The below questions are to gather feedback from recipients of a Project Impact: CSBG Rapid Cycle Program grant after they attend technical assistance activities. The proposed questions gather feedback about their experience attending technical assistance activities and suggestions about ongoing needs and future technical assistance activities. Responses to the proposed feedback questions will be gathered through two means: (1) the registration process for webinars to capture data before an event and (2) web-based surveys following an event. No more than eight questions from the below set will be selected for each technical assistance activity.
