

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

Date

President's Name
Name of the Tribe
Address of the Tribe

Dear Chairman/President's Name:

The U.S. Nuclear Regulatory Commission (NRC) has committed to contacting all Federally-recognized Native American ~~Tribes~~ Tribal nations every 5 years to determine ~~whether they would be interested in receiving, or beginning or continue continuing to receive, receipt of~~ advance notification of certain types of nuclear waste shipments and commercial irradiated reactor fuel shipments that are transported within or across Tribal reservations.¹ The advance notification requirements for these materials are found in Title 10 of the *Code of Federal Regulations* (10 CFR) 71.97 and 73.37, respectively.

~~Affected Tribes listed in the enclosure have been identified as currently having NRC approved transportation routes that pass within or across Tribal reservations. If you are one of the Tribes identified in the enclosure and choose to receive advance notifications, your Tribe will be obligated to protect the schedules and itineraries of the shipments according to the NRC's Safeguards Information (SGI) requirements in 10 CFR 73.21 and 10 CFR 73.22. If your nation has already opted in to receive these notifications and you wish to continue, there is no action required of you at this time. The NRC periodically contacts the designated representative(s) for your nation to confirm contact information for the person(s) designated to receive these notifications. Participating Tribal nations are listed here: <https://www.nrc.gov/about-nrc/state-tribal/tribal-advance-notification.html#tribes>. Please contact Jeffrey Lynch, Jeffrey.lynch@nrc.gov, 301 415-5041, if your information is currently not accurate.~~

If you currently do not receive advance notifications and want to begin receiving notifications, the Tribal leadership would need to provide the NRC the following information:

Contacts:

~~The name and contact information of the designated representative(s) for the notifications that would be made pursuant to 10 CFR Parts 71 and 73. You may designate one individual as the designated representative to receive the advance notifications and provide contact information for this individual or choose to designate a back-up (or alternate) designee for those instances where the designated representative is unavailable. (1) the names and their contact information for a primary and secondary point of contact to receive notifications;~~

Safeguards Information Protection:

~~Confirmation that each designee has taken training, understands and will implement measures to protect Safeguards Information (SGI). Information on shipments is considered SGI, which is a special category of sensitive unclassified information that must be protected from unauthorized disclosure and shared only on a need-to-know basis. The NRC will supply material for this training.~~

~~(2) confirmation that the points of contact provided have completed the required SGI training; and (3)~~

Map:

~~e~~Confirmation that the NRC has accurately depicted the Tribal reservation on a map. The NRC will provide a map developed with data from the United States Geological Survey. Training on SGI-related information protection and reservation maps with approved transportation routes are available upon request for the identified Tribes in the enclosure from the NRC project manager listed below.

Please Note that Tribal ~~nationses~~ have the option to receive or not receive advance notifications by informing the NRC at any time. If your Tribe chooses not to opt in to receive advance notification of shipments, no action is necessary. The NRC also plans to continue notifying any Tribal nation e of new route approvals that pass within or across their Tribal reservations. If you have questions or would like to begin receiving notifications, please contact [STAFF CONTACT], project manager at (301) 415-XXXX or by email at XXXXXX@nrc.gov.

¹ This information request has been approved by OMB 3150-0250 expiration 3/31/2025. The estimated burden per response to comply with this voluntary collection is approximately 5.5 hours. Comments regarding this collection may be submitted to the FOIA, Library, and Information Collections Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by e-mail to infocollects.resource@nrc.gov, and to the OMB Office of Information and Regulatory Affairs (3150- 0029), Attn: Desk Officer for the Nuclear Regulatory Commission, 725 17th Street, NW Washington, DC 20503. If a means used to impose an information collection does not display a currently valid OMB control number, the NRC may not conduct or sponsor, and a person is not required to respond to, the information collection.

~~If you have any comments that you would like to provide or questions about this letter, please contact [INSERT STAFF CONTACT], project manager, at (301) 415-XXXX or by e-mail at XXXXXXXX@nrc.gov.~~

Sincerely,

Director
Division of Material Safety, State, Tribal
and Rulemaking Programs
Office of Nuclear Material Safety
and Safeguards
