

### ICR Summary Information

Hours per Response	3
Number of Respondents	32
Total Estimated Burden Hours	14
Total Estimated Costs	\$1,850
Annualized Capital O&M	\$0
Total Annual Responses	5
Form Number	Not Applicable

**Table 1: Annual Respondent Burden and Cost – National Volatile Organic Compound Emission**

<b>Total Labor Burden and Costs (rounded) <sup>f</sup></b>				
<b>Total Capital and O&amp;M Cost (rounded) <sup>f</sup></b>				
<b>GRAND TOTAL (rounded) <sup>f</sup></b>				

**Assumptions:**

<sup>a</sup> We assume that an average of 31 respondents will be subject to this rule. We assume that one new source each year will be

<sup>b</sup> This ICR uses the following labor rates: \$163.17 (\$77.70 + 110%) per hour for Executive, Administrative, and Managerial and \$65.71 (\$31.29 + 110%) per hour for Clerical labor. These rates are from the United States Department of Labor, Bureau of Labor Statistics, “Occupational Employment Statistics, by occupational and industry group.” The rates are from column 1, “Total compensation.” The rates have been increased to include the additional overhead business costs of employing workers beyond their wages and benefits, including business employees. All tasks are assumed to be performed by a technical person (\$130.28/hr) unless otherwise noted.

<sup>c</sup> We assume there will be one new regulated entity every year.

<sup>d</sup> We assume that 10% of manufacturers will update their codes each year.

<sup>e</sup> Although the rule requires the date (or code) to appear on the label, such labeling is already performed.

<sup>f</sup> Totals have been rounded to 3 significant figures. Figures may not add exactly due to rounding.
