize which laboratories will receive kits when quantities are limited. The brief web-based surveys will allow the CDC to: (1) determine what service the recipient laboratory performs; and to (2) equitably distribute test kits based on the analysis techniques and matrices used by the recipient laboratory.

Over the past three years, CDC has received 1,472 requests from interested laboratories (approximately 490 requests per year) and has distributed 3,007 TOM Kits. Based on this experience and with the addition of EDP Kits, we anticipate that up to 600 domestic laboratories will request test kits per year. Given that each application will take six minutes, the annual time burden for 600 domestic laboratories will be 60 hours. CDC will add 20 additional annual burden hours for the international distribution of test kits. We estimate that 300 international partner laboratories will apply for test kits per year with the UN, which in turn will direct these laboratories to complete the brief four-minute survey on laboratory information on the CDC vendor website.

There is no burden on the respondents other than their time. CDC

estimates a total estimated time burden of 80 hours per year.

ESTIMATED ANNUALIZED BURDEN HOURS

| Type of respondents | Form name | Number of respondents | Number of responses per respondent | Average burden per response (in hours) |
|---|--|-----------------------|------------------------------------|--|
| U.S. Federal Laboratories | Test Kit Application and Questions for US Laboratories (online). | 200 | 1 | 6/60 |
| State, Local, and Tribal Government Laboratories. | Test Kit Application and Questions for US Laboratories (online). | 200 | 1 | 6/60 |
| Private or Not-for-Profit US Institutions | Test Kit Application and Questions for US Laboratories (online). | 200 | 1 | 6/60 |
| International Laboratories | Test Kit Questions for International Laboratories. | 300 | 1 | 4/60 |

Jeffrey M. Zirger,

Lead, Information Collection Review Office, Office of Scientific Integrity, Office of Science, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

[OMB No. 0915-0322—Extension]

Agency Information Collection Activities: Proposed Collection: Public Comment Request; Information Collection Request Title: Data Collection Tool for State Offices of Rural Health Grant Program

AGENCY: Health Resources and Services Administration (HRSA), Department of Health and Human Services.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects of the Paperwork Reduction Act of 1995, HRSA announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this ICR should be received no later than February 27, 2023.

ADDRESSES: Submit your comments to paperwork@hrsa.gov or mail the HRSA Information Collection Clearance

Officer, Room 14N39, 5600 Fishers Lane, Rockville, Maryland 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email paperwork@hrsa.gov or call Samantha Miller, the HRSA Information Collection Clearance Officer at (301) 594-4394.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the ICR title for reference.

Information Collection Request Title: Data Collection Tool for State Offices of Rural Health Grant Program, OMB No. 0915-0322—Extension.

Abstract: The HRSA, Federal Office of Rural Health Policy (FORHP), is requesting OMB approval to continue use of a Technical Assistance (TA) Data Form for the State Offices of Rural Health (SORH) Grant program established by section 338J of the Public Health Service Act (42 U.S.C. 254r). In its authorizing language (sec. 711 of the Social Security Act [42 U.S.C. 912]), Congress charged FORHP with administering grants, cooperative agreements, and contracts to provide TA and other activities as necessary to support activities related to improving health care in rural areas. The mission of FORHP is to sustain and improve access to quality health care services for rural communities. This electronic form is used to collect information from SORH grantees on the amount of direct TA they provide to clients within their state.

Need and Proposed Use of the Information: FORHP seeks to continue gathering information from grantees on their efforts to provide TA to clients

within their state. SORH grantees submit a TA Report that includes: (1) the total number of TA encounters provided directly by the grantee, and (2) the total number of unduplicated clients that received direct TA from the grantee. These measures will continue in these three categories: (1) information disseminated, (2) information created, and (3) collaborative efforts by (a) topic area and (b) type of audience. These measures are used to obtain an accurate depiction of the breadth of SORH work based on recommendations from the grantees. Submission of the TA Report is submitted via the HRSA Electronic Handbook no later than 60 days after the end of each 12-month budget period.

Grant dollars are awarded annually; therefore, this information is needed annually by the program in order to measure effective use of grant dollars consistently among all the grantees.

Likely Respondents: Fifty SORH award recipients.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.
