► **What do you need from my school?**

- 🍏 A list of all of the full-time and part-time teachers who teach at this school.
- 🍏 **Please see the removable reference card on the reverse side for important information about the listing form.**

► **Why does the National Center for Education Statistics (NCES) conduct the National Teacher and Principal Survey (NTPS)?**

- 🍏 The NTPS is designed to measure critical aspects of schooling and teaching, the composition of the principal and teacher work force, and conditions in schools.

► **What do you need from my school?**

- 🍏 A list of all of the full-time and part-time teachers who teach at this school.
- 🍏 **Please see the removable reference card on the reverse side for important information about the listing form.**

► **What happens to the information I report?**

- 🍏 A sample of teachers will be selected for the Teacher Survey component of NTPS. The selected teachers will receive the Teacher Questionnaire which asks for information on their educational background, work experience, and attitudes toward teaching.

► **Why is my school's participation important?**

- 🍏 The NTPS is a primary source of information about what is happening in K–12 schools across the United States from the perspective of administrators and teachers. Only a small percentage of schools are selected to participate; therefore, your school is important for the success of this survey.

► **How does NCES protect the confidentiality of the information I provide?**

- 🍏 All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

Thank you for your assistance.

FORM **NTPS-2A**

OMB No. 1850-0598: Approval Expires xx/xx/xxxx

- **What is the average student-teacher ratio in the United States?**
- **What is the average salary of a beginning principal?**
- **Have teachers' views of their autonomy in the classroom changed over time?**
- **Have the characteristics of the principal and teacher workforces in the United States changed over time?**

The answers to these questions help school districts and policy makers at the state, federal, and local levels set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of principals and teachers.

By selecting a statistically representative sample of schools, principals, and teachers, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2023-24 National Teacher and Principal Survey. You will represent thousands of other principals, so it is important that you respond to this survey.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

OMB No. 1850-0598: Approval Expires xx/xx/xxxx

- **What is the average student-teacher ratio in the United States?**
- **What is the average salary of a beginning principal?**
- **Have teachers' views of their autonomy in the classroom changed over time?**
- **Have the characteristics of the principal and teacher workforces in the United States changed over time?**

The answers to these questions help schools and policy makers set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of principals and teachers.

By selecting a statistically representative sample of schools, principals, and teachers, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2023-24 National Teacher and Principal Survey. You will represent thousands of other principals, so it is important that you respond to this survey.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

OMB No. 1850-0598: Approval Expires XX/XX/XXXX

- **What is the average student-teacher ratio in the United States?**
- **What is the average salary of a beginning principal?**
- **Have teachers' views of their autonomy in the classroom changed over time?**
- **Have the characteristics of the principal and teacher workforces in the United States changed over time?**

The answers to these questions help school districts and policy makers at the state, federal, and local levels set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of Principals and Teachers.

By selecting a statistically representative sample of schools, and teachers in those schools, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2023-24 National Teacher and Principal Survey. You will represent thousands of other schools, so it is important that you respond to this survey.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

OMB No. 1850-0598: Approval Expires XX/XX/XXXX

- **What is the average student-teacher ratio in the United States?**
- **What is the average salary of a beginning principal?**
- **Have teachers' views of their autonomy in the classroom changed over time?**
- **Have the characteristics of the principal and teacher workforces in the United States changed over time?**

The answers to these questions help schools and policy makers set education policy and improve teacher and principal working conditions.

Since 1988, the National Teacher and Principal Survey and its precursor, the Schools and Staffing Survey, have provided the answers to these and other important education questions from the perspective of Principals and Teachers.

By selecting a statistically representative sample of schools, and teachers in those schools, we are able to provide representative data for the United States without going to every school.

Your school has been selected to participate in the 2023-24 National Teacher and Principal Survey. You will represent thousands of other schools, so it is important that you respond to this survey.

Basic school information such as school name, contact information, school type or program emphasis, religious orientation or affiliation of the school, association membership, grades taught and the number of students by grade, number of students by race/ethnicity, and the number of full-time-equivalent teachers is published on <http://nces.ed.gov/surveys/pss/privateschoolsearch/>. The remaining information is used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose except as required by law (20 U.S.C. §9573 and 6 U.S.C. §151).

Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0598. The time required to complete this information collection is estimated to average 33 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this collection, or comments or concerns about the contents or the status of your individual submission of this questionnaire, please e-mail: ntps@census.gov, or write directly to: National Teacher and Principal Survey (NTPS), National Center for Education Statistics, Potomac Center Plaza, 550 12th Street, SW, Room 4035, Washington, DC 20202.
