

(44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Gainful Employment/Financial Value Transparency Reporting Requirements.

OMB Control Number: 1845–NEW.

Type of Review: A new ICR.

Respondents/Affected Public: State, local, and Tribal governments.

Total Estimated Number of Annual Responses: 149,800.

Total Estimated Number of Annual Burden Hours: 2,665,823.

Abstract: The regulations in § 668.408 in Subpart Q—Financial Value Transparency, that were negotiated in 2022 and the Final Rule published in 2023, establish reporting requirements for postsecondary institutions who participate in the title IV programs under the Higher Education Act of 1965, as amended, to report on their students who enroll in, complete, or withdraw from a gainful employment (GE) program or an eligible non-GE program in specified award years. The new regulations also define the timeframes for institutions to report the required information. This is a request for a new collection to allow the Department to obtain the required information and assess the burden on institutions. The average burden hours of 2,665,823 is for the average 149,860 responses for 4,518 respondents over 3 years. We divided the total 3 year burden hours of 7,997,468, and the 499,580 responses by 3 to obtain these averages.

Dated: February 15, 2024.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.

DEPARTMENT OF ENERGY

Proposed Agency Information Collection Revision

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice and request for OMB review and comment.

SUMMARY: The Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy (EERE) has submitted to the Office of Management and Budget (OMB) for clearance, a proposal for a three-year extension, with changes, of a collection of information under the provisions of the Paperwork Reduction Act of 1995. The proposed collection will provide DOE with the information necessary to meet its statutory and regulatory obligations under the National Environmental Policy Act (NEPA) of 1969 and the DOE NEPA implementing regulations, which requires EERE to perform environmental impact analyses prior to making a decision to provide Federal funding for research, development and demonstration projects funded by DOE.

DATES: Comments regarding this proposed information collection must be received on or before March 22, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 395-4718.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

And to: Andrew M. Montano at U.S. Department of Energy, 15013 Denver West Parkway, Golden, CO 80401, or by email at: EEREQComments@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the EERE Environmental Questionnaire should be directed to Andrew M. Montano at: EEREQComments@ee.doe.gov. The EERE Environmental Questionnaire also is available for reviewing in the Golden Field Office Public Reading Room at: www.energy.gov/node/2299401. If you have difficulty accessing this document, please contact Casey Strickland at (720) 356-1575.

SUPPLEMENTARY INFORMATION: This information collection request contains: (1) OMB No.: 1910-5175; (2) *Information Collection Request Title:* Office of Energy Efficiency and Renewable Energy (EERE)

Environmental Questionnaire; (3) *Type of Request:* Revision; (4) *Purpose:* The DOE’s EERE provides Federal funding through Federal assistance programs to businesses, industries, universities, and other groups for renewable energy and energy efficiency research and development and demonstration projects. The National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*) requires that an environmental analysis be completed for all major Federal actions significantly affecting the environment including projects entirely or partly financed by Federal agencies. To effectively perform environmental analyses for these projects, the DOE’s EERE needs to collect project-specific information from Federal financial assistance awardees. DOE’s EERE has developed its Environmental Questionnaire to obtain the required information and ensure that its decision-making processes are consistent with NEPA as it relates to renewable energy and energy efficiency research and development and demonstration projects. Minor changes have been made to the Environmental Questionnaire that help to clarify certain questions as related to the Infrastructure Investment and Jobs Act (Bipartisan Infrastructure Law), but do not change the meaning of the questions being asked. These revisions include additional fields in Section 1 to collect award, funding, and contact information and additional fields in Section 3 of the Environmental Questionnaire to collect information about project location(s). The average hours per response have increased from one hour to one- and one-half hours and the revisions made should not add any additional time needed to complete the Environmental Questionnaire; (5) *Annual Estimated Number of Total Responses:* 300; (6) *Average Hours per Response:* 1.5; and (7) *Annual Estimated Number of Burden Hours:* 443; (8) *Annual Estimated Respondent Costs:* \$29,238. There is no cost associated with reporting and recordkeeping.

Statutory Authority: National Environmental Policy Act (NEPA) (42 U.S.C. 4321 *et seq.*).

Signing Authority: This document of the Department of Energy was signed on February 14, 2024, by Matthew Blevins, Director, Environment, Safety and Health Office, Golden Field Office, Office of Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with

requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on February 15, 2024.

Energy Information Administration

Agency Information Collection Extension

AGENCY: U.S. Energy Information Administration (EIA), U.S. Department of Energy (DOE).

ACTION: Notice.

SUMMARY: DOE submitted an information collection request for extension as required by the Paperwork Reduction Act of 1995. The information collection requests a three-year extension of Form DOE-417 *Electric Emergency Incident and Disturbance Report*, OMB Control Number 1901-0288. The collection will enable DOE to monitor electric emergency incidents and disturbances in the United States (including all 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and the U.S. Territories). The information collected allows DOE to conduct post-incident reviews examining significant interruptions of electric power or threats to the national electric system.

DATES: Comments on this information collection must be received no later than March 22, 2024. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.
