

Request for Approval under the “Generic Clearance for the Collection of Routine Customer Feedback” (OMB Control Number: 0920-1071)

TITLE OF INFORMATION COLLECTION: SBS Excel Tool for Thematic Analysis Feedback Survey

PURPOSE: The Social and Behavioral Sciences team have developed a free and publicly available Excel tool to guide people in planning, collecting, and analyzing text information from communities (the CDC Excel Tool for Thematic Analysis). This tool will be published on an NCEZID webpage in 2024 and the development team would like to include a short feedback survey about the tool on the website. The goal of collecting feedback from people visiting the Excel tool website is to help the tool’s developers understand who the audience of the tool is and what settings they work in, as well as quickly identify and respond to any technical issues with downloading or using the tool. We will also include questions asking for feedback about possible improvements we could make to the tool to better serve those in public health involved in collecting, synthesizing, and implementing findings from text data.

DESCRIPTION OF RESPONDENTS: Respondents will be members of the public who are interested in using the CDC Excel Tool for Thematic Analysis, have visited the tool’s website and are willing to voluntarily provide anonymous feedback. We anticipate that this group will include public health professionals interested in collecting and analyzing community feedback in text form.
