

**TANF DATA COLLABORATIVE PILOT INITIATIVE  
SMALL GROUP DISCUSSION  
APRIL 2023 VIRTUAL REUNION**

Comments to be delivered at the beginning of the pilot reunion:

We are so glad to see all of you and spend the next 75 minutes reconnecting and hearing about your progress since we said goodbye last July. It's hard to believe it has been one year since our last cross pilot convening. Today is for us to update each other about what knowledge, practices, or resources from the 30-month pilot you continue to use in your daily work.

Your participation today is voluntary and there is no penalty for not participating. We will use the discussion to inform the final pilot report, a publication that MDRC and Chapin Hall are co-authoring. What you share will not be attributed to any one of you individually without your express permission.

Comments to be delivered at the beginning of the small group discussions:

Let's think back to July 2022 when we all logged on for the last time and celebrated all of your work. You made presentations in April and submitted your final project reports in July. We want to pick up the conversation from there and talk about what has happened with your data analytics efforts since then.

In each small group, share your thoughts on the following topics:

1. **Current progress:** Whether it is your TDC pilot project or other data analytics efforts involving pilot team members, what is happening? What activities are under way? What has continued or changed since July?
2. **Current barriers:** What, if any, barriers to conducting data analytics projects have you faced or are facing since July? What has stalled or slowed your progress?
3. **Future plans:** What plans for data analytics do you have moving forward?
