

Money Follows the Person (MFP) Portal

Get started by completing a MFP Work Plan for your state or territory. After your MFP Work Plan is submitted and approved, you will be able to complete a MFP Semi-Annual Progress Report. Learn more about this [new data collection tool](#) from CMS. For additional guidance on completing this form, see the associated User Guide and Help File.

MFP Work Plan

The MFP Work Plan is the state or territory's road map for accomplishing the rebalancing objective described in section [6071\(a\)\(1\) of the Deficit Reduction Act \(DRA\)](#) as "increasing the use of home and community-based, rather than institutional, long-term care services."

[User Guide and Help File](#)

[Enter Work Plan online](#)

When is the MFP Work Plan due? [+](#)

MFP Semi-Annual Progress Report (SAR)

The MFP Semi-Annual Progress Report is used to present the recipient's analysis and the status of the various operational areas in reaching the objectives of the Demonstration. Through the SARs, the recipient will further enumerate how they have, or intend to, meet or align with the recipient's MFP operational procedures and processes; transition benchmarks; program goals for expanding and enhancing home and community-based services (HCBS); and sustainability plans.

Texas MFP Work Plan

Instructions

This reporting tool is to be used to describe state or territory-specific initiatives. Start or amend a new MFP Work Plan below to capture these initiatives designed to increase the use and quality of home and community-based services.

MFP Work Plan to Semi-Annual Progress Report Process

You must create, submit, and get your MFP Work Plan approved by your CMS MFP Project Officer in order to start the corresponding MFP Semi-Annual Progress Report (SAR). Once the first MFP Work Plan is approved, for each sequential reporting period you must update it, which also requires CMS approval to start the corresponding SAR. This is to ensure that your tracked target populations, transition benchmarks, initiatives, evaluation plan objectives, and funding sources are all available to report on in the SAR.

You will be able to view all MFP Work Plans from previous periods. For additional guidance on completing this form, see the associated [User Guide](#) and [Help File](#).

General Information

The Money Follows the Person (MFP) Demonstration Work Plan is the state or territory's road map for accomplishing the rebalancing objective described in section [6071\(a\)\(1\) of the Deficit Reduction Act \(DRA\)](#) as "increasing the use of home and community-based, rather than institutional, long-term care services." The MFP Work Plan presents MFP Demonstration initiatives that support the state or territory's unique rebalancing goals and objectives. The MFP Work Plan enables states or territories and Centers for Medicare & Medicaid Services (CMS) to monitor state or territory-specific initiatives throughout the grant and make course corrections where needed. While the MFP Work Plan describes state or territory initiatives and sets performance measures, the MFP Semi-Annual Progress Report will capture progress on these initiatives and performance measures, alongside other information.

CMS may amend or add new MFP Work Plan fields during the Demonstration period. For additional guidance on completing this form, please see the [User Guide and Help File](#).

Transition Benchmark Projections

Provide the projected number of transitions for each target population during each quarter. This number includes qualified institutional residents who enroll in MFP, and are anticipated to be discharged from an institution to a qualified residence during the reporting period in the quarter.

Considerations around target populations

An approach for defining target populations should be outlined in your Operational Protocol. Those definitions should be used to report the transition benchmarks. You may need to track some populations outside of these categories to see utilization to address questions from stakeholders and those circumstances should be discussed with your CMS MFP Project Officer.

In the next section, you will be asked to describe your state or territory-specific initiatives, which may inform which target populations you include here when you think about who is being served by your different planned initiatives.

Additional information on strategies to achieve transition targets will be included in the state or territory-specific initiative on transitions and transition coordination services in the next section.

State or Territory Specific Initiatives Instructions

State or territory-specific initiatives are a distinct set of activities designed to increase the use of home and community-based services (HCBS) rather than institutional long-term services and supports. These initiatives can be funded using one or more of these funding sources:

- MFP cooperative agreement funds for:
 - Qualified HCBS and demonstration services
 - Supplemental services
 - Administrative activities
 - Capacity building initiatives
- State or territory equivalent funds attributable to the MFP-enhanced match

Recipients must identify and describe the required initiatives below and have the option to identify additional initiatives on other topics.

