

Consultation Under Section 106 of the National Historic Preservation Act

In accordance with the Advisory Council on Historic Preservation's implementing regulations for section 106 of the National Historic Preservation Act, the Commission is using this notice to initiate consultation with the applicable State Historic Preservation Office(s), and to solicit their views and those of other government agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.⁴ The environmental document for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project and includes a mailing address with their comments. Commission staff will update the environmental mailing list as the analysis proceeds to ensure that Commission notices related to this environmental review are sent to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project.

If you need to make changes to your name/address, or if you would like to remove your name from the mailing list, please complete one of the following steps:

(1) Send an email to GasProjectAddressChange@ferc.gov stating your request. You must include the docket number PF24-2-000 in your request. If you are requesting a change to your address, please be sure to include your name and the correct address. If you are requesting to delete your address from the mailing list, please include your name and address

as it appeared on this notice. This email address is unable to accept comments.

OR

(2) Return the attached "Mailing List Update Form" (appendix 2).

Becoming an Intervenor

Once Transco files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Only intervenors have the right to seek rehearing of the Commission's decision and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214). Motions to intervene are more fully described at <https://www.ferc.gov/how-intervene>. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until the Commission receives a formal application for the project, after which the Commission will issue a public notice that establishes an intervention deadline.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number in the "Docket Number" field. Be sure you have selected an appropriate date range. SUPPLEMENTARY INFORMATION:

Title: FERC–582, Electric Fees, Annual Charges, Waivers, and Exemptions.

OMB Control No.: 1902–0132.

Type of Request: Three-year extension of the FERC–582 information collection requirements with no changes to the current reporting requirements.

Abstract: The information required by FERC–582 is listed at 18 CFR parts 381 and 382.

The Commission uses the FERC–582 information to implement the Independent Offices Appropriation Act of 1952.¹ That statute authorizes the Commission to establish fees for its services. In addition, the Omnibus Budget Reconciliation Act of 1986² authorizes the Commission to assess and collect fees and annual charges in any fiscal year in amounts equal to all the costs incurred by the Commission in that fiscal year.

To comply with the collection of information at FERC–582, respondents must submit to the Commission the sum of the megawatt-hours (MWh) of all unbundled transmission (including MWh delivered in wheeling transactions and MWh delivered in exchange transactions) and the megawatt-hours of all bundled wholesale power sales (to the extent the bundled wholesale power sales were not separately reported as unbundled transmission). The data collected in the FERC–582 information collection are drawn directly from the FERC Form 1 (Annual Report of Major Electric Utilities, Licensees and Others)³ transmission data. The Commission sums the costs of its electric regulatory

program and subtracts all electric regulatory program filing fee collections to determine the total collectible electric regulatory program costs. Then, the Commission uses the data submitted under FERC–582 to determine the total megawatt-hours of transmission of electric energy in interstate commerce. Respondents (public utilities and power marketers) subject to these annual charges must submit FERC–582 data to the Commission by April 30 of each year.⁴ The Commission issues bills for annual charges to respondents. Then, respondents must pay the charges within 45 days of the Commission’s issuance of the bill.

Respondents may file requests for waivers and exemptions of fees and charges⁵ based on need. The Commission’s staff uses the filer’s financial information to evaluate the request for a waiver or exemption of the obligation to pay a fee or an annual charge.

The Commission published a 60-day notice for FERC–582 on March 7, 2024 (89 FR 16556), with a comment due date of May 6, 2024. The Commission received no comments in response.

Estimate of Annual Burden: The Commission estimates the burden⁶ and cost⁷ for this information collection as follows.

FERC–582, ELECTRIC FEES, ANNUAL CHARGES, WAIVERS, AND EXEMPTIONS

Number of respondents	Annual No. of responses per respondent	Total No. of responses	Average burden & cost per response	Total annual burden hrs. & cost	Cost per respondent
(1)	(2)	(1) x (2) = (3)	(4)	(3) * (4) = (5)	(5)/(1)=(5)
51	1	51	2.39 hrs. \$239.00	122 hrs. \$12,189.00 (rounded)	\$239.00

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use

of automated collection techniques or other forms of information technology.

Dated: May 7, 2024.

Debbie-Anne Reese,

Acting Secretary.
