DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; An Observer Program for At Sea Processing Vessels in the Pacific Coast Groundfish Fishery

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 31, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: An Observer Program for At Sea Processing Vessels in the Pacific Coast Groundfish Fishery.

OMB Control Number: 0648–0500.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 268 (5 providers (supplying a total of 75 observers or catch monitors) and 263 fishing vessels).

Average Hours per Response: For providers: 15 minutes for observer training/briefing/debriefing registration, notification of observer physical examination, observer status reports, other reports on observer harassment, safety concerns, or performance problems, catch monitor status reports, and other catch monitor reports on harassment, prohibited actions, illness or injury, or performance problems; 5 minutes for observer safety checklist submission to NMFS, observer provider

contracts, observer information materials, catch monitor provider contracts, and catch monitor informational materials; 10 minutes for certificate of insurance; 7 minutes for catch monitor training/briefing registration, notification of catch monitor physical examination, and catch monitor debriefing registration. For vessels: 10 minutes for fishing departure reports and cease-fishing reports.

Total Annual Burden Hours: 620 hours.

Needs and Uses: This is a request for extension of an approved information collection. In 2011, the National Marine Fisheries Service (NMFS) mandated observer requirements for the West Coast groundfish trawl catch shares program. For all fishery sectors, observers must be obtained through third-party observer provider companies operating under permits issued by NMFS. The regulations at §§ 660.140(h), 660.150(j), and 660.160(g), specify observer coverage requirements for trawl vessels and define the responsibilities for observer providers, including reporting requirements. Regulations at § 660.140(i) specify requirements for catch monitor coverage for first receivers. Data collected by observers are used by NMFS to estimate total landed catch and discards, monitor the attainment of annual groundfish allocations, estimate catch rates of prohibited species, and as a component in stock assessments. These data are necessary to comply with the Magnuson-Stevens Act requirements to prevent overfishing. In addition, observer data is used to assess fishing related mortality of protected and endangered species.

Affected Public: Business or other for-profit organizations.

Frequency: Reporting on occasion, weekly, or yearly.

Respondent's Obligation: Mandatory.

Legal Authority: The regulations at §§ 660.140(h), 660.150(j), and 660.160(g), specify observer coverage requirements for trawl vessels and define the responsibilities for observer providers, including reporting requirements. Regulations at § 660.140(i) specify requirements for catch monitor coverage for first receivers.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Southeast Region Dealer and Interview Family of Forms

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 24th, 2024 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Southeast Region Dealer and Interview Family of Forms.

OMB Control Number: 0648–0013.

Form Number(s): NOAA Form 88–12B.

Type of Request: Regular submission [revision and renewal of a current information collection].

Number of Respondents: 1,829.

Average Hours per Response: Dealer reporting for monitoring Federal fishery annual catch limits (ACLs): coastal fisheries dealers reporting, 10 minutes; mackerel dealer reporting (gillnet), 10 minutes. Bio profile data from Trip Interview programs (TIP): Fin Fish interviews, 10 minutes.

Total Annual Burden Hours: 1,826.

Needs and Uses: This request is for a revision and renewal of a current information collection. Fishery quotas are established for many species in the fishery management plans developed by the Gulf of Mexico Reef Fish Fishery Management Council, the South Atlantic Fishery Management Council, and The Caribbean Fishery Management Council. The Southeast Fisheries Science Center has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. It was discovered that the USVI trip interviews were being double counted with the Vessel trip interviews. We have made the changes to remove the USVI interviews for accuracy.

The frequency of these reporting requirements varies depending on the magnitude of the quota (e.g., lower quota usually requires more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is weekly. Daily reporting is only used for one fishery. In addition, information collection included in this family of forms includes interview with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region and commercial fisheries of the US Caribbean. Fishing trips and individuals are selected at random to provide a viable statistical sample. These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations. This data collection is authorized under 50 CFR part 622.5.

Affected Public: Business and other for-profit organizations.

Frequency: Dealer reporting for monitoring Federal fishery annual catch limits (ACLs) are estimated to transmit data 173 times annually. Vessels selected for Trip Interview programs (TIP): Fin Fish interviews are estimated to be encountered 2.3 times annually.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR part 622.5.
