Your feedback is essential to identifying the level of inclusivity in the distribution of benefits and understanding the barriers and facilitators for grassroots organizations and NGOs in accessing IAF assistance. This information will contribute to enhancing the impact of

IAF's initiatives on the communities they serve.

Again, we want to assure you that the information you provided will be treated with the utmost confidentiality. Your name and the name of your organization will not be disclosed in any documents resulting from this consultancy. Your participation in this survey will not influence your relationship with the IAF. The terms of your agreement with the IAF remain unaffected by your responses.
