

Eligibility Results Toolkit - Phase 1

**Purpose of This Toolkit**

This document is designed to help Enhanced Direct Enrollment (EDE) Auditors ensure that the application returns accurate eligibility results for specific consumer scenarios. Each test case is phase-specific, and describes a consumer scenario that must be supported by an EDE application. Auditors should complete each test case by using the information provided to complete an application through the EDE Entity's user interface (UI). Some information collected by the UI (e.g., phone numbers, contact method preferences, language preferences) is not specified in the test data. In these cases, Auditors may enter any value or skip optional inputs unless otherwise noted in the test case. The application must display all appropriate application questions to the Auditor and provide the opportunity to enter the test case information into the application. After all of the information from the test case is entered into the application and the application is submitted, the Auditor must verify that the eligibility results returned match the expected eligibility results provided in the test case, which is reflected in the Marketplace Eligibility Determination Notice (EDN) and should be correctly conveyed in the entity's Eligibility Results Page (ERP).

**Documentation Requirements**

Phase 1 Entities must submit complete eligibility application UI screenshots, EDNs, and unparsed JSONs for all test cases it completes in the Phase 1 Eligibility Results Toolkit (ERT). In test cases for which an EDN is not generated, but is expected, Auditors must repeat the test case. If the test case ends after the screening questions (i.e., if the consumer is not eligible to use a Phase 1 or Phase 2 EDE pathway, the consumer must be guided to an alternate pathway), the Auditor will not provide a screenshot of the EDN, but must still provide screenshots showing the application questions asked from the start of the application through the end of the test case (i.e., the redirect to the alternate pathway). Please review row 15 of this tab for more information about naming files.

**Required Completion Rate**

Auditors must conduct all possible test cases. However, depending on the Entity's intended service areas, Auditors may not be able to conduct a test case because the Entity does not intend to operate in the specific state(s) provided in the test case. Auditors must conduct a minimum number of test cases from each toolkit it completes. Auditors conducting Phase 1 audits must submit at least 11 of 14 Phase 1 test cases. Auditors conducting Phase 2 audits must submit at least 8 of 14 Phase 1 test cases AND 6 of 9 Phase 2 test cases. Auditors conducting Phase 3 audits must submit at least 8 of 14 Phase 1 test cases AND 5 of 9 Phase 2 test cases AND 7 of 9 Phase 3 test cases. If an Auditor is not able to conduct the minimum number of test cases for each toolkit because of the Entity's planned service areas, it must email DE Support to request instructions to modify test cases so that the Auditor is able to conduct and submit the minimum number of test cases.

**Note:**

Each phase-specific set of eligibility results test scenarios are contained within separate toolkits (e.g., there is a Eligibility Results Toolkit specific to Phase 3).

**Note on Version**

It is important to note that this document is subject to change.

**Navigating Updates to the Toolkit**

Different font colors are used to indicate when the content of a cell was last updated. Use the key below to navigate updates to the content of these tabs.

Black font: Original value

**Tabs for Auditor Review**

Tab	Description	How to Review
Phase 1	This tab displays an overview of the test scenarios for the Phase 1 eligibility application.	The Auditor will use this tab to track compliance with each eligibility result test scenario defined in the subsequent tabs. The Auditor must carefully examine the "Eligibility Results" section of each "Test Case" input tab prior to confirming the EDE Entity's compliance with each test case.  <b>Note:</b> Auditors for Phase 1 EDE applications must complete all Phase 1 test case scenarios, if possible. If an entity does not intend to operate in the specific state(s) provided in the test case, Auditors must submit at least 11 of 14 Phase 1 test cases.
Phase 2 (different toolkit)	This tab displays an overview of the test scenarios for the Phase 2 eligibility application.	The Auditor will use this tab to track compliance with each eligibility result test scenario defined in the subsequent tabs. The Auditor must carefully examine the "Eligibility Results" section of each "Test Case" input tab prior to confirming the EDE Entity's compliance with each test case.  <b>Note:</b> Auditors for Phase 2 EDE applications must complete all Phase 2 test case scenarios, as well as the following test cases from Phase 1: 1.A, 1.B, 1.C, 1.D, 1.E, 1.F, 1.K, 1.L, 1.M, 1.N, 1.O (not 1.D.2, 1.H, 1.J which are Phase 1 only test cases), if possible. If an entity does not intend to operate in the specific state(s) provided in the test case, Auditors must submit at least 8 of 14 Phase 1 test cases AND 6 of 9 Phase 2 test cases. Note that because Phase 2 supports more consumer scenarios than Phase 1, some information that is gathered via screening question for a Phase 1 application is asked as an application question for a Phase 2 application. For instance, pregnancy status is included in Phase 1 screening questions, but will be included as an application question in Phase 2 applications.

