

RHY Program Specific Data Element - Collection Requirements

Within HMIS, different funding sources and projects require collection of different program specific information. The Program Specific Data Elements are elements that are designed and managed by at least one of the HMIS federal partner programs. Some of program specific data elements are collected across most federal partner programs; these are called “Common” Program Specific Data Elements. The table below shows all Program Specific Data Elements in which at least one RHY program component is required to collect information.
