QUALIFIED ENTITY CERTIFICATION PROGRAM
FOR MEDICARE DATA

Covered Lives Calculator for National QEs

Note that this worksheet must be completed if the entity plans to report at the national level (all 50 states and DC). You disregard this worksheet if your organization does not plan to report at the national level.

This worksheet walks entities through a simple and automated two-step process for reporting the number of covered lives an entity possesses by state. **Step 1** requires the entity to enter the total number of other-payer covered lives it possesses in the United States in cell C5 (this is the same number reported in cell A5 in the Covered Lives- Regional calculator). **Step 2** requires the entity to enter the number of other-payer covered lives it possesses by state in cells C6-C56.