**PRA DISCLOSURE:** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-NEW, expiration date is XX/XX/20XX. The time required to complete this information collection is estimated to take up to 56,290 hours annually for all direct enrollment entities. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. \*\*\*\*CMS Disclosure\*\*\*\*  
 Please do not send applications, claims, payments, medical records or any documents containing sensitive information to the PRA Reports Clearance Office. Please note that any correspondence not pertaining to the information collection burden approved under the associated OMB control number listed on this form will not be reviewed, forwarded, or retained. If you have questions or concerns regarding where to submit your documents, please contact Brittany Cain at Brittany.Cain@cms.hhs.gov.

Phase 3 (different toolkit)	This tab displays an overview of the test scenarios for the Phase 3 eligibility application.	<p>The Auditor will use this tab to track compliance with each eligibility result test scenario defined in the subsequent tabs. The Auditor must carefully examine the "Eligibility Results" section of each "Test Case" input tab prior to confirming the EDE Entity's compliance with each test case.</p> <p><b>Note:</b> Auditors for Phase 3 EDE applications must complete all Phase 3 test case scenarios, as well as the following test cases from Phase 1 and Phase 2: 1.A, 1.B, 1.C, 1.D, 1.E, 1.F, 1.K, 1.L, 1.M, 1.N, 1.O (not 1.D.2, 1.H, 1.J which are Phase 1 only test cases) and 2.A, 2.B, 2.B.2, 2.D, 2.E, 2.E.2, 2.F and 2.G (not 2.H which is a Phase 2 only test case), if possible. If an entity does not intend to operate in the specific state(s) provided in the test case, Auditors must submit at least 8 of 14 Phase 1 test cases AND 5 of 9 Phase 2 test cases AND 7 of 9 Phase 3 test cases. Note that because Phase 3 supports all consumer scenarios, Phase 3 does not have screening questions. Therefore, information that is gathered via screening question for a Phase 1 or Phase 2 application is asked as an application question for a Phase 3 application. For instance, American Indian or Alaska Native status is included in Phase 1 and 2 screening questions, but will be included as an application question in Phase 3 applications.</p>
Test Case Input Tabs (e.g., Test Case 1.A input, Test Case 1.B input)	Each test case input tab details the eligibility application answers to test the eligibility determination through the EDE pathway.	<p>Auditors should use each tab to complete an eligibility application with the answers detailed in the tab. Upon receiving an eligibility determination through the EDE Pathway, the Auditor should confirm that the eligibility results from the EDE Pathway are identical to the "Eligibility Result" included at the end of each test case. The Auditor must take screenshots of the eligibility application process while progressing through the test case, including a screenshot of the ERP, and also store the EDN and provide the EDN to CMS (if applicable). The Auditor must also submit the Get App API response (JSON) from each test case. The Auditor should name the screenshot files sequentially and clearly identify them as belonging to a specific test case (e.g., TestCase1A-1, TestCase1A-2). Similarly, the Auditor should name the JSON files to clearly identify them as belonging to a specific test case (e.g., TestCase1A-JSON). CMS strongly recommends that Auditors sequentially aggregate the screenshots in a single document for each test case (e.g., a Microsoft Word, PowerPoint, or PDF document with each image labelled "TestCase1-A") instead of submitting each screenshot as an individually saved image (e.g., TestCase1A-1.jpg, TestCase1A-2.jpg). This may help expedite CMS's audit review.</p>

Audit Requirements by Tab		
Tab: Phase 1		
In this tab, the Auditor must scroll to the right to complete the last six columns whose column headings are shaded in yellow or marked with "***."		
Columns	Description	How to Review
Test Case ID	Test Case ID that corresponds to each input tab.	The Auditor must match the Test Case ID in the "Phase 1" tab to the corresponding Test Case ID input tab, and use information from both tabs to complete the audit.
State	List of state(s) for testing that corresponds to each input tab.	The Auditor must use an approved state (i.e., the state or one of the states provided for each test case) to complete each test case.
Summary/Criteria	Summary of test data for each test case.	The Auditor may use this summary information to inform the audit.
Expected Results/What's Tested	Summary of tested functionalities and expected results for each test case.	As stated above, the Auditor must carefully examine the "Eligibility Results" section of each "Test Case" input tab prior to confirming the EDE Entity's compliance with each test case.
Test Scenario Description	Summary description of the test case.	The Auditor may use this summary information to inform the audit.

