SFA Annual Compliance ( Filing ID - 710023358, Type - SFA Annual Compliance )

## Compliance with restrictions and conditions (required only for plans that are not merged plans) (Plans that answered "yes" to part I.F should skip part II.)

A. The plan is required to comply with each of the following restrictions and conditions under section 4262(i) of ERISA and § 4262.13 and 14 of PBGC's SFA regulation.

Use of SFA funds (section 4262(i) of ERISA):

- The plan must use the SFA funds only to pay benefits and administrative expenses.
- The plan must segregate the SFA funds from other plan assets.
- The plan must invest the SFA funds only in permissible investments. For IFR-only recipients, this condition (F3) refers to permissible investments allowed under § 4262.14 as it existed before August 8, 2022.
- The plan must meet the allocation restriction on return-seeking assets at each purchase and at least once in every rolling period of 12 consecutive months. This condition (F4) does not apply to IFR-only recipients.

(A1) During the plan year, has the plan complied with the applicable restrictions on the use of SFA funds listed in this part II.A?

No. If no, attach an explanation of the plan's non-compliance and include any corrective action taken by the plan.  Yes.

B. Benefit increases. (§ 4262.16(b)) (This term refers to benefit increases as described in section 4022A(b)(1) of ERISA without regard to the length of time the benefit or benefit increase has been in effect. Also, the condition on benefit increases does not apply to the reinstatement of benefits that were suspended under sections 305(e)(9) or 4245(a) of ERISA (as provided under § 4262.15) or the restoration of benefits under 26 CFR 1.432(e)(9)-1(c)(3).)

In addition to the restrictions in section 305(f)(1) of ERISA:

- The plan must not adopt a retrospective benefit or benefit increase attributable in whole or in part to service accrued or other events occurring before the adoption date of the amendment.
- The plan must not adopt a prospective benefit or benefit increase, unless both of the following conditions apply:
  - The plan actuary certified that employer contribution increases projected to be sufficient to pay for the benefit increase have been adopted or agreed to.
  - Those increased contributions were not included in the determination of SFA.
- Beginning 10 years after the end of the plan year in which it receives payment of SFA, a plan may apply for an exception to the condition on retrospective and prospective benefit increases. See § 4262.16(b)(3).

(B1) During the plan year, did the plan adopt a retrospective benefit increase?

No  Yes. If yes, attach (1) a statement that the plan received PBGC's approval for this adoption or that a request for approval is pending with PBGC, or (2) an explanation of the non-compliance and include any corrective action taken by the plan.

(B2) During the plan year, did the plan adopt a prospective benefit increase?

No  Yes. If yes, attach (1) a statement that the adoption met the required conditions listed above in B.2, (2) a statement that the plan received PBGC's approval (described in B.3) for this adoption or that a request for approval is pending with PBGC, or (3) an explanation of the non-compliance and include any corrective action taken by the plan.

C. Allocation of plan assets (§ 4262.16(c))

The plan's assets, including SFA funds, must be held in permissible investments that are investment grade fixed income, as described in § 4262.14(d) of PBGC's SFA regulation, sufficient to pay for at least 1 year (or until the date the plan is projected to become insolvent, if earlier) of projected benefit payments and administrative expenses, taking into account the limitations on derivatives and leverage in § 4262.14(h).

(C1) During the plan year, did the plan comply with the conditions relating to allocation of plan assets listed in part II.C?

No. If no, attach an explanation of the plan's non-compliance and include any corrective action taken by the plan.  Yes.

D. Contribution decreases (§ 4262.16(d))

The contributions to the plan required for each contribution base unit must be not less than, and the definition of the contribution base units used must not be different from, those set forth in collective bargaining agreements or plan documents (including contribution increases to the end of the collective bargaining agreements) in effect on March 11, 2021.

- Exception:
  - The plan sponsor determined that the change lessens the risk of loss to plan participants and beneficiaries; and
  - If the contribution reduction affects over \$10 million of annual contributions and over 10 percent of all employer contributions, the plan submitted a request for PBGC approval.

(D1) During the plan year, did the plan experience a contribution decrease?

