# Expenditure Reporting Overview

# Intended Audience

- **Primary Audience:** The primary intended audience for this document is PEPFAR Implementing Partners-both prime partners and subrecipients-who will be reporting expenditures for the FY21 cycle
- **Secondary Audience:** The secondary audience for this document is anyone who supports implementing partners in the expenditure reporting process and thus should have familiarity with the process for implementing partners reporting expenditures (e.g. PEPFAR implementing agency colleagues), and also, future PEPFAR implementing partners, who may want to prepare for expenditure reporting in future cycles.

# Expenditure Reporting Submission Overview

- The expenditure reporting submission should include all expenditures made during Fiscal Year 2020 (October 1, 2019 - September 30, 2020)
- Submissions will be made by PEPFAR implementing partners using the expenditure reporting template; one template should be completed for each separate Operating Unit (OU) and mechanism.
- All submissions should comply with federal cost regulations, as outlined in Part 200, Subpart E of the Code of Federal Regulations. This section of the CFR describes cost principles for non-federal entities receiving federal awards, including cost principles related to the classification of direct and indirect costs, the allowability, reasonability and allocability of costs, as well as other cost principles. CFR Part 200 Subpart E can be accessed here: <https://www.ecfr.gov/cgi-bin/text-idx?node=2:1.1.2.2.1#sp2.1.200.e>
- Public reporting burden for this collection of information is estimated to average 24 hours per response, including time required for searching existing data sources, gathering the necessary documentation, providing the information and/or documents required, and reviewing the final collection. You do not have to supply this information unless this collection displays a currently valid OMB control number. If you have comments on the accuracy of this burden estimate and/or recommendations for reducing it, please send them to: Office of the US Global AIDS Coordinator (S/GAC) U.S. Department of State, 1800 G Street, NW, 10th Floor, Washington, DC 20006.

# Expenditure Reporting Compliance with CFR Cost Principles

- All submissions should comply with federal cost regulations, as outlined in Part 200, Subpart E of the Code of Federal Regulations.
- CFR Part 200 Subpart E can be accessed here: <https://www.ecfr.gov/cgi-bin/text-idx?node=2:1.1.2.2.1#sp2.1.200.e>
- This section of the CFR describes cost principles for non-federal entities receiving federal awards, including cost principles related to the
  - [classification of direct and indirect costs](#),
  - [the allowability](#),
  - [reasonability and](#)
  - [allocability of costs](#), as well as other cost principles.
- Value Added Tax (VAT) Foreign taxes charged for the purchase of goods or services that a non-Federal entity is legally required to pay in country is an allowable expense under Federal awards as direct or indirect costs. To the extent that such credits accrued or received by the non-Federal entity relate to allowable cost, these costs must be credited to the Federal awarding agency either as costs or cash refunds. More information can be found [here](#).

# Agency Cost Principles and Reporting Requirements

- In addition to the federal cost principles outlined to the CFR Part 200, each implementing agency may have additional cost principles and other terms that must be respected as part of the expenditure reporting process.
- Implementing partners should confer with their awarding agency to ensure that their expenditure reporting submission complies with expenditure and cost requirements for that agency.
- For awards made by The Department of State, reporting must comply with U.S. Department of State Standard Terms and Conditions, which can be accessed [here](#).

# PEPFAR FY21 Expenditure Reporting Template Overview

- The expenditure reporting template should be used by Implementing Partners to report COP20/FY21 PEPFAR expenditures.
- The template is posted on DATIM Zendesk here: <https://datim.zendesk.com/hc/en-us/articles/360016058191-Expenditure-Reporting-Excel-Template>
- For those familiar with expenditure reporting (ER), the COP20/FY21 template is the same format as the COP20/FY21 template.
  - IPs are not required to submit expenditures for subrecipients by cost category.
  - Prime Implementing Partners (IPs) will upload and submit templates in DATIM.
  - One separate template should be completed for each separate Operating Unit (OU) and mechanism.
- USG Staff will be involved in the workflow and approval of data.
- Please read through expenditure reporting guidance on this template prior to completing this form. All programmatic guidance and systems instructions can be found on <https://datim.zendesk.com>.