Auditor Compliance Conclusion**	The Auditor must provide a conclusion as to whether the scenario or requirement defined in each row is compliant with the CMS requirements. A compliance conclusion should be indicated as "Yes" or "No."	<p>The Auditor will use the test case eligibility details from the Test Case input tabs to complete the EDE Entity's eligibility application. Upon completing the eligibility application, the Auditor will verify that the eligibility results on the EDE Entity's website match the eligibility results defined at the end of each Test Case input tab. The Auditor will document each screen within the eligibility application with screenshots and store the EDN and provide the EDN to CMS, unless the test case ends after the screener questions, which is clearly marked in each input tab. For each test case, the Auditor must provide the raw JSON from the Get App API response for the application version used to complete the scenario.</p> <p>There are several required fields in each cell within this column:  - The first required field in each cell is, "Eligibility results compliance conclusion: _____," If the test case is compliant, and matches the eligibility results expected for the test case, the Auditor must indicate "Yes" in this column. If the row is not compliant, the Auditor must indicate the noncompliance with a "No" in this column.  -The subsequent required fields in each cell refer to the "Auditor Checklist" column and include the item number from the Application UI Toolkit, and the row number from the test case. For example, the first item in row 33 of the 1.A Check List is "Check Items 128-130: Verify that Race and Ethnicity questions are optional to answer for all household members." After the Auditor verifies this checklist item, the Auditor must document its compliance determination in the corresponding field in the "Auditor Compliance Conclusion" column in the "Phase 1" tab, "Auditor checklist Items 128-130/row 33 compliance conclusion: _____"</p>
Risks Identified**	The Auditor must detail any compliance risks identified during the audit in this column for each applicable row. Use this column if the Compliance Conclusion was "No" or if the entity resolved a risk prior to audit submission. There are two types of risks: resolved and unresolved. Please document them both here. Do not document a risk if the requirement is compliant and there was no mitigation required.	As the Auditor reviews each test case in its entirety, the Auditor must indicate any compliance risks identified in this column. This includes any compliance risks that the EDE Entity has since resolved and come into compliance. One example finding is the Auditor could not input all of the test data because UI questions were missing. Another example is if the eligibility result was correct, but the Auditor found that the Entity's UI did not seem to follow the test data inputs or display correct questions.
Risk Level**	<p>Auditors must assign a risk level to each risk it identifies.</p> <p>CMS will take the risk level assigned by the Auditor into consideration when reviewing the audit, but may adjust it if necessary.</p>	<p>The Auditor must assign a risk level of "high" or "low" to each risk. High-risk issues may impact a consumer's eligibility determination, enrollment disposition or status, or legal attestation. High-risk issues may also greatly hinder the consumer experience or impact data collection (e.g., skipping a question that is required for a EDE Entity to ask, but optional for the consumer to answer). Low-risk issues are unlikely to affect a consumer's eligibility determination, enrollment disposition or status, legal attestation, experience (i.e., in a negative or confusing way), or data collection. <b>Note:</b> These risk determinations are applicable for the business audit only and not the privacy and security audit.</p>
Risk Mitigation Strategy**	Auditors must explain how a risk(s) was mitigated. For example, if the entity had non-compliant question text, the Auditor must identify that as a risk and list the specific language used as well as how the issue was resolved. This field is required for high-risk findings. The Auditor can work with the EDE Entity to decide on whether or not to include this for low-risk findings.	As the Auditor identifies compliance risks, the Auditor and EDE Entity will identify a mitigation strategy that will mitigate or eliminate the compliance risk. The Auditor must document that mitigation strategy here. This includes documenting the mitigation strategy for any identified risk that the EDE Entity has resolved. One example is, if the initial test did not produce the expected eligibility results (which would be an identified risk), the EDE Entity made a system or UI change to correct the issue to produce the correct eligibility result.
Estimated Resolution Date**	Auditors must provide a timeframe for risk resolution (required for unresolved high-risk findings).	CMS recommends Auditors work with the EDE Entity to provide a realistic timeframe of when a risk will be closed or mitigated given other dependencies and their expertise.
Auditor Comments**	Auditors must use the Auditor comments column for any additional notes or comments pertaining to each item. The Auditor must use this column to include the applicable screenshot file or folder names that show proof of compliance (or non-compliance) for this requirement.	<p>For instructions on how to properly document supplemental documentation see the Enhanced Direct Enrollment (EDE) Business Audit Instructions and Report Template.</p> <p>The Auditor can also use this column to provide any additional notes or comments pertaining to each item. Business requirements audits should not include comments that describe the Auditor's process for verifying the requirement unless there is a specific issue or concern regarding the requirement that warrants raising a concern.</p>

