**TITLE OF INFORMATION COLLECTION: Security Clearance Applicant  
Survey for DCSA.MIL**

**PURPOSE OF COLLECTION:**

*DCSA hopes to learn about and make improvements to the customer experience for applicants who are navigating the application process for a federal background investigation. DCSA plans to use what is learned from customer feedback in several ways. Collecting and analyzing real-time, post-transactional data during the initiation phase of the security clearance application will allow DCSA to identify areas of improvement through the eyes of the customer and measure the effectiveness of our efforts regarding service improvements and website enhancements. Over time, DCSA expects to use customer feedback data to inform leadership of customer pain points during the personnel security clearance application process and make informed decisions that positively impact DCSA staff, Facility Security Officers (FSO's), Security Officers (SSO's), and applicants. The data from this collection will feed DCSA's Personnel Security Journey map.*

**BURDEN HOURS**

Category of Respondent	No. of Respondents	Participation Time	Burden Hours
Applicants for a security clearance	16,080	2 mins	536
<b>Totals</b>			

The estimated respondent hourly wage was determined by using the Clearance Jobs Website, <https://about.clearancejobs.com/salary-calculator>. Survey data indicates the median hourly wage for a clearance job across D.C., Maryland, and Virginia (including the following levels of a security clearance: Public Trust, Confidential, Secret and Top Secret w/SCI) is \$43.28 per hour. This results in an estimated annual public labor cost of \$23,198.

**CERTIFICATION:**

2. The collections are low-burden for respondents (based on considerations of total burden hours or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
3. The collections are non-controversial;
4. Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;

8. Outside of the quarterly reporting mentioned in the bullet immediately above, if the agency intends to release journey maps, user personas, reports, or other data-related summaries stemming from this collection, the agency must include appropriate caveats around those summaries, noting that conclusions should not be generalized beyond the sample, considering the sample size and response rates. The agency must submit the data summary itself (e.g., the report) and the caveat language mentioned above to OMB before it releases them outside the agency.
