Study Registration

All fields marked with an asterisk (*) are required.

Study Name *

Please enter study name (512 characters including spaces)

Abbreviation *

Abbreviation

Study Description *

Please provide a brief description (1600 characters including spaces) of the study to include study aims/goals, hypothesis tested, methodology used and the resulting outcomes.

Provide a description of the study being cataloged in the archive (1600 characters including spaces)

Source Repository Name *

Please select the name of the public data archive where the study is stored. If the archive is not listed, please select "Other" at the bottom of the list, and then enter the archive name in the text box that will open.

Please select a repository

Study URL in Source Repository *

Please provide the link to the study URL in the Source Repository. The URL should be a direct link and not include search terms in the URL.

Please enter a URL link to the study

Related Studies in DASH *

Is the study you are cataloging related, either by study participants or study protocol, to another study that is currently archived in DASH?

Public reporting burden for this collection of information is estimated to average thirty minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0744). Do not return the completed form to this address.

Study Schema

This page allows you to build a Study Schema that will be displayed on the DASH Study Overview page associated with your study. The Study Schema provides an outline of the main elements and/or data collection points in the study (e.g., interview visits, sample collections, laboratory tests). You can decide what events, levels, and/or headings work best to describe your study.

NOTE: As you enter your schema, the headings will be automatically assigned numbers/letters (e.g., 1A) to help with organizing and displaying the schema levels. Please do not delete the assigned numbers/letters when entering each heading.
