

NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH (NIOSH)
ASSESSING FATIGUE AND FATIGUE MANAGEMENT IN U.S. ONSHORE OIL
AND GAS EXTRACTION

Project Officers: Alejandra Ramirez-Cardenas and Imelda Wong

Statement of Actiwatch Return

Actiwatch:

For the data collection period of this study NIOSH will provide you with an Actiwatch (a wristwatch-like device that measures motion), teach you how to use it, and ask you to voluntarily (?) wear it during the data collection period. Because the Actiwatch is research equipment and the data recorded can only be downloaded with specialized software, we would greatly appreciate its safe return.

Return of Actiwatch Wristwatch:

Please return the Actiwatch to the NIOSH study team or your health and safety supervisor upon the completion of the data collection period or within one week of deciding to end participation in this study. If the Actiwatch is not returned within this timeframe, the project officers will contact you via telephone to coordinate the return of the Actiwatch.

If you have any questions, concerns, or problems please call the Principal Officer Alejandra Ramirez-Cardenas at 303-236-5957 or email nxa5@cdc.gov.

I understand the above statement and will return the Actiwatch.
