

Reporting Period	Recipient Organization	State/Territory/Freely Associated State of Removal Activity	Subawardee or Site Name (if applicable)	Latitude of site (GPS coordinates in Decimal Degrees)
04/1/23-09/30/23				

Longitude of site (GPS coordinates in Decimal Degrees)	Pounds Removed (reporting period)	Pounds Removed (cumulative to end of reporting period)	Weight of debris reused/recyc led/converte d to energy	Footprint of Debris Removed (square feet)	Geographic Area Surveyed (square miles or shoreline miles)	Number of Vessels Removed	Number of Traps Removed
--	--	---	--	--	---	---------------------------------	-------------------------------

Number of Nets Removed	Number of Volunteers	Number of Volunteer Hours	Number of P-12 students served - FORMAL education / outreach	Number of post-secondary / adult students served - FORMAL education / outreach	Number of youth and adults served through informal education/outreach
------------------------	----------------------	---------------------------	--	--	---

(insert additional metrics as needed  
in subsequent columns)

Notes

**Note: To autocalculate the values in the table below, go to the "Data" tab in Excel and click "Refresh All"**

	Reporting Period
Data	04/1/23-09/30/23
Sum of Pounds Removed (reporting period)	
Max of Pounds Removed (cumulative to end of reporting period)	
Sum of Weight of debris reused/recycled/converted to energy (pounds)	
Sum of Footprint of Debris Removed (square feet)	
Sum of Geographic Area Surveyed (square miles or shoreline miles)	
Sum of Number of Vessels Removed	
Sum of Number of Traps Removed	
Sum of Number of Nets Removed	
Sum of Number of Volunteers	
Sum of Number of Volunteer Hours	
Sum of Number of P-12 students served - FORMAL education / outreach	
Sum of Number of post-secondary / adult students served - FORMAL education / outreach	
Sum of Number of youth and adults served through informal education/outreach	

Total Result

Purpose: This spreadsheet is intended as a tool to facilitate the capturing of performance measures from multiple project subactivities. **This tracker does not replace formal Performance Progress Reports or the need to submit those in a timely manner through Grants Online.** Grantees may find this tracker to be helpful for populating the performance measure table of their PPR. The table below provides a description of common performance measures but please note that only a subset may be relevant for your project. At the end of the reporting period, you can view the total for the reporting period in the "PPR Performance Measures Summary" tab and use that number to populate your PPR template. **The final collection may be used by NOAA to publicly communicate about the accomplishments of the project.**

Metric	Description	Best Practice	Example (if applicable)
Pounds Removed (reporting period)	Grantees record the weight of the debris beginning of the project through the end of the reporting period	If providing an estimated weight, tell us	
Pounds Removed (cumulative)	Weight of debris in pounds not sent to landfill	If providing an estimated weight, tell us	80 pounds recycled, 350 pounds reused (returned to owners)
reused/recycled/converted to energy (pounds)	removal projects. Calculate/estimate the area are conducted.	measure notes box which non-landfill disposal method was used (e.g. item (e.g., trap/tire) by the number of	that were 3 feet by 3 feet.
Removed (square feet)	DEG: Sonar surveys may be used to detect		150*9 square feet gives a total of
Surveyed (square miles)	The number of Abandoned or Derelict Vessels removed		
(of shoreline miles)		Use your best judgment when estimating partial trans	
Number of Vessels Removed (cumulative)		well. Use your best judgment to quantify	
Number of Traps Removed (cumulative)	Record the number of volunteers during the reporting period	can be counted for each time they	
Number of Nets Removed (cumulative)	Record the number of hours that volunteers contributed during the reporting period	If volunteer hours are not used as a	
Number of Volunteers (cumulative)	program that has a structured education	interaction. This is an interaction with MDP staff or grantees, counting only the	trips, internships, classroom presentations, synchronous or
Volunteer Hours (cumulative)	program that has a structured education	interaction. This is an interaction with MDP staff or grantees, counting only the	trips, internships, classroom presentations, synchronous or
FORMAL education / students served-	Participants engage in these activities with the	interaction. This is an interaction with MDP staff or grantees, counting only the	festivals, youth programs, citizen programs, field programs, and
