

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 1545-2274)

TITLE OF INFORMATION COLLECTION:

FY23 Pretesting of Wage & Investment (W&I) Taxpayer Experience Survey (TES)

PURPOSE:

The objective of this task is to conduct cognitive testing of items for the Taxpayer Experience Survey. Some items are new, some are updated, and some are longstanding items in need of review.

Cognitive testing is a technique used in survey design to uncover any underlying comprehension or retrieval problems among the relevant respondent population. The results of cognitive testing may lead to revisions of survey questions and changes in question order to enhance response rates, respondent comprehension, and data quality.

DESCRIPTION OF RESPONDENTS:

The cognitive interview participants are recruited through the National Research Opinion Center’s (NORC) AmeriSpeak Panel. Panel members are eligible to participate if they can report who prepared their income tax return and are at least somewhat familiar with their return.

Personally Identifiable Information:

1. Is personally identifiable information (PII) collected? Yes No
2. If Yes, will any information that is collected be included in records that are subject to the Privacy Act of 1974? Yes No
3. If Yes, has an up-to-date System of Records Notice (SORN) been published? Yes No

Gifts or Payments:

Is an incentive (e.g., money or reimbursement of expenses, token of appreciation) provided to participants? Yes No

The contractor will provide a point stipend to each pretest participant that is worth \$75. The justification for this is that without it, the contractor may not be able to attract subjects to participate in this study. Offering incentives for participating in this type of research is a standard industry practice.

If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe?
 Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan)?
If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them?

The cognitive interview participants will be recruited through the National Research Opinion Center's (NORC) AmeriSpeak Panel. First, NORC will send select panel members an email that contains a link to a short online survey to screen for eligibility to participate in the cognitive interviews. Participants will be deemed eligible to participate if they can report who prepared their income tax return and are at least somewhat familiar with their return. If eligible and interested in participating in an interview, participants will indicate when they can participate among the dates and timeslots available (from 9 a.m. to 6 p.m. ET Monday thru Friday during the interview period). NORC will then compile a list of eligible participants, from which ICF staff will select those to invite to participate.

The contractor will conduct the interviews by Microsoft Teams to ensure that respondents understand the questions correctly and clearly, and to test the flow of the question set. The contractor will question 28 participants; that quantity is sufficient to explore relevant themes discovered through analysis of the survey data.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)
 - Web-based or other forms of Social Media
 - Telephone
 - In-person
 - Mail
 - Other, Explain
