Attachment 5b:

Colorectal Cancer Control Program (CRCCP)

Clinic Data Dictionary

Public reporting burden of this collection of information is estimated to average **50 minutes** per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (XXXX-XXXX).

CRCCP Clinic Data Dictionary (NOFO DP20-2002)

Contents

Part I: Partner and Record Identifiers

Part II: Baseline and Annual Record Data Items

Section 1. Baseline and Annual Clinic CRCCP Activity and Status

Section 2. Baseline and Annual Health System and Clinic Characteristics and Clinic Patient Population

Section 3. Baseline and Annual CRC Screening Rates and Practices

- Screening Rate Status
- Chart Review (CR) Screening Rates
- Electronic Health Records (EHR) Screening Rates
- CRC Screening Practices and Outcomes

Section 4. Baseline and Annual Monitoring and Quality Improvement Activities

Section 5. Baseline and Annual Evidence-based Interventions (EBIs) and Other Clinic Activities

- 5-1: EBI-Patient Reminder System
- 5-2: EBI-Provider Reminder System
- 5-3: EBI-Provider Assessment and Feedback
- 5-4: EBI-Reducing Structural Barriers
- 5-5: Small Media
- 5-6: Patient Navigation

Section 6. Annual Implementation Factors

Section 7. Other Baseline and Annual Colorectal Cancer Activities and Comments

CRCCP DP20-2002 Program Years (PY)

	START DATE	END DATE
PY 1	JULY 1, 2020	JUNE 30, 2021
PY 2	JULY 1, 2021	JUNE 30, 2022
PY 3	JULY 1, 2022	JUNE 30, 2023
PY 4	JULY 1, 2023	JUNE 30, 2024
PY 5	JULY 1, 2024	JUNE 30, 2025

Data Collection Notes:

- Baseline data are required for all clinics participating in CRCCP- NOFO DP20-2002.
- For clinics enrolled during the previous CRCCP funding period (NOFO DP15-1502) and still active, awardees must re-submit baseline data using the clinic's NOFO DP15-1502 program year 5 reported screening rates as the current baseline screening rates.
- For new clinics, baseline data are reported when new clinics are enrolled to participate in CRCCP activities and reflect activities prior to CRCCP activity implementation (Item B1-1: Clinic CRCCP Activities Start Date).

Item Type: R=Required; O=Optional; Comp=computed by CBARS

Collected: B= Variable collected at baseline; A=Variable collected annually; B, A=variable collected at baseline and annually.

Item numbers: Baseline Record item numbers have a B prefix; Annual Record item numbers have an A prefix

Part I. Partner and Record Identifiers

Identifying information for the partner clinic and health system.

Item#	Item Type	Collected	CRCCP Data Item	Indication/ Definition	Field Type	Response Options
P1	R	В	Grantee code	Baseline Record: Two-character Grantee Code (assigned by CDC) Annual Record: N/A	List	TBD- 2-digit code
P2	R	В	Clinic Enrollment NOFO	Baseline Record: Indicates the NOFO during which the clinic was first enrolled into CRCCP. Identifies the clinic as new to CRCCP and newly enrolled during NOFO DP20-2002 or if the clinic was recruited prior to this funding cycle and is continuing from NOFO DP15-1502 and if so, its status at the end of DP15-1502. DP20-2002: Clinic is new to CRCCP (did not participate in NOFO DP151502. DP15-1502 never terminated: Clinic is continuing on from NOFO DP15-1502 (never terminated) DP15-1502 previously terminated: Clinic enrolled during NOFO DP15-1502 but ended CRCCP participation during that NOFO and is being re-enrolled into CRCCP as part of DP20-2002. If unknown, select DP20-2002.	List	□ DP20-2002 □ DP15-1502 never terminated □ DP15-1502 previously terminated

