

Justification for Nonsubstantive Change
Expressions of Interest in the Infant Well-Child Visit Affinity Group
CMS-10398 #72, OMB 0938-1148

This collection of information request was initially approved by OMB on July 23, 2021. Since the reporting requirements are associated with a rare and extenuating circumstance (the COVID-19 public health emergency), it was submitted to OMB and approved ahead of the publication of the 14-day Federal Register notice.

The 14-day notice published on July 30, 2021 (86 FR 41039). Comments were due by August 13, 2021, but none were received.

We have added 5 hours of burden due to the limitations of ROCIS which prevents the submission of zero (0) burden hours for generic collection of information requests such as this.

This August 27, 2021 nonsubstantive change request includes the following documents:

1-Generic Supporting Statement (Nonsubstantive Change)

The change is limited to the Timeline section which now includes text related to the 14-day Federal Register notice and comment period.

2- Maternal and Infant Health Initiative Infant Well-Child Visit Learning Collaborative Affinity Group Expression of Interest Form (No Change)

3-Maternal and Infant Health Initiative Infant Well-Child Visit Learning Collaborative Affinity Group Fact Sheet (No Change)

4-Justification for Nonsubstantive Change (New)
