February 28, 2024.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on February 16, 2024, the NYSE Chicago, Inc. (“NYSE Chicago” or the “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 7.19 to make additional pre-trade risk controls available to Entering Firms and Clearing Firms.

Background and Proposal

In 2020, in order to assist Participants’ efforts to manage their risk, the Exchange amended its rules to add Rule 7.19 (Pre-Trade Risk Controls),³ which established a set of optional pre-trade risk controls by which Entering Firms and their designated Clearing Firms⁴ could set credit limits and other pre-trade risk controls for an Entering Firm’s trading on the Exchange and authorize the Exchange to take action if those credit limits or other pre-trade risk controls are exceeded. These pre-trade risk controls include a Gross Credit Risk Limit, which is defined in Rule 7.19(b)(1) as “a pre-established maximum daily dollar amount for purchases and sales across all symbols, where both buy and sell orders are counted as positive values.” The current version of Rule 7.19(b)(1) specifies that both open and executed orders are considered: “[f]or purposes of calculating the Gross Credit Risk Limit, unexecuted orders in the Exchange Book, orders routed on arrival pursuant to Rule 7.37(a)(1), and executed orders are included.”

The Exchange has recently received several requests from market participants to create two additional Gross Credit Risk Limit risk controls: one that includes only open orders and another that includes only executed orders. Market participants have explained that Entering Firms and Clearing Firms would benefit from having more granular gross credit risk controls available, which would allow them to set limits and breach actions based solely on open orders or executed orders, in addition to the Exchange’s existing Gross Credit Risk Limit that includes both open and executed orders.

The Exchange notes that the MIAx Pearl equities exchange (“MIAx Pearl”) currently offers risk controls substantially similar to those proposed

Later, in 2023, the Exchange amended its rules to make additional pre-trade risk controls available to Entering Firms.