Item #	Item Type	Collected	CRCCP Data Item	Indication/ Definition	Field Type	Response Options
P3	R	B	CRCCP Partner Entity	Baseline Record: Indicates the organizational level of the partner entity working with the grantee to implement CRC EBIs and associated population used for calculating screening rates. Clinic partnerships are the preferred action. When reporting clinic-level data, the clinic/grantee must report clinic-specific screening rates and population counts (not health system rates and counts). To report Health System-level data, you must have approval from CDC's Evaluation Team before enrolling the Health System. In addition, four criteria must be met: 1. All Clinics within the health system must be participating in CRCCP. 2. The same EBIs must be implemented uniformly across ALL clinics within the health system 3. The reported screening rate and population counts must be Health System-wide for ALL eligible patients at all clinics within the health system. 4. Data for any individual clinic within the health system must not be reported separately. Thus, you will have only one record reported for the entire health system in CBARS. Within the record, information at the health system level will be reported for both the Health System and the individual Clinic fields. Contact CDC's evaluation team for help with reporting these data. Annual Record: N/A	List	☐ Clinic ☐ Health System ☐ Other (specify below)
P3a	R	В	Other Partner Entity specify	Baseline Record: If other partner, provide description Annual Record: N/A	Char	Free text 200 Char limit

Item #	Item Type	Collected	CRCCP Data Item	Indication/ Definition	Field Type	Response Options
P4	R	В	Partner Type	Baseline Record: Organizational classification of partner clinic/health system. Community Health Center/Federally Qualified Heath Center (CHC/FQHC) includes "FQHC look-alikes" that meet program requirements but do not receive funding from the HRSA Health Center Program. Tribal health clinic includes IHS, Tribal or Urban Indian clinics (I/T/U) that serve AI/AN. Annual Record: N/A	List	□ CHC/FQHC □ Health system/Hospital owned □ Private/Physician owned □ Health department □ Tribal health □ Primary Care Facility (non-CHC/FQHC) □ Other
P5	R	В	Initial Partner Agreement	Baseline Record: The initial type of formal agreement the grantee made with the partner health system and/or clinic for CRCCP activities. Annual Record: N/A	List	MOU/MOAContractOtherNone
P6	R	В	Date of Initial Partner Agreement	Baseline Record: The original date the formal agreement was finalized between the grantee and partner clinic or health system for CRCCP activities. Annual Record: N/A	Date	MM/DD/YYYY

Section 1. Baseline and Annual Clinic CRCCP Activity and Status

If the partner is a health system (P3=" Health System") then clinic data reported must represent the entire Health System

	Item				Field	
Item#	Туре	Collected	CRCCP Data Item	Indication/ Definition	Туре	Response Options
B1-1	R	В	Clinic CRCCP Activities Start Date	Baseline Record: Indicates the date the clinic (or health system if reporting health system-level data) began actively implementing CRCCP [NOFO DP20-2002] activities. Enter the date that the clinic started implementing CRCCP program activities to increase clinic-level colorectal cancer screening rates. Activities can include: Enhancing existing EBIs Implementing new CRCCP EBI activities Conducting quality improvement activities to increase CRC screening rates such as: Improving the quality of EHR screening data to produce an accurate CRC screening rate, integrate patient and provider reminder systems, or produce feedback reports; Process mapping to identify areas where CRC screening can best be promoted or implemented; Other activities that improve service delivery in ways to increase CRC screening. Note: For clinics enrolled during the previous CRCCP funding period (NOFO DP15- 1502), grantees must re-submit baseline data using the clinic's NOFO DP15-1502, PY5 screening rates for NOFO 20-2002 baseline screening rates. In such cases, the same 12-month screening rate measurement period and the same screening rate measure (e.g., UDS) must be used for reporting under DP20-2002. For active clinics continuing from NOFO DP15-1502, (item P2, Clinic Enrollment NOFO is "DP15-1502 not terminated") the clinic CRCCP activities start date will be automatically entered by CBARS as 07/01/2020. Annual Record: N/A	Date	MM/DD/YYYY
B1-2	Comp	В	Baseline PY	Baseline Record: Baseline PY (based on activities start date) - auto-calculated based on start date (item, B1-1) Annual Record: N/A	List	□ CRCCP 2020-2002-py1 □ CRCCP 2020-2002-py2 □ CRCCP 2020-2002-py3 □ CRCCP 2020-2002-py4 □ CRCCP 2020-2002-py5

