

Reporting & Recognition Template

BETTER BUILDINGS RESIDENTIAL NETWORK

Please submit your organization's number of upgrades and associated benefits from fiscal year (FY) 2022 using this template by **April 21, 2023**, to bbresidentialnetwork@ee.doe.gov, or provide the information requested below in another format, such as via email, document, spreadsheet, graphic, or chart.

Organization name:

Contact name:

UPGRADES:

Home energy upgrades completed in FY 2022 (October 1, 2021 - September 30, 2022)

The Better Buildings Residential Network defines a **home energy upgrade** as: Any transaction intended to improve a residential building's (e.g., single-family home, multifamily unit, multifamily building) enclosure or mechanical system (e.g., insulation, air sealing, windows, HVAC ducts, hot water).

BENEFITS:

Examples:

- ▶ Build It Green: 18,632 home energy upgrades; and annual energy savings of 3,289,275 kwh and 37,796 therms saved through home energy upgrades.
- ▶ Efficiency Maine: 9,310 upgrades; annual energy savings of 79,600 MMBtu and 12,696,791 kWh
- ▶ Center for Energy and Environment: 3,250 upgrades; annual energy savings of 2,266,000 kwh and 398,000 therms

OTHER ACCOMPLISHMENTS:

If your organization doesn't directly complete home energy upgrades, share your achievements that have impacted residential energy efficiency. You may also attach any relevant annual reports or accomplishment information.

Email the Better Buildings Residential Network with any questions at bbresidentialnetwork@ee.doe.gov.

This data is being collected to measure DOE's impact and that of its member partners. In addition, DOE will not have national or local market insights that prove valuable when working to help other programs succeed. Collection will be once per year; less frequent collection is not feasible for tracking trends and results. The data you supply will be used for showing how many energy efficiency upgrades and associated benefits members of the Better Buildings Residential Network have completed in the last fiscal year to gauge the status of the field, identify gaps and the need for tools and resources.

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, Enterprise Policy Development & Implementation Office, IM-22, Information Collection Management Program (1910-5184), U.S. Department of Energy, 1000 Independence Ave SW, Washington, DC 20585; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project (1910-5184), Washington, DC 20503.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB control number.

Submission of this data is voluntary.