<b>Tab: Test Case Input</b> <b>Note: Not all columns are present in all test case tabs.</b>		
Columns & Sections	Description	Testing Notes
Summary	A high-level summary of the test case.	
UI Question Companion Guide Reference	Item numbers from the UI Question Companion Guide so the Auditor can easily refer back to requirements.	The Auditor should note this column does not provide an exhaustive list of item numbers for each test case and is not intended for audit purposes. It is a tool to better understand question display requirements by providing an easily accessible reference to detailed information in the UI Question Companion Guide.

Application Data	The question, group of questions/application section, or eligibility result.	
Application Input	Test data for the consumer(s) in each test case (i.e., test data the EDE Entity and Auditor use to answer questions in the eligibility application).	
Notes to Testers	Additional notes to complete each test case and provide additional information for the Auditor about what should or should not appear in the UI.	
Auditor Checklist	Each case has 1-7 checklist items for the Auditor to use when going through the test case to ensure correct implementation. The Auditor must review and verify each checklist item.	The Auditor is required to verify all checklist items and include it's compliance determination for each checklist item in the corresponding field in the "Auditor Compliance Conclusion" column in the "Phase" tab.
Application State & Coverage Year	This section provides the state and required ZIP Code (if any) and coverage year for each test case.	Some test scenarios require the use of specific application states or ZIP Codes. In the event an EDE Entity does not support an application state listed in the test scenario, the Auditor may omit that test case.  Required Completion Rate (Reminder) Auditors must conduct all possible test cases. However, depending on the entity's intended service areas, Auditors may not be able to conduct a test case because the entity does not intend to operate in the specific state(s) provided in the test case. Auditors must conduct a minimum number of test cases from each toolkit it completes. Auditors conducting Phase 1 audits must submit at least 11 of 14 Phase 1 test cases. Auditors conducting Phase 2 audits must submit at least 8 of 14 Phase 1 test cases AND 6 of 9 Phase 2 test cases. Auditors conducting Phase 3 audits must submit at least 8 of 14 Phase 1 test cases AND 5 of 9 Phase 2 test cases AND 7 of 9 Phase 3 test cases. If an Auditor is not able to conduct the minimum number of test cases for each toolkit because of the entity's planned service areas, it must email DE Support to request instructions to modify test cases so that the Auditor is able to conduct and submit the minimum number of test cases.
Screening Questions	This section provides the screener questions and answers for each test case that determine if consumer(s) can use a certain phase of EDE.	
Screening Pass/Fail	This section describes and explains if the test consumer(s) may continue the application or if the test consumer must be guided to an alternate pathway because the consumer is not eligible for this phase of EDE.	
Household Member Input	Test data for each consumer in the test case.	
Household	This section provides the household composition information such as relationships, whether household members are applicants/non-applicants, Social Security Numbers (SSNs), and citizenship/immigration information.	All Phase 1 and some Phase 2 scenarios require the use of specific test SSNs which are provided in the input table. Some Phase 2 and Phase 3 scenarios do not include SSNs. In these instances, the Auditor should proceed in the application without entering any values in the SSN field. Entering an invalid SSN will prevent application submission. Please refer to phase-specific instructions.
More About This Household	This section provides information for answering the Non-MAGI Medicaid eligibility questions (physical disabilities, assistance with daily living, nursing home care).	
Medicaid Block	This section provides information for answering the questions about Medicaid denial or Medicaid ending due to a change in eligibility.	
Income	This section provides each household member's current income, deductions, annual income, and income discrepancies, when applicable.	
Program Questions	This section provides additional inputs for each test case that are specific to APTC, Medicaid, CHIP, SEP, and QHP eligibility.	
Attestations	This section provides information for answering the legal attestations.	