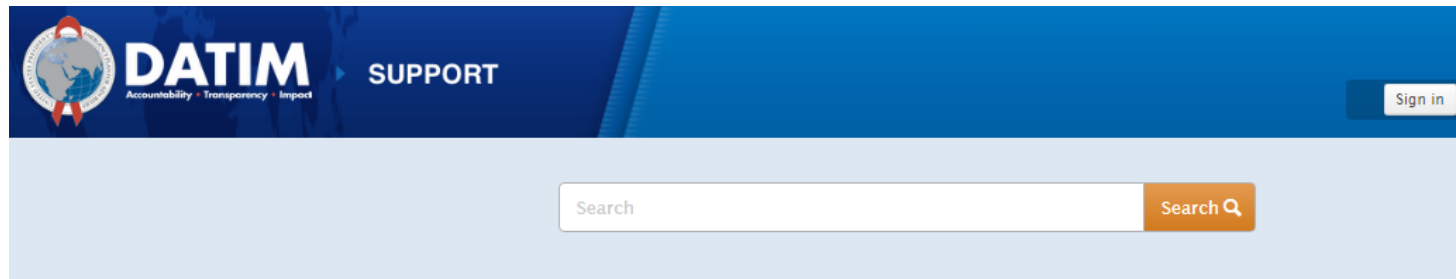

# DATIM Account User Administration Overview

- User Administrators (UAs) will continue to administer accounts using the established ER process to grant users access to ER.
  - Users *with* existing DATIM accounts with ER access to upload and submit expenditure templates. No additional user administration is necessary.
  - Users *without* existing DATIM accounts with ER data access need to request a new account.
- All accounts with ER access will also have budget and projected expenditure access for future data collection.

# Guidance and Instructions

All guidance and instructions related to submitting expenditure templates in DATIM can be found at <https://datim.zendesk.com>.

**BROWSER COMPATIBILITY NOTE:** Microsoft Internet Explorer (IE) 10 and earlier versions are not supported by DATIM. The DATIM Support Team recommends using the Google Chrome, Mozilla Firefox, or Microsoft IE 11 browsers while using DATIM.

# First Look at the ER Template

The template contains three tabs:

- Instructions (no data entry)
  - Provides background and information about the template and reporting requirement
- Metadata and Error Checks (data entry)
  - This tab contains two separate components:
    - The Metadata is where implementing mechanisms provide identifying information about themselves
    - The Error Checks section is where the template will identify certain errors that partners should correct prior to submission
- Expenditure Template (data entry)
  - This is where all interventions will be categorized and all expenditures will be reported

# Process for Filling out the ER Template

1

- Enter Metadata
  - Identify information about the IP and the contracted project

2

- Enter FY21 PEPFAR program expenditures
  - Categorize interventions and enter expenditure data

3

- Review for Errors and Revise Data as Necessary
  - Review and verify data entered in step 2

4

- Upload to DATIM and Submit
  - Upload the ER template to DATIM via the ERB app and submit the mechanism for approval via the Data Approval app

**STEP 1: Obtain a DUNS Number**

Obtaining a Data Universal Number System (DUNS) number is the first step in registering as an organization applicant in Grants.gov. The instructions below describe DUNS and walk through the process of acquiring a free DUNS number.

**Purpose of DUNS**

A DUNS number is a unique nine-character number used to identify your organization. The federal government uses the DUNS number to track how federal money is allocated.

**Before Registering for a DUNS Number**

Does my organization already have a DUNS number? Most large organizations, libraries, colleges, and research universities already have a DUNS number. You should contact your grant administrator, financial department, chief financial officer, or authorizing official to identify your organization's DUNS number.

**How to Register for a DUNS Number**

If your organization does not yet have a DUNS number, or no one knows it, visit the [Dun & Bradstreet \(D&B\) website](#) [Click to View Exit Disclaimer](#) or call 1-866-705-5711 to register or search for a DUNS number.

Registering for a DUNS number is free of charge, so if you encounter any organizations or websites soliciting a fee or charge to acquire a DUNS number it is likely a scam or fraudulent.

You will need all of the information listed below to obtain a DUNS number:

- Name of organization
- Organization address
- Name of the chief executive officer (CEO) or organization owner
- Legal structure of the organization (e.g., corporation, partnership, proprietorship)

# Prime partner and subrecipient expenditure reporting process in FY21

- In FY21, there will be one template submitted for each prime partner and one template submitted for each subrecipient
- Both prime partners and subrecipients will report expenditures by intervention with full cost category detail for each intervention
- There will be one and only one template for expenditure reporting in FY21: prime partners will use the same template as subrecipients, and thus the following template instructions apply to both prime partners and subrecipients

# Step by Step Instructions for Entering Expenditure Data into the Expenditure Reporting Template

- Step 1: Select program, sub-program, and service delivery or non-service delivery
- Step 2: Select beneficiary and sub beneficiary
- Step 3: Enter expenditures by sub cost categories for each intervention
- Step 4: If applicable: enter subrecipient names, DUNS, and expenditures by intervention

The first intervention has been populated as program management in the blank template.

