

FOR FURTHER INFORMATION CONTACT: Jessi Doerpinghaus, Staff Officer, Pacific Council; telephone: (503) 820–2415.

SUPPLEMENTARY INFORMATION: The primary purpose of these meetings is for the GAP, STT, HC, and SAS to prepare for the November 2023 Pacific Council meeting. The GAP, STT, HC, and SAS will discuss items related to the advisory body's particular management items and other matters on the Pacific Council's November agenda. The GAP, GMT, and EWG will meet during the GAP webinar to discuss matters related to the Council's fishery ecosystem plan initiative. No management actions will be decided by the GAP, GMT, EWG, STT, HC, or SAS. The GAP, GMT, EWG, STT, HC, and SAS recommendations will be considered by the Council at their November or March Council (ecosystem matters) meetings. A detailed agenda for each of the GAP, STT, HC, and SAS webinars will be available on the Pacific Council's website prior to the meeting.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820–2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 28, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Alaska Region Permit Family of Forms

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before December 4, 2023.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0206 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Gabrielle Aberle, National Marine Fisheries Service, P.O. Box 21668, Juneau, AK, 99802–1668. Telephone 907–586–7356.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Services (NMFS), Alaska Region, is requesting extension of a currently approved information collection for the applications for the Federal Fisheries Permit (FFP), the Federal Processor Permit (FPP), and the Exempted Fishing Permit (EFP).

NMFS requires an FFP for U.S. vessels that are used to fish for groundfish in the Gulf of Alaska or Bering Sea and Aleutian Islands. An FFP is also required for vessels used to fish for any non-groundfish species and that are required to retain any bycatch

of groundfish under 50 CFR 679.4(b). An FPP is required for stationary floating processors (processing vessels that operate solely within Alaska State waters) and is required for shoreside processors that receive and/or process groundfish harvested from Federal waters or from any federally permitted vessels. NMFS issues an EFP to allow groundfish fishing activities that would otherwise be prohibited under regulations for groundfish fishing. EFPs are issued to support projects that could benefit the groundfish fisheries and the environment and result in gathering information not otherwise available through research or commercial fishing operations. Regulations governing these permits are at 50 CFR 600.745, 679.4, and 679.6.

Section 303(b)(1) of the Magnuson-Stevens Fishery Conservation and Management Act specifically recognizes the need for permit issuance. Requiring a permit for marine resource users—mandated by 50 CFR 679.4(b), 679.4(f); 679.6; and 600.745(b)—is one of the regulatory steps taken to carry out conservation and management objectives. Permit issuance is essential in fishery resources management for identification of the participants and expected activity levels and for regulatory compliance. The information requested on the FFP, FPP, and EFP applications is used for fisheries management and regulatory compliance by NMFS Sustainable Fisheries Division, NMFS Restricted Access Management Program, NMFS Observer Program, NOAA Office of Law Enforcement, the U.S. Coast Guard, and the North Pacific Fisheries Management Council.

The type of information collected on the FFP application includes permit holder identification information, vessel information, permit information, and species endorsements. Information collected on the FPP application includes processor identification information, stationary floating processor or community quota entity vessel information, and vessel ownership information. An EFP application includes information on the applicant and a description of the project design including how it will vary from current fishing regulations, the species affected and targeted, when and where the fishing will take place, the vessel that will be used, and a provision for public release of all obtained information.

II. Method of Collection

The FFP and FPP application forms are available as fillable pdfs on the NMFS Alaska Region website and are

submitted by mail, delivery, or fax. An FPP may be renewed online through eFISH on the NMFS Alaska Region website. There is no form to apply for an EFP. Applicants submit the required information by mail, delivery, email, or fax.

III. Data

OMB Control Number: 0648–0206.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households; Business or other for-profit organizations.

Estimated Number of Respondents: 484.

Estimated Time per Response: Application for Federal Fisheries Permit: 21 minutes; Application for Federal Processor Permit: 25 minutes; Exempted Fisheries Permit application: 100 hours.

Estimated Total Annual Burden Hours: 474 hours.

Estimated Total Annual Cost to Public: \$2,420 in recordkeeping and reporting costs.

Respondent's Obligation: Required to obtain or retain benefits, mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying

information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Services (NMFS), Alaska Region, requests extension of a currently

approved information collection for American Fisheries Act reporting requirements.

NMFS Alaska Region manages the groundfish fisheries of the Bering Sea and Aleutian Islands Management Area in the Exclusive Economic Zone off Alaska. The North Pacific Fishery Management Council (Council) prepared the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) under the authority of the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.*, and other applicable laws. Regulations implementing the FMP are at 50 CFR part 679.

The Bering Sea pollock fishery is managed under the American Fisheries Act (AFA). The purpose of the AFA was to tighten U.S. ownership standards for U.S. fishing vessels under the Anti-reflagging Act and to provide the Bering Sea pollock fleet the opportunity to conduct its fishery in a more rational manner while protecting non-AFA participants in the other fisheries. The AFA established sector allocations in the Bering Sea pollock fishery, determined eligible vessels and processors, allowed the formation of cooperatives, set limits on the participation of AFA vessels in other fisheries, and imposed special catch weighing and monitoring requirements on AFA vessels.

This information collection contains the annual and periodic reporting requirements for AFA cooperatives. These requirements include reports about on-going fishing operations of the cooperatives and reports focused on efforts to minimize salmon bycatch in the Bering Sea pollock fishery. These reporting requirements are at 50 CFR 679.21 and 679.61.

This information is used to manage the Bering Sea pollock fishery, to evaluate the salmon bycatch management measures, and to provide the public with information about how the program operates and information about bycatch reduction under this program. This information collection provides the Council and NMFS with information about the organization and fishing operations of the AFA cooperatives, allocations to the AFA cooperatives, and the effectiveness of the Chinook salmon and chum salmon bycatch management measures. This information is necessary to ensure long-term conservation and abundance of salmon and pollock, maintain a healthy marine ecosystem, and provide maximum benefit to fishermen and communities that depend on salmon and pollock.
