

from commercial or recreational fishing platforms.

To regulate these fishing activities, NMFS needs information to determine the justification for granting an EFP, LOA, SRP, display, or shark research fishery permit. The application requirements are detailed at 50 CFR 600.745(b)(2). Interim, annual, and no-catch/fishing reports must also be submitted to the HMS Management Division within NMFS (excluding LOAs). The authority for NMFS requiring this information is found at 50 CFR 635.32.

NMFS has updated the burden estimates based on participation in the HMS Management Division's exempted fishing program from 2021 through 2023 and the Shark Research Fishery from 2021 through 2023.

II. Method of Collection

Respondents can submit the required information via email via electronic forms (PDF or spreadsheet). NMFS is currently developing an online electronic reporting portal for the submission of required EFP reports, which will be available in 2024.

III. Data

OMB Control Number: 0648–0471.

Form Number(s): None.

Type of Review: Regular submission (extension of a currently approved collection).

Estimated Number of Respondents: 58.

Estimated Time per Response: 2 hours for a scientific research plan; 40 minutes for an application for an EFP, display permit, SRP, LOA, or shark research fishery permit; 1 hour for an interim report; 40 minutes for an annual fishing report; 15 minutes for an application for an amendment; 5 minutes for notification of departure phone calls to NMFS Enforcement; 10 minutes for calls to request and observer; and 2 minutes for “no-catch” reports.

Estimated Total Annual Burden Hours: 224.

Estimated Total Annual Cost to Public: None.

Respondent's Obligation: Voluntary for applications and Mandatory for reporting and notifications.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and the Atlantic Tunas Convention Act of 1975. (16 U.S.C. 971 *et seq.*)

IV. Request for Comments

We are soliciting public comments to permit the Department/NMFS to: (a) Evaluate whether the proposed information collection is necessary for

the proper functions of the Department/NMFS, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Pacific Islands Region Permit Family of Forms

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public

comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before February 12, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0490 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Walter Ikehara, Fishery Information Specialist, National Marine Fisheries Service, Pacific Islands Region, 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818, (808) 725–5175, walter.ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection.

The Magnuson-Stevens Fishery Conservation and Management Act established the Western Pacific Fishery Management Council (Council), to develop fishery ecosystem plans (FEP) for fisheries in the United States (U.S.) exclusive economic zone (EEZ) and high seas of the Pacific Islands region. These plans, if approved by the Secretary of Commerce, are implemented in Federal regulations by the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) and enforced by NOAA's Office of Law Enforcement (OLE) and the U.S. Coast Guard (USCG), in cooperation with state and territorial agencies. FEPs regulate fishing to prevent overfishing and to ensure the long-term productivity and social and economic benefit of the resources.

Regulations at 50 CFR 665, Subpart F, require that a vessel used to fish with longline gear for western Pacific pelagic management unit species (PMUS), land or transship longline caught PMUS, or receive longline caught PMUS from a longline vessel, within the Exclusive Economic Zone (EEZ) or management subarea around U.S. islands in the central and western Pacific must be registered to a valid Federal fishing permit. The regulations also require that a vessel used to fish with squid jig gear for pelagic squid species listed in the western Pacific PMUS within the EEZ or management subareas around U.S.

islands in the central and western Pacific, or fish with troll and handline gear for PMUS in allowed locations within the EEZ around each of the Pacific Remote Island Areas (PRIA), must be registered to a valid Federal fishing permit.

Regulations at 50 CFR parts 665, Subparts D and E, require that the owner of a vessel used to fish for, land, or transship bottomfish management unit species (BMUS) using a large vessel (50 ft or longer) in the Guam management subarea, fish commercially for BMUS in the Commonwealth of the Northern Mariana Islands management subarea, or fish for BMUS in allowed locations within the EEZ around each of the PRIA, must register it to a valid Federal fishing permit.

Regulations at 50 CFR parts 665, Subparts B, C, D, and E, require that the owner of a vessel used to fish for, land, or transship crustacean management unit species (CMUS) in the EEZs or management subareas around American Samoa, Hawaii, Guam, Northern Mariana Islands, or in allowed locations within the EEZ around each of the PRIA, must register it to a valid Federal fishing permit. The regulations also require that a vessel used to fish for precious corals within the EEZ or management subarea around U.S. islands in the central and western Pacific must be registered to a valid Federal fishing permit for a specific precious coral permit area.

This collection of information is needed for permit issuance, to identify actual or potential participants in the fishery, determine qualifications for permits, and to help measure the impacts of management controls on the participants in the fishery. The permit program is also an effective tool in the enforcement of fishery regulations and facilitates communication between NMFS and fishermen.

II. Method of Collection

Respondents may submit applications and required documents via secure email, or via online application systems where implemented.

III. Data

OMB Control Number: 0648–0490.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations; individuals or households; not-for-profit institutions; state, local, or tribal government; Federal government.

Estimated Number of Respondents: 276.

Estimated Time per Response: Hawaii longline limited entry permit: renew via secure email—30 min; renew online—15 min; transfer—1 hr; apply for closed area exemption or permit appeal—2 hr. American Samoa longline limited entry permit: renew or apply for additional permit via secure email—45 min; transfer—1 hour 15 min; permit appeal—2 hr. All other permits: apply via secure email—30 min; apply online—15 min.

Estimated Total Annual Burden Hours: 131.5.

Estimated Total Annual Cost to Public: \$12,650.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 665.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; For-Hire Telephone Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on 09/05/2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: For-Hire Telephone Survey.

OMB Control Number: 0648–0709.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 21,930.

Average Hours per Response: 3 minutes, 30 seconds.

Total Annual Burden Hours: 1,279.

Needs and Uses: This request is for extension of a currently approved information collection. The For-Hire Survey (FHS) is conducted for NMFS to estimate fishing effort on for-hire vessels (*i.e.*, charter boats and head boats) in coastal states from Maine to Mississippi. These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), as amended, regarding conservation and management of fishery resources.

The FHS collects fishing effort information from for-hire vessel representatives by telephone interview. For-hire vessels are randomly selected for the FHS from a comprehensive sample frame developed and maintained by NMFS. A sample of 10% of the vessels on the FHS frame are selected for reporting each week. Each interview collects information about the vessel, the number and type of trips the vessel made during the reporting week, the number of anglers on each trip, and other trip-level information.
