

Schedule for the Decision-Making Process

The BLM will provide additional opportunities for public participation consistent with the NEPA and land use planning processes, including a 90-day comment period on the Draft RMP Amendments/EIS and concurrent 30-day public protest period and 60-day Governors' consistency review on the Proposed RMP Amendments. The Draft RMP Amendments/EIS is anticipated to be available for public review in late 2024 or early 2025, and the Proposed RMP Amendments/Final EIS is anticipated to be available for public protest of the Proposed RMP Amendments in Summer 2025 with Approved RMP Amendments and a Record of Decision expected in Fall 2025.

Public Scoping Process

This notice of intent initiates the scoping period and public review of the planning criteria, which guide the development and analysis of the Draft RMP Amendments/EIS. The BLM will be holding two virtual public scoping meetings and four in-person meetings. The specific dates and locations of these scoping meetings will be announced at least 15 days in advance through local media, social media, newspapers, and the ePlanning website (see **ADDRESSES**).

Lead and Cooperating Agencies

The BLM is the lead agency for the NEPA analysis associated with this planning effort. The BLM has invited other Federal agencies, State and local government agencies, and Tribes to be cooperating agencies. Other stakeholders that may be interested in or affected by the revision are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the EIS as a cooperating agency.

Responsible Official

The BLM Director is the deciding official for this planning effort.

Nature of Decision To Be Made

The BLM will decide whether to amend RMPs to address the purpose and need, consistent with the principles of multiple use and sustained yield.

Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plan amendments in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in this planning effort:

rangeland management, minerals and geology, forestry, outdoor recreation, archaeology, paleontology, wildlife and fisheries, lands and realty, hydrology, soils, sociology, and economics.

Additional Information

The BLM will consider mitigation to appropriately address reasonably foreseeable impacts on resources from the proposed plan amendments and reasonable alternatives and future energy infrastructure development. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation, and may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), 800.3(b), and 800.8(a), including public involvement requirements of Section 106. Information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan amendments will assist the BLM in identifying and evaluating impacts on such resources.

The BLM will consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175 and applicable Bureau and Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts on cultural resources, will be given due consideration. Federal, State, and local agencies, along with Indian Tribal Nations and other stakeholders that may be interested in or affected by the proposed changes to Section 368 energy corridors that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate in the development of the environmental analysis as a cooperating agency. The BLM intends to hold a series of government-to-government consultation meetings. The BLM will send invitations to potentially affected Tribal Nations prior to the meetings.

The BLM will provide additional opportunities for government-to-government consultation during the NEPA process.

Abstract: (a) *General Information:* The Federal Oil and Gas Royalty Management Act of 1982 (“FOGRMA”) directs the Secretary of the Interior (“Secretary”) to “establish a comprehensive inspection, collection and fiscal and production accounting and auditing system to provide the capability to accurately determine oil and gas royalties, interest, fines, penalties, fees, deposits, and other payments owed, and to collect and account for such amounts in a timely manner.” 30 U.S.C. 1711. ONRR

performs these and other mineral revenue management responsibilities for the Secretary. See U.S. Department of the Interior Departmental Manual, 112 DM 34.1 (Dec. 9, 2020). This ICR covers the burden hours associated with performing these responsibilities.

(b) *Information Collections:* This ICR concerns the following information.

(1) *Cross-Lease Netting in Calculation of Late-Payment Interest:* In calculating late-payment interest, ONRR allows a lessee to offset an overpayment made on a lease against an underpayment made on another lease if certain conditions are met. See 30 CFR 1218.42(a). ONRR refers to this offset as “cross-lease netting.” If a lessee asserts that interest is not owed due to cross-lease netting, it must provide information to ONRR showing that the conditions are met.

(2) *Designation of Designee for Federal Oil and Gas Leases:* FOGRMA allows a lessee to notify the Secretary in writing of its designation of “a person to make all or part of the payments due under a lease on the lessee’s behalf . . . in which event said designated person may, in its own name, pay, offset or credit monies, make adjustments, request and receive refunds and submit reports with respect to payments required by the lessee.” See 30 U.S.C. 1712(a). ONRR specifies the information that a lessee must provide to designate a designee in 30 CFR 1218.52(a). A lessee must use form ONRR–4425, *Designation Form for Payment Responsibility*, to provide that information.

As discussed below, ONRR is modifying the form ONRR–4425 as part of this ICR renewal to be more consistent with FOGRMA and to better capture the information that a lessee is required to provide under 30 CFR 1218.52. The modifications do not expand the information collected or change the burden hours necessary to complete the form.

ONRR is modifying the title of the form from “Designation Form for Royalty Payment Responsibility” to “Designation Form for Payment Responsibility” because the form may be used for certain payment types other than royalty payments. See 30 U.S.C. 1712(a) and 30 CFR 1218.52(a)(3).

The current form ONRR–4425 has fields for specifying effective and termination dates for the designation. However, FOGRMA provides that a notice of designation, modification of designation, or termination of designation is effective upon receipt by the Secretary. See 30 U.S.C. 1702 (definition of “designee”). ONRR therefore is removing the fields for a lessee to specify effective and

termination dates and adding an instruction stating that a designation, modification of designation, or termination of designation is effective upon receipt by ONRR. ONRR is also adding a “filing type” field for the lessee to specify whether the form is being filed as an initial designation, a modification of a designation, or a termination of a designation.

The current form ONRR–4425 contains fields for a lessee to provide both the ONRR lease number and the leasing agency (Bureau of Land Management or Bureau of Safety and Environmental Enforcement) lease number for the designation. ONRR is modifying the form to require only the leasing agency number since ONRR's data systems can convert the leasing agency number to the ONRR lease number.

Section 1218.52(a)(6) requires the lessee to provide the name, address, and phone number of the individual to contact for the designee. However, the current form ONRR–4425 does not have a field for the lessee to supply this information. ONRR therefore is adding a field to the form for the lessee to provide this contact information if the designee is a company.

Though the current form ONRR–4425 contains fields for a lessee to specify whether it is the lessee of record or operating rights owner, it does not contain a place to provide its percentage of operating rights ownership in the lease, as required by § 1218.52(a)(4). ONRR therefore is modifying the form ONRR–4425 to include a field for a lessee to provide its percentage of operating rights ownership.

Section 1218.52(a)(10) requires a lessee to provide a copy of the written designation with the form ONRR–4425, reflecting the designee's acceptance of the designation. ONRR is modifying the form ONRR–4425 to remind the lessee of this requirement. ONRR also is modifying the form ONRR–4425 instructions to specify that a lessee may use this written designation to (i) add additional leases to the designation, (ii) specify product types for the designation, and (iii) specify its operating rights percentages in different areas covered by the lease if its operating rights ownership is not uniform throughout the lease. Finally, ONRR is removing any requirement to provide fax information.

(3) *Tribal Permission for Recoupment on Indian Oil and Gas Leases:* Pursuant to 30 CFR 1218.53(b), a payor may, with written permission authorized by tribal statute or resolution, recoup an overpayment against royalties or other revenues owed for the same production

month under other leases for which that tribe is the lessor. See 30 CFR 1218.53(b). The payor must provide ONRR with a copy of that written permission. *Id.*

(4) *Processing Refund Requests:* FORGMA authorizes a Federal oil and gas lessee to request a refund for an overpayment in certain situations. See 30 U.S.C. 1721a(b). FOGMRA requires the lessee to supply information to support its refund request. *Id.* Additionally, ONRR collects banking information from the refund recipient in order to disburse the overpaid amount to the correct account if a refund is warranted.
