

may be submitted electronically by email to Barbara Cuthill at the contact information indicated in the **FOR FURTHER INFORMATION CONTACT** section of this notice by 5 p.m. on the Tuesday, May 7, 2024 to allow distribution of written comments to IoT Advisory Board members prior to the meeting.

Each IoT Advisory Board meeting agenda will include a period, not to exceed sixty minutes, for oral presentation of comments from the public. Oral presentation of comments from the public during this sixty-minute period will be accommodated on a first-come, first-served basis and limited to five minutes per person for oral presentation if requested by the commenter.

Members of the public who wish to expand upon their submitted comments, those who had wished to present comments orally but could not be accommodated on the agenda, and those who were unable to attend the meeting via webinar, are invited to submit written statements. In addition, written statements are invited and may be submitted to the IoT Advisory Board Secretariat, Information Technology Laboratory by email to:

Barbara.Cuthill@nist.gov.

Admittance Instructions: Participants planning to attend via webinar must register via the instructions found on the IoT Advisory Board's web page at <https://www.nist.gov/itl/applied-cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board>.

Alicia Chambers,

NIST Executive Secretariat.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Public Meeting of the Ocean Exploration Advisory Board

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda for a meeting of the Ocean Exploration Advisory Board (OEAB). OEAB members will discuss and provide advice on the Federal ocean exploration program, with a particular emphasis on

the topics identified in the section on Matters to Be Considered.

DATES: The announced meeting is scheduled for Tuesday, May 14 through Wednesday, May 15, 2024 from 9:00 a.m.–5:00 p.m. (EDT).

ADDRESSES: This will be an in-person meeting held in Silver Spring, MD. Information about how to observe virtually will be posted to the OEAB website at <https://oeab.noaa.gov/>.

FOR FURTHER INFORMATION CONTACT: Mr. David Turner, Designated Federal Officer, Ocean Exploration Advisory Board, National Oceanic and Atmospheric Administration, *David.Turner@NOAA.gov* or (859) 327-9661.

SUPPLEMENTARY INFORMATION: NOAA established the OEAB under the Federal Advisory Committee Act (FACA) and legislation that gives the agency statutory authority to operate an ocean exploration program and to coordinate a national program of ocean exploration. The OEAB advises NOAA leadership on strategic planning, exploration priorities, competitive ocean exploration grant programs, and other matters as the NOAA Administrator requests.

OEAB members represent government agencies, the private sector, academic institutions, and not-for-profit institutions involved in all facets of ocean exploration—from advanced technology to citizen exploration.

In addition to advising NOAA leadership, NOAA expects the OEAB to help to define and develop a national program of ocean exploration—a network of stakeholders and partnerships advancing national priorities for ocean exploration.

Matters To Be Considered: The OEAB will be briefed on the status of the NOAA Ship *Discoverer*, a new oceanographic research vessel being built for NOAA that will have Ocean Exploration as its primary mission; receive a briefing about the status and activities associated with the Beyond the Blue: Illuminating the Pacific Campaign; discuss communications across the ocean exploration community, with a focus on Industry and non-governmental actors; and the OEAB will deliver and present recommendations to the NOAA Administrator about ways NOAA can push the boundaries within the ocean exploration field. The agenda and other meeting materials will be made available on the OEAB website at <https://oeab.noaa.gov/>.

Status: The meeting will be open to the public via remote access. Please check the agenda on the OEAB website

to confirm the public comment period schedule.

The OEAB expects that public statements at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to three minutes. The Designated Federal Officer must receive written comments by May 6, 2024, to provide sufficient time for OEAB review. Written comments received after May 6, 2024, will be distributed to the OEAB but may not be reviewed prior to the meeting date. Comments should be submitted to Designated Federal Officer *David.Turner@NOAA.gov*.

Special Accommodations: Requests for sign language interpretation or other auxiliary aids should be directed to the Designated Federal Officer by May 6, 2024.

David Holst,

Chief Financial and Administrative Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-KA-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Socioeconomics of Coral Reef Conservation

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 5, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: Socioeconomics of Coral Reef Conservation.