All IMs will have some expenditures for program management. If additional program management interventions are required, please enter them in interventions 2 through 35.

The default beneficiary is Non-targeted Pop: Not disaggregated. However, users can change the beneficiary.

For each intervention, enter expenditures into the appropriate sub cost categories.

# Appropriate Sub Categories for Program Management Interventions

- If Program Management is selected as the Program Area in interventions 2 through 35, certain cost categories are not applicable for data entry.
  - These cost categories are:
    - Personnel: Salaries – Health Care Workers - Clinical
    - Personnel: Salaries – Health Care Workers – Ancillary
    - Supplies: Pharmaceuticals
    - Supplies: Health – Non Pharmaceuticals
    - Contractual: Contracted Health Care workers – Clinical
    - Contractual: Contracted Health Care workers – Ancillary
    - Contractual: Contracted Interventions
    - Subrecipient
- If Program Management is not selected as the Program Area in an intervention, the Indirect Charges cost category is not appropriate for data entry.

The template will not prevent you from entering into these cost categories, however upon upload to DATIM, the error will be flagged and the template will fail to validate.

# Indirect Charges in Interventions 2-35

- Just as certain cost categories are not available for Program Management interventions, one cost category - Indirect Charges – is ONLY available for Program Management interventions.
- Indirect charges may be entered in intervention 1, which defaults to Program Management, or it may be entered in interventions 2-35 for any intervention with a Program Area of Program Management.
- If indirect charges are entered against an intervention with a Program Area other than Program Management (e.g., C&T or Socioeconomic), the template will not prevent you from entering into these cost categories, however upon upload to DATIM, the error will be flagged and the template will fail to validate.

## ERROR CHECKS

Does the Prime DUNS number fail to meet data entry criteria? (Exactly nine digits and cannot be 00000) No, the prime DUNS number satisfies the data entry criteria.

Does the program management expenditure still need to be entered? No, the program management expenditure has been entered.

Have interventions been defined with incomplete program area and beneficiary information? **Yes, there are intervention(s) that have not been fully defined. This will cause an error when uploading.**

If yes, which intervention(s) have not been fully defined?	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

Have very unlikely combinations of program area and beneficiaries been selected? No, there are not any very unlikely combinations that have been selected.

If yes, in which intervention(s) do very unlikely combinations exist?	1	2	3	4	18	19	20

Are there any subrecipient rows that have have a zero-dollar expenditure?

Are there any subrecipient rows that have an an expenditure but are missing a DU

Or are missing a subrecipient name?

Or are missing both the subrecipient name and the DUNS number?

Or used 00000000 as a DUNS number?

Is there any data entered outside of the subrecipient rows that were specified?

Subrecipient rows created: 0

First row that should be empty: 34

Cells expected to be blank: 3700

Count of blank cells after last row: 3700

Non-blank cells after last row: 0

The template will also check that interventions have been fully defined. This means that for any intervention that has expenditures, a program area and beneficiary has been selected.

Each intervention that has not been fully defined will be identified here by its number. A template with this error will **not** constitute a valid upload in DATIM, i.e., **validation will fail.**

The template will also check that interventions have not been defined with very unlikely combinations of program area and beneficiaries.

For example, if your program area is "PREV: VMMC-SD," a very unlikely beneficiary combination would be "Females: Adult women." Each intervention that has a very unlikely combination will be identified here by its number.

- 18219 - GH002062 - NPHC/UCDC Care and Treatment

A red box highlights the "Include Expired" toggle switch, which is currently turned off. A red arrow points from the "Include Expired" toggle to the Mechanism dropdown menu. A grey arrow points from the text "Please select a Funding Mechanism to submit templates" to the Mechanism dropdown menu.