				Field will be auto-calculated using the provided screening rate denominator (item A3-4c) and the total # of clinic patients, age 50-75 (item A2-5) reported for this program year.		
B3-4f A3-4f	R	B, A	Sampling Method	Baseline and Annual Records: Indicates if records were selected through either a random or systematic sampling method to generate a representative sample of the entire population of patients who meet the inclusion/selection criteria for the measure used. See CDC Guidance for Measuring Breast, Cervical, and Colorectal Cancer Screening Rates in Health System Clinics. A random sample takes a randomly assigned subset of the population identified in the sampling frame. This is typically accomplished through generating a random number that will be assigned to each patient in the sampling frame. This can be accomplished in many ways (e.g., random number table, web-based software, computer software). A systematic sample orders every patient (e.g., alphabetically, by ID) in the sampling frame and then selects every nth patient.	List	☐ Yes ☐ No ☐ Unknown

				If a provider reminder system was in place prior to this program year and continuing		
				(A5-2b is Yes, continuing), indicates whether the clinic made changes to enhance or		
				improve implementation of patient reminders during the program year (July 1- June		
				30).		

	Item				Field	
Item #	Туре	Collected	CRCCP Data Item	Indication/ Definition	Туре	Response Options
A5-2e	R	A	Provider reminders sent multiple ways	Baseline Record: N/A	List	☐ Yes ☐ No
				Annual Record: If a provider reminder system was in place at the end of the program year (July 1- June 30) (A5-2b is "Yes, newly in place" or "Yes, continuing"), indicates whether providers at this clinic typically received colorectal cancer screening reminders for a given patient in more than one way (e.g., provider receives both an EHR pop-up message and a flagged patient chart for the same patient) during this program year.		
A5-2f	R	A	Maximum number and/or frequency of provider reminders	Baseline Record: N/A Annual Record: If a provider reminder system was in place at the end of the program year (July 1- June 30) (A5-2b is "Yes, newly in place" or "Yes, continuing"), indicates the maximum number of different ways and times (activity conducted more than one time during the year) that a given provider could have received colorectal cancer screening reminders for an individual patient during this program year (e.g., the provider received a total of 3 reminders for a given patient – 1 pop-up reminder in the patients electronic medical record, 1 reminder flagged in the patient chart, and 1 reminder via a list each day of patients due for screening).	List Select one	Select one: 1
A5-2g	R	A	Provider reminder system sustainability	Baseline Record: N/A Annual Record: If a provider reminder system was in place at the end of the program year (July 1- June 30) (A5-2b is "Yes, newly in place" or "Yes, continuing"), indicates whether the provider reminder system is considered to be fully integrated into health system and/or clinic operations and is sustainable without CRCCP resources. [The provider reminder system has become an institutionalized component of the health system and/or clinic operations.]	List	□ Yes □ No

Section 5-3: EBI -Provider Assessment and Feedback

Indicates the clinic's use of system(s) to evaluate provider performance in delivering or offering screening to clients (assessment) and/or present providers, either individually or as a group, with information about their performance in providing screening services (feedback).

Item Type: R=Required; O=Optional; Comp=computed by CBARS

Collected: B= Variable collected at baseline; A=Variable collected annually; B, A=variable collected at baseline and annually.

Item numbers: Baseline Record item numbers have a B prefix; Annual Record item numbers have an A prefix

List Select one	Select one: Weekly Monthly Quarterly Annually
A5-3g	R	A	Provider assessment and feedback sustainability	Baseline Record: N/A Annual Record: If provider assessment and feedback were in place and operational at the end of the program year (July 1- June 30) (A5-3b is "Yes, newly in place" or "Yes, continuing"), indicates whether provider assessment and feedback is considered to be fully integrated into health system and/or clinic operations and is sustainable without CRCCP resources. [Provider assessment and feedback has become an institutionalized component of the health system and/or clinic operations.]	List	□ Yes □ No

Section 5-4: EBI -Reducing Structural Barriers

Indicates the clinic's use of one or more interventions to address structural barriers to colorectal cancer screening. Structural barriers are non-economic burdens or obstacles that make it difficult for people to access cancer screening. Do **not** include patient navigation or community health workers as "reducing structural barriers."

[Small media has become an institutionalized component of the health system and/or clinic operations.]		

Section 5-6: Patient Navigation

Indicates whether patient navigators (PNs) are in place at or employed by the clinic. PNs typically assist clients in overcoming individual barriers to cancer screening. Patient navigation includes assessment of client barriers, client education and support, resolution of client barriers, client tracking and follow-up. Patient navigation should involve multiple contacts with a client.
