Inventory List of Individual Collection(s) of Information
by
The Western Area Power Administration
November 10, 2023

</div>

There is only one Collection of Information proposed for extension by the Western Area Power Administration (WAPA), specifically, the Applicant Profile Data (APD). Due to Consumer Price Index inflation (CPI-core), WAPA is escalating the respondent cost per burden hour from its previous PRA process completed in 2020. While the form updates improve functionality and ease for someone completing the application, the time it takes to fill out the form is unchanged which means the annual burden hour per respondent/response remains 7.5 hours. Based on the number of respondents completing the APD estimated at 100 over a 3-year period with 30 successful applicants in the 3-year period, the annual hour and cost burdens are listed below.

<div align="center">

Table 1: Annual Hour Burden Estimates

</div>

Activity	Number of respondents	Number of responses per respondent	Average burden hour per response	Sub-total burden hours
APD	33.333	1	7.5	250
Record Keeping	30	1	1	30
			Total Burden	280

<div align="center">

Table 2: Annual Cost Burden Estimate

</div>

Instrument	Number of respondents	Number of responses per respondent	Average annual burden hour	Cost per burden hour	Cost per response	Sub-total cost
Prepare APD	33.33	1	7.5	$ 140.50	$1,053.75	$35,121.50
Record Keeping	30	1	1	$ 70.00	$ 70.00	$ 2,100.00
					Total Cost	$37,221.50
