For quality assurance purposes, we would like you to answer a few follow-up questions. Some questions may sound very similar to the survey you recently completed.</p> <p>As a reminder, the person listed in your letter from the U.S. Census Bureau should complete this follow-up survey. The CFU-internet instrument will contain a modified list of frequently asked questions (FAQs) from the SOGI internet instrument. It will also add one FAQ from the 2022 CFU instrument, “Why are you asking me these questions again?”

Table 3. FAQ Updates for CFU-Internet (in red)

FAQ Title	FAQ Answer
Is this a legitimate <b>follow-up</b> survey?	Same as SOGI IDC.
<b>Why are you asking me these questions again?</b>	<b>Because the American Community Survey is continuously collecting data, the Census Bureau must continue to research and improve the questions asked as part of the ACS. We follow-up with some of the households who respond to the ACS and ask some of the same types of questions again in order to get a measure of how well the questions work. Questions that work well and result in the highest quality data will make it easier for you to answer accurately. Your participation in this interview will</b>

	help us make sure the questions on the American Community Survey really measure what we intend. As a result, local, state and federal governments, as well as businesses, will be able to make program decisions based on the most accurate information we can provide.
How was I selected for the follow-up survey?	Either you or someone in your household recently completed the American Community Survey. Thank you! For quality assurance purposes, we would like you to answer a few follow-up questions. Your participation will help us improve the accuracy of the survey data.
How long will it take to complete the follow-up survey?	Time changed to 15 minutes.
Do I have to answer the questions on the follow-up survey?	Yes. Respondents are required to answer all questions on <b>this follow-up survey</b> to the best of their ability. Response is required by law (Section 221 of Title 13, Chapter 7, United States Code). Title 13, Section 221, as changed by Title 18, imposes a penalty for not responding. Federal law protects your privacy and keeps your answers confidential (Title 13, U.S. Code, Section 9).  Your answers are very important because <b>the Census Bureau will use them to improve the American Community Survey, ultimately resulting in better data for your community and the nation.</b>