No  Yes. If yes, attach (1) an explanation of the plan sponsor's determination under the exception described and, if necessary, a statement that the plan received PBGC's approval for this contribution decrease, or (2) an explanation of the non-compliance and include any corrective action taken by the plan.

E. Allocating contributions and other practices (§ 4262.16(e))

An allocation of income or expenses must not decrease the proportion of income or increase the proportion of expenses allocated to the plan pursuant to a written or oral agreement or practice (other than a written agreement in existence on March 11, 2021, to the extent not subsequently amended or modified) under which the income or expenses are divided or are to be divided between the plan and one or more other employee benefit plans.

- Exceptions. This prohibition does not apply to a good faith allocation of:
  - Contributions pursuant to a reciprocity agreement;
  - Costs of securing shared space, goods, or services, where such allocation does not constitute a prohibited transaction under ERISA or is exempt from such prohibited transaction provisions pursuant to sections 408(b)(2) or 408(c)(2) of ERISA, or pursuant to a specific prohibited transaction exemption issued by the Department of Labor under section 408(a) of ERISA;
  - The actual cost of services provided to the plan by an unrelated third party;
  - Contributions where the contributions to the plan required for each contribution base unit are not reduced, unless permitted under II.D above; or
  - Reallocations between employee benefit plans described in § 4261.16(e)(2) for which the plan has applied for and obtained PBGC's prior approval no earlier than 5 years after the end of the plan year in which it receives payment of SFA.

(E1) During the plan year, did the plan experience a reallocation of expenses?

No  Yes. If yes, attach (1) an explanation of why this reallocation did not violate the condition regarding reallocation of expenses, or (2) an explanation of the non-compliance and include any corrective action taken by the plan.

(E2) During the plan year, did the plan experience a reallocation of contributions?

**(E) During the plan year, did the plan experience a reallocation of contributions?**

No  Yes. If yes, attach (1) an explanation of why this reallocation did not violate the condition regarding reallocation of contributions, including, if applicable, a statement that the plan received PBGC's approval, or (2) an explanation of the non-compliance and include any corrective action taken by the plan.

**F. Transfer or merger (§ 4262.16(f))**

The plan must not engage in a transfer of assets or liabilities (including a spinoff) or merger except with PBGC's approval.

**(F1) During the plan year, did the plan engage in a transfer of assets or liabilities (including a spinoff) or merger?**

No. If no, skip to Part I.G.  Yes

**G. Withdrawal liability (UVB determination) (§ 4262.16(g)(1) and § 4262.16(g)(2))**

In accordance with § 4262.16(g)(1) of PBGC's SFA regulation, the plan must use the interest assumptions in Appendix B to part 4044 of PBGC's regulations to determine unfunded vested benefits (UVBs) of the plan under section 423(c) of ERISA (for the purpose of determining withdrawal liability) beginning with the first plan year in which the plan receives payment of SFA and until the later of: (i) the 10th plan year after the first plan year in which the plan receives payment of SFA, or (ii) the last day of the plan year in which, according to the plan's projection, the plan will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). A similar period applies for an IFR-only recipient, except that the duration of (i) is determined under the terms of the interim final rule.

In accordance with § 4262.16(g)(2) of PBGC's SFA regulation, the plan must determine the amount of SFA that is phased in for withdrawal liability purposes each year over the projected life of the SFA assets. The applicable phase-in period is from the first plan year in which the plan receives payment of SFA through the end of the plan year in which, according to the plan's projections, it will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). For a plan that received payment of SFA under the terms of the interim final rule and files a supplemented application, the first plan year of payment is the year in which it received SFA under the terms of the interim final rule. To calculate the amount of SFA assets excluded for each plan year during the phase-in period, the plan must take the total amount of SFA paid to the plan and multiply that by a fraction, the numerator of which is the number of years remaining in the phase-in period as of the date that the UVBs are being determined, and the denominator is the total number of years in the phase-in period. For a plan that receives payment of SFA under the interim final rule and receives a supplemented payment under the final rule, the total amount (payment under the interim final rule and supplemental payment) will be included in the phased recognition of SFA assets in determining UVBs for withdrawals going forward.

