Based on pilot testing, as well as prior SBA data collection efforts, the evaluation team anticipates a 25% response rate among Spokes (112/449 responses). Sampling will not be conducted for Spoke survey data collection.

3. Activity timeframe

Survey data will be collected on a one-time basis from May to July 2023.

4. Collection procedures

The data collection process will use the following procedures:

The SBA CNPP Officer will send an introductory email to Hub staff to share with their Spokes introducing the evaluation contractor, request Spoke participation, and inform them of the survey (See Attachment).

1. Within one week, the evaluation contractor will send a follow-up email to provide further information, including an individualized link to the web survey (See Attachment).
2. The contractor will send up to ten reminder emails (two per week) to Spokes who are non-responsive.
3. If email follow-up is unsuccessful and fewer than the targeted 112 Spokes have responded, the contractor will make up to two reminder phone calls and leave one voicemail message during the final week of data collection (See Attachment).

Based on pilot testing with six individuals, the anticipated time to complete the survey is 20 minutes.

5. Provide the question list (Submit all instruments, instructions, and scripts with this request).

Please see the attachment: CNPP Data Collection Materials

6. Use and dissemination of the results

Information from the survey will be used to describe the extent to which the program has been implemented as intended, and the extent to which the program has achieved its desired outputs

and outcomes. These results will be used for the development of program improvement recommendations, an evaluation report, and briefs.

Description of respondents/participants: Describe the people you will interact with or are collecting information from and why the group is appropriate for the program / service to connect with. Please provide a description of how you plan to identify your potential group of respondents and if only a sample will be solicited for feedback, how you will select them (e.g., anyone who provided an email address to a call center representative, a representative sample of administrators who downloaded a report in May 2021, intercept interviews at a particular field office, a list of customers, e.g., a CRM database that has contact information, to reach out to that defines the universe of potential respondents and have a sampling plan for selecting from this universe). Attach a copy of the sampling plan if applicable.

Activity timeframe: Describe the time frame, dates, locations, and number of events (e.g., focus groups, surveys, sessions) that will occur (e.g., We will conduct focus groups on May 13,14,15. We plan to conduct customer intercept interviews over the course of the Summer at the field offices identified in response to #2 based on scheduling logistics concluding by Sept. 10th, or “This survey will remain on our website in alignment with the timing of the overall clearance.”)

Collection procedures: Describe the information collection activity (e.g., what happens when a person agrees to participate? Will facilitators or interviewers be used? What’s the format of the interview/focus group? If a survey, describe the overall survey layout/length/other details? If User Testing, what actions will you observe / how will you have respondents interact with a product you need feedback on?).

Burden Hours: Provide the Annual burden hours: Multiply the Number of Respondents and the Participation Time in minutes then divide by 60

Hourly Rate: Provide the hours rate. Ex. Respondent cost estimates are based on the Bureau of Labor Statistics May 2021 median wage for all occupations of \$28.01 per hour.

Total Estimated Cost: Provide the total estimated cost. Divide the Response Time in minutes by 60. Then multiply by the hourly rate and Number of Respondents.
