RE: Expedited review of initial application for Home Visiting Assessments of Implementation Quality (HV-AIM): Exploring Family Voice and Leadership in Home Visiting, 17260.00.004

Dear Sarah Crowne,

Thank you for submitting the initial application for Home Visiting Assessments of Implementation Quality (HV-AIM): Exploring Family Voice and Leadership in Home Visiting, 17260.00.004. It has undergone expedited review using the Revised Common Rule because the research activities in this study present no more than minimal risk to human subjects and the data collection procedures fall under one of the categories for expedited review—Category 7, which includes research employing surveys, focus groups, program evaluation, oral history and the like. The reviewer has approved the application.

As a part of the IRB's approval, we would like you to do the following:

- If any adverse or unexpected events occur in the study, please report them promptly to the IRB, using an Unanticipated Event Form, located on the [IRB Sharepoint page](#).
- When the study is complete, please notify the Child Trends IRB by submitting a Study Closure form, located on the [IRB Sharepoint page](#).

Please feel free to contact us to ask questions or discuss ideas about this or future reviews/modifications.

Warm regards,

A handwritten signature in black ink, appearing to read "Brandon Stratford".