Required* Initiatives	Optional Initiatives
<ul style="list-style-type: none"> Transitions and transition coordination services Housing-related supports Quality measurement and improvement Self-direction (if applicable) Tribal initiative (if applicable) 	<ul style="list-style-type: none"> Recruitment and enrollment Person-centered planning and services No Wrong Door systems Community transition support Direct service workforce and caregivers Employment support Convenient and accessible transportation options Data-based decision-making Financing approaches Stakeholder engagement Equity and social determinants of health (SDOH) Other

*Required by Program Terms and Conditions

For each initiative, recipients will be asked to provide:

- Initiative description, including target populations and timeframe
- An evaluation plan, including measurable objectives
- Funding sources, with projected quarterly expenditures
- Initiative close-out information, to be completed as appropriate during MFP Work Plan revisions

The MFP Work Plan should establish one or more demonstrable objectives for each initiative, set associated performance measures or indicators to monitor progress, and clearly articulate the actions necessary to achieve the objectives. Progress towards meeting these objectives indicates a state's or territory's increased capacity to provide HCBS, rather than institutional, long-term care services.

The recipient must identify the MFP funding source(s) for each initiative and provide quarterly projected spending by funding source. Funding sources for initiatives include state or territory funds equivalent to the MFP-enhanced Federal Medical Assistance Percentage (FMAP); MFP capacity building funding; MFP funding for qualified HCBS, demonstration services, and supplemental services; or MFP administrative cooperative agreement funding.

If a recipient updates the MFP Work Plan to indicate that an initiative will no longer be sustained with MFP funding or state or territory-equivalent funding, the recipient must explain whether the initiative will be terminated or sustained through another funding source.

Answer the following questions regarding required initiative topics. This is necessary in order to track completion of required data.

Are self-directed initiatives applicable to your state or territory?

- Yes
- No

Are Tribal Initiatives applicable to your state or territory?

- Yes
- No

State or Territory-Specific Initiatives: II. Evaluation Plan

Initiative Name

To complete your evaluation plan, create measurable objectives. Select "Add objective" button for each objective you need to add to the system.

Instructions

The evaluation plan captures expected results for each state or territory-specific initiative. Recipients should identify one or more objectives per initiative and set associated performance measures or indicators to monitor progress toward each objective and evaluate success. In addition, recipients must articulate how they will achieve targets and meet milestones. For more information on developing objectives and identifying appropriate performance measures, see ["Using Data to Improve Money Follows the Person Program Performance."](#)

Identify one or more objectives. Objectives should be framed as SMART goals and have associated time-bound measures of success, including targets or milestones. As a reminder, SMART stands for:

- **Specific:** Specifies the activities, actors, and beneficiaries
- **Measurable:** Defines how a change will be measured
- **Achievable:** Confirms the feasibility of implementing the intervention as planned
- **Realistic/relevant:** Ensures the intervention relates to the goal
- **Time-bound:** Specifies when the results are expected

State or Territory-Specific Initiatives: IV. Initiative close-out information

Initiative Name

Complete the section below for initiatives with an end date during the upcoming semi-annual reporting period.

Projected end date

Auto-populates from "I. Define initiative".

MM/DD/YYYY

Actual end date

MM/DD/YYYY

For initiatives that will no longer be sustained with MFP funding or state or territory-equivalent funding, indicate the status below:

Select all that apply.

- Completed initiative
- Discontinued initiative
- Sustaining initiative through a Medicaid authority

Warning

Once you select "Close out initiative", this initiative will be closed out and will no longer be editable. You will be able to continue to view this response. If you are not ready to close out an initiative, select "Save & return" and you'll be able to save your draft data. You will not be able to close out an initiative until you complete the fields above.

This action cannot be undone.

Review & Submit

Ready to Submit?

Double check that everything in your MFP Work Plan submission is accurate. You will only be able to make edits after submitting if you contact your CMS MFP Project Officer to unlock your report while it is still in "Submitted" status.

Compliance review

Your Project Officer will review your report and may contact you and unlock your report for editing if there are corrections to be made. If there are no corrections to be made, your Project Officer will approve the report by {x time before it's due}, its status will change to "Approved" and it will no longer be editable because its information will be used in the MFP Semi-Annual Progress Report (SAR) for the same reporting period.

Texas MFP Work Plan

Instructions

This reporting tool is to be used to describe state or territory-specific initiatives. Start or amend a new MFP Work Plan below to capture these initiatives designed to increase the use and quality of home and community-based services.

MFP Work Plan to Semi-Annual Progress Report Process

You must create, submit, and get your MFP Work Plan approved by your CMS MFP Project Officer in order to start the corresponding MFP Semi-Annual Progress Report (SAR). Once the first MFP Work Plan is approved, for each sequential reporting period you must update it, which also requires CMS approval to start the corresponding SAR. This is to ensure that your tracked target populations, transition benchmarks, initiatives, evaluation plan objectives, and funding sources are all available to report on in the SAR.

You will be able to view all MFP Work Plans from previous periods. For additional guidance on completing this form, see the associated [User Guide](#) and [Help File](#).
