

# Center to Support Research and Evaluation Capacity of CCDF Lead Agencies (CSRE): Feedback from CPRP-2019 Grant Participants on future options for Community of Practice

The purpose of this voluntary information collection is to solicit feedback from participants of the community of practice meetings run by the Center to Support Research and Evaluation Capacity of CCDF Lead Agencies (CSRE). The participants are ACF grant team members participating in the Community of Practice (CoP) for the CCPRP-2019 grants which are aiming to support cross-project support and collaboration. Participant feedback will be collected during or after the 2023 annual meeting of the community of practice through a link to an online survey, a paper form, or a small group discussion. This feedback will help the government understand the grant recipients' experiences and preferences and will be used to improve future meetings and other supports for these grant recipients.

**NOTE:** Most of the questions are drawn from previously approved polls for the individual Communities of Practice over the past 3-4 years (i.e., the CCDBG, CCPRP-2019, PROSPR, or CCPRP-2022 Community of Practice).
