My Environmental Reviews (50/58)
 HEROS integrates guidance and assistance into the environmental review format, but it is not a substitute for learning and understanding HUD's environmental review process and all environmental laws and authorities addressed in this system. Responsible Entities are encouraged to attend regular environmental trainings led by HUD staff and ensure that they are familiar with all relevant environmental laws and authorities. HEROS users remain responsible for ensuring that their environmental review records are accurate and complete.

This system is to be used by local, state, and tribal governments, sub-recipients, applicants, and third-party providers who submit information to be used in the completion of environmental review records under 24 CFR Parts 50 and 58. HUD uses this information to monitor and approve requests for release of funds for environmental reviews completed pursuant to Part 58 and to complete environmental reviews under Part 50. The information collected is required to obtain and/or retain benefits. The information collected will not be held confidential. Public reporting burden for this collection of information is estimated to average 50 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number.