# Selecting Template File to Upload

Click the Upload Template icon in the Prime Partner upload field

The screenshot shows the ERB Processor interface. On the left is a sidebar with filters: Operating Unit (Ukraine), Workstream (Expenditure Reporti...), COP Year (COP 19), Mechanism (18219 - GH002062 ...), and an 'Include Expired' toggle. The main content area has a header 'ER ENVIRONMENT (DEV)' and a 'PP' button. Below the header, there's a 'Prime Partner' section with a table of mechanisms and a 'Status' summary. The 'Status' summary shows 'Total from all templates: n/a' and 'Approval Status: Pending'. Below this is a 'DATIM APPROVALS' link. At the bottom, there's a 'Prime Partner' table with columns: DUNS #, Uploaded Template, Status, Int, Amount, and Del. The 'Uploaded Template' column contains an 'UPLOAD TEMPLATE' button with an upload icon, which is highlighted with a red box.

# Selecting Template File to Upload

- Select the template document and wait for file to upload

The screenshot displays the ERB Processor interface in the ER ENVIRONMENT (DEV). The interface includes a sidebar with filters for Operating Unit (Ukraine), Workstream (Expenditure Reporti...), COP Year (COP 19), and Mechanism (18219 - GH002062 ...). An 'Include Expired' toggle is also present. The main content area shows a 'Partner' section with a table of details: Total amount: n/a, Approval Status: Pending, and a 'DATIM APPROVALS' link. Below this is an 'UPLOAD TEMPLATE' button. A Windows 'Open' dialog box is overlaid on the interface, showing the 'This PC > Documents' path. The file 'COP19 FY20\_ER\_18219.xlsx' is selected in the file list, with a date modified of 9/10/2020 7:33 AM. The file name field at the bottom of the dialog also contains 'COP19 FY20\_ER\_18219.xlsx' and the file type is set to 'Custom Files (\*.xls;\*.xlsx)'. The 'Open' button is highlighted.

# Invalid File

- If the template is invalid, the Status field will be flagged with a **red “error”** status and **exclamation point icon**. Click the status to reveal the error message regarding the error(s) that caused the upload to fail DATIM’s validation check
- IPs should not submit invalid templates. Invalid files must be deleted, corrected, and re-uploaded

The screenshot shows the ER ENVIRONMENT (DEV) interface. On the left is a sidebar with filters for ERB Processor, Operating Unit (Ukraine), Workstream (Expenditure Reporti...), COP Year (COP 19), Mechanism (18219 - GH002062 ...), and an 'Include Expired' toggle. The main content area displays details for a Partner. A table shows Mechanism information: Mech ID (18219), Award # (GH002062), and Mechanism Name (NPHC/UCDC Care and Treatment). To the right, a Status section shows 'Total from all templates: n/a' and 'Approval Status: Pending'. Below this is a 'DATIM APPROVALS' button with an external link icon. The 'Prime Partner' section contains a table with columns: DUNS #, Uploaded Template, Status, Int, Amount, and Del. One row is highlighted with a red border, showing 'n/a' for DUNS #, 'COP19 FY20\_ER\_18219.xlsx' for Uploaded Template, and '1 error' for Status. Below this row, an error message is displayed: 'error #1: Metadata and Error Checks - The award number in the FACTS Info NextGen system does not match the award number supplied in the file. (Q104) (Template: None, FACTS Info: GH002062)'. A red 'X' icon is next to the error message.

# DATIM Validation Checks

IPs should not submit templates which have not been validated in DATIM. Instead,

1. Delete the invalid file
2. Review the error message that will alert you to the error(s) that caused the file to fail DATIM's validation check
3. Make the appropriate revisions to the template
  - Check for template errors reviewed in slides 44-77
  - Refer to “DATIM Error Message and Resolutions”, which can be found at <https://datim.zendesk.com>
4. Upload the revised file. DATIM will re-run validation checks
5. Review the Status field and confirm validation
6. Submit in Data Approval app

# Reviewer Checks: Overview

- Once the FY20 ER template has been successfully uploaded to DATIM and submitted by the IP, it will be reviewed by the Agency AOR/COR/Project Officer (Agency reviewer)
- The Agency reviewer will check for:
  - Errors or blanks in the metadata, such as incorrect Award number
  - Program management expenditure not entered when expected – including indirect costs, if applicable
  - Interventions not aligned to COP strategy or IP work plans
  - Expenditures that do not seem to be aligned to the intervention definition
  - Expenditures that are less than or in excess of expectations
- If the reviewer notes any of the above or other potential errors, he/she may contact the IP for further explanation or to require or suggest revisions prior to approving the ER template. In this case, the IP may be asked to upload a revised template.

# View Submitted Mechanisms

- If you need to check the status of Implementing Mechanisms in the future, go to the Data Approval app's View tab
- You can see the status of each mechanism here