OMB Control Number: 0648-0646.

Form Number(s): None.

Type of Request: Revision and extension of a current information collection.

Number of Respondents: 9,840.

Average Hours per Response: 20 minutes (0.33 hours).

Total Annual Burden Hours: 1,093 hours.

Needs and Uses: This request is for revision and extension to an approved collection of information, OMB Control Number 0648–0646, under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, and implementing regulations at 5 CFR part 1320. This previously-approved information collection assists NOAA in the administration of the National Coral Reef Monitoring Program (NCRMP), which was established by the NOAA Coral Reef Conservation Program (CRCP) under the authority of the Coral Reef Conservation Act of 2000, 16 U.S.C. 6401 *et seq.* This act authorizes CRCP to, among other things, conserve and restore the condition of United States coral reef ecosystems and enhance public awareness, understanding, and appreciation of coral reefs and coral reef ecosystems and their ecological and socioeconomic value. In accordance with its mission goals, NOAA developed a survey to track relevant information regarding each jurisdiction's population, social and economic structure, the benefits of coral reefs and related habitats, the impacts of society on coral reefs, and the impacts of coral management on communities. The survey is repeated in each jurisdiction every five to seven years in order to provide longitudinal data and information for managers to effectively conserve coral reefs for current and future generations.

The purpose of this information collection is to obtain human dimensions information from residents in the seven United States (U.S.) jurisdictions containing coral reefs: Florida, U.S. Virgin Islands (USVI), Puerto Rico, Hawai'i, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI). Specifically, NOAA is seeking information on the behaviors and activities related to coral reefs, as well as information on perceptions of coral reef conditions and attitudes toward specific reef conservation activities. Each survey has a core set of questions that are asked across all jurisdictions to allow for information to be tracked over time and across jurisdictions. To account for geographical, cultural and linguistic differences between jurisdictions, the survey questions include items that are specific to the

local context and developed based on jurisdictional partner feedback.

We intend to use the information collected through this instrument for research purposes, as well as for measuring and improving the results of our reef protection programs. Because many of our efforts to protect reefs rely on education and changing attitudes toward reef protection, the information collected will allow CRCP to ensure that programs are designed appropriately at the start, future program evaluation efforts are as successful as possible, and outreach efforts are targeting the intended recipients with useful information.

No survey question concept or theory has changed since the first hybrid-generic clearance of this information collect request in 2021. However, NOAA sought feedback from survey administration teams and jurisdictional partners in American Samoa (2021), Puerto Rico (2022), and Guam (2023), as well as during preparation for survey administration in the CNMI (2024) and the USVI (2025). Responses came primarily from state and local natural resource management agencies, fisheries management councils and NGOs. In addition, NOAA adjusted each of the jurisdictional surveys based on respondents' feedback to the instrument. This feedback resulted in non-substantive survey instrument revisions that reduce question complexity, reduce respondent burden, simplify terminology for translation into other languages, improve clarity, and maintain consistent formatting.

Affected Public: Individuals or households.

Frequency: Every 5–7 years.

Respondent's Obligation: Voluntary.

Legal Authority: Coral Reef Conservation Act of 2000.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and

entering either the title of the collection or the OMB Control Number 0648–0646.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

BILLING CODE 3510–08–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Marine Mammal Stranding Reports/Marine Mammal Rehabilitation Disposition Report/Human Interaction Data Sheet

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on February 7, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Marine Mammal Stranding Reports/Marine Mammal Rehabilitation Disposition Report/Human Interaction Data Sheet.

OMB Control Number: 0648–0178.

Form Number(s): NOAA Form 89–864.

Type of Request: Regular submission (1 year extension of a current information collection).

Number of Respondents: 400.

Average Hours per Response: 1 hour.

Total Annual Burden Hours: 8,675.

Needs and Uses: This request is for a 1 year extension of this previously approved data collection. An extension is requested in order to provide time for the program office to address revisions to the collection pursuant to a recent law. Under the Marine Mammal Protection Act (MMPA), the Secretary of Commerce (Secretary), who has delegated responsibility under this Act