**(G1) During the plan year, did the plan determine UVBs for the purpose of determining withdrawal liability for one or more employers that withdrew from the plan after the plan year in which the plan received payment of SFA?**

No. If no, skip to Part I.H.  Yes. If yes, attach the withdrawal liability calculation(s).

**H. Withdrawal liability settlement (§ 4262.16(h))**

The plan must not, before receiving PBGC approval, make any settlement of withdrawal liability where the amount of the liability settled was more than \$50 million, calculated as the lesser of: (i) the allocation of unfunded vested benefits to the employer under section 4211 of ERISA; or (ii) the present value of withdrawal liability payments assessed for the employer discounted using the interest assumptions under § 4281.13(a) of PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal.

**(H1) During the plan year, did the plan make any settlement of withdrawal liability of any amount?**

No. If no, skip to Part I.I.  Yes. If yes, attach a copy of the withdrawal liability settlement agreement (unless previously submitted).

**(H2) During the plan year, did the plan make any settlement of withdrawal liability of more than \$50 million?**

No. If no, skip to Part I.II.  Yes

**I. Has there been any violation of any Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the SFA funds?**

No  Yes. If yes, attach an explanation of the violation or violations.

#### D. Contribution decreases (§ 4262.16(d))

The contributions to the plan required for each contribution base unit must be not less than, and the definition of the contribution base units used must not be different from, those set forth in collective bargaining agreements or plan documents (including contribution increases to the end of the collective bargaining agreements) in effect on March 11, 2021. Absent a waiver, this condition continues to apply to employers who had an obligation to contribute to the SFA plan.

- Exceptions:
  - The plan sponsor determined that the change lessens the risk of loss to plan participants and beneficiaries; and
  - If the contribution reduction affects over \$10 million of annual contributions and over 10 percent of all employer contributions, the plan submitted a request for PBGC approval.

(D) During the plan year, did the plan experience a contribution decrease? (If yes, attach (1) an explanation of the plan sponsor's determination under the exception described and, if necessary, a statement that the plan received PBGC's approval for this contribution decrease, or (2) an explanation of the non-compliance and include any corrective action taken by the plan)

#### E. Allocating contributions and other income (§ 4262.16(e))

An allocation of contributions or other income must not decrease the proportion of income or increase the proportion of expenses allocated to the plan pursuant to a written or oral agreement or practice (other than a written agreement in existence on March 11, 2021, to the extent not subsequently amended or modified) under which the income or expenses are divided or to be divided between the plan and one or more other employee benefit plans. Absent a waiver, this condition continues to apply to contributions or income relative to the SFA balance of the merger.

- Exceptions. This prohibition does not apply to a good faith allocation of:
  - Contributions pursuant to a reciprocity agreement;
  - Contributions where the contributions to the plan required for each contribution base unit are not reduced, unless permitted under Part III.D above; or
  - Reallocations between employee benefit plans described in § 4261.16(e)(2) for which the plan has applied for and obtained PBGC's prior approval no earlier than 5 years after the end of the plan year in which it receives payment of SFA.

#### G. Withdrawal liability (UVB determination) (§ 4262.16(g)(1) and § 4262.16(g)(2))

In accordance with § 4262.16(g)(1) of PBGC's SFA regulation, the plan must use the interest assumptions in Appendix B to part 4044 of PBGC's regulations to determine unfunded vested benefits (UVBs) that arose under the SFA plan before the date of the merger for purposes of allocating UVBs beginning with the first plan year in which the plan receives payment of SFA and until the later of: (i) 10th plan year after the first plan year in which the plan receives payment of SFA, or (ii) the last day of the plan year in which, according to the plan's projection, the plan will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). A similar period applies for an IFR recipient, except that the duration of (ii) is determined under the terms of the interim final rule.

This condition applies for determining withdrawal liability for employers that participated in the SFA plan immediately before the merger.

In accordance with § 4262.16(g)(2) of PBGC's SFA regulation, to determine unfunded vested benefits UVBs that arose under the SFA plan before the date of the merger the plan must determine the amount of SFA that is phased in for withdrawal liability purposes each year over the projected life of the SFA assets. The applicable phase-in period is from the first plan year in which the plan receives payment of SFA through the end of the plan year in which, according to the plan's projections, it will exhaust any SFA assets (extended by the number of years, if any, that the first plan year of payment is after the plan year that includes the plan's SFA measurement date). For a plan that received payment of SFA under the terms of the interim final rule and files a supplemental application, the first plan year of payment is the year in which it received SFA under the terms of the interim final rule. To calculate the amount of SFA assets excluded for each plan year during the phase-in period, the plan must take the total amount of SFA paid to the plan and multiply that by a fraction, the numerator of which is the number of years remaining in the phase-in period as of the date that the UVBs are being determined, and the denominator is the total number of years in the phase-in period. For a plan that receives payment of SFA under the interim final rule and receives a supplemental payment under the final rule, the total amount (payment under the interim final rule and supplemental payment) will be included in the phased recognition of SFA assets in determining UVBs for withdrawals going forward.

This condition applies for determining withdrawal liability for employers that participated in the SFA plan.

(G) During the plan year, did the plan determine UVBs for the purpose of determining withdrawal liability for one or more employers that participated in the SFA plan and that withdrew from the SFA plan after the plan year in which the SFA plan received payment of SFA?

No. If no, skip to Part III.H.  Yes. If yes, attach the withdrawal liability calculation(s).

#### H. Withdrawal liability settlement (§ 4262.16(h))

The plan must not, before receiving PBGC approval, make any settlement of withdrawal liability where the amount of the liability settled was more than \$50 million, calculated as the lesser of: (i) the allocation of unfunded vested benefits to the employer under section 4211 of ERISA; or (ii) the present value of withdrawal liability payments assessed for the employer discounted using the interest assumptions under § 4261.13(a) of PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal.

(H) During the plan year, did the plan make any settlement of withdrawal liability of any amount?

No. If no, skip to part III.I.  Yes. If yes, attach a copy of the withdrawal liability settlement agreement (unless previously submitted).

(H2) During the plan year, did the plan make any settlement of withdrawal liability of more than \$50 million?

No. If no, skip to part III.L.  Yes

I. Has there been any violation of any Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the SFA funds?

No  Yes. If yes, attach an explanation of the violation or violations.

The plan must reinstate suspended benefits (under sections 305(e)(9) or 4245(a) of ERISA) effective as of the first month in which the SFA was paid to the plan in accordance with IRS Notice 2021-38.

(A) Did the plan timely reinstate benefits of participants and beneficiaries in pay status at the time when the plan received SFA? (If no, attach an explanation of the non-compliance and include any corrective action taken by the plan)

**B. NOTE:** The following question is applicable only if the plan had participants or beneficiaries who entered pay status during the plan year. If inapplicable, skip Part IV.B.  
As stated in IRS Notice 2021-38, any future payments by the plan of benefits to participants or beneficiaries must be made as if the amendment suspending benefits had never been adopted.

(B) Were the benefits of participants and beneficiaries who entered pay status during the plan year based on their reinstated benefits? (If no, attach an explanation of the non-compliance and include any corrective action taken by the plan)

**C. NOTE:** The following question is applicable only if the plan was obligated to pay make-up payments during the plan year. If inapplicable, skip Part IV.C.  
The plan must pay make-up payments in the amount of previously suspended benefits (under section 305(e)(9) or section 4245(a) of ERISA) to any participants and beneficiaries who are in pay status as of the date that SFA is paid to the plan, in accordance with IRS Notice 2021-38. Make-up payments must be paid or commence within 3 months of the date that SFA is paid.

(C) Did the plan timely pay make-up payments in the form of a lump sum or equal monthly installments? Both "yes" answers may be checked for a plan that has used both forms of payment.

**D. NOTE:** The following question is applicable only if the plan was obligated to send notices of reinstatement during the plan year. If inapplicable, skip Part IV.D.  
The plan must send notices of reinstatement to every participant and beneficiary as required by § 4262.15(c) and Addendum B - Instructions for Notice of Reinstatement.

(D) Did the plan send timely notices of reinstatement to every participant and beneficiary as required by § 4262.15(c) and Addendum B - Instructions for Notice of Reinstatement? (If no, attach an explanation of the non-compliance and include any corrective action taken by the plan)