Eligibility Results	This section shows the eligibility results that should display for each consumer in the ERP. The information displayed in the UI should accurately reflect results found in the EDN and use specific language where noted in the test cases.	<p>Auditors should note that test cases do not include data matching issue (DMI) status in the Eligibility Result section. If the test case results in a DMI, the ERP and EDN will provide instruction that the consumer must submit documentation to confirm information. DMIs can occur for citizenship status; immigration status; household income; incarceration status; American Indian or Alaska Native status; eligibility for minimum essential job-based coverage; and eligibility for coverage through Medicaid or CHIP, TRICARE, Veterans Health Care Program, Medicare, or Peace Corps.</p> <p>Auditors should also note that the test cases do include information on Special Enrollment Verification Issues (SVIs) in the Eligibility Results section, and that messaging about SVIs is expected on both the ERP and EDN when noted in the test case. However, SVIs will not be generated for applicants who are current enrollees or for applications submitted during the annual open enrollment period. Entities can help ensure they are generating the expected SVIs by always randomizing demographic data as instructed by the test cases and completing the toolkit outside of the open enrollment period.</p>
---------------------	--	---

Test Case ID	State	Summary/Criteria	Expected Results/What's Tested	Test Scenario Description	Auditor Compliance Conclusion**	Risks Identified**	Risk Level**	Risk Mitigation Strategy**	Estimated Resolution Date**	Auditor Comments**
Test Case 1.A	Any state except AK	Initial application, 2 member household Seeking financial assistance Married, no dependents Current coverage through Medicare	EDE Entity can handle non-applicants (spouse) EDE Entity accurately collects job-based income information (including both current monthly amount and annual amount) Primary applicant is ineligible for APTC (due to Medicare enrollment)	This is a simple test case with a two person household – married couple filing a joint tax return in any state. This test case allows the EDE Entity to demonstrate its ability to handle non-applicants, as the application filer's spouse must be included on the application, but is not seeking coverage herself. Because the application filer is over age 65, the UI must display a message regarding aspects of Medicare and Marketplace coverage. This test case also demonstrates the collection of information about the consumer's employer, because job-based income is reported, and about enrollment in other non-employer-sponsored health coverage. In this case, the application filer has Medicare which results in ineligibility for APTC.	Eligibility results compliance conclusion: Auditor checked item 27/row 21 compliance conclusion: Auditor checked item 128 /230/row 23 compliance conclusion: Auditor checked item 34/row 36 compliance conclusion: Auditor checked item 194/row 37 compliance conclusion:					
Test Case 1.B	Any state	Initial application, 1 member household Not seeking financial assistance Single, no dependents Loss of coverage SEP	EDE Entity properly displays limited screener questions due to consumer indicating they are not seeking financial assistance EDE Entity properly displays limited application questions due to consumer indicating they are not seeking financial assistance Applicant is eligible for QHP and may enroll through SEP due to recent loss of MEC	This is a scenario where the consumer is not requesting financial assistance. It can be handled as a result. In this scenario, the consumer reports a monthly limited screener questions and limited application questions appear based on the consumer's choice not to be considered for insurance affordability programs. The consumer attests to a recent loss of coverage and is therefore eligible to enroll through a SEP.	Eligibility results compliance conclusion: Auditor checked item 9/row 33 compliance conclusion: Auditor checked item 215/row 46 compliance conclusion: Auditor checked item 246 to verify that income does not display on the review application page/row 48 compliance conclusion: Auditor checked item to verify display of eligibility results page/row 50 compliance conclusion:					
Test Case 1.C	FL, NC, or SC	Initial application, 2 member household Seeking financial assistance Single, 1 dependent	EDE Entity properly displays prior coverage in the 60 days before the move question EDE Entity UI successfully collects written language preference Child may be Medicaid eligible Parent is found QHP eligible and eligible for hardship exemption due to income below 100% FPL and residency in non-expansion state	This scenario includes a single parent applying for herself and one young child. She selects Spanish as her preferred written and spoken language, and the EDE will be generated in Spanish as a result. In this scenario, the consumer reports a monthly deduction as well as weekly job income. Finally, the consumer in this scenario attests to a recent move. However, the consumer does not meet the prior coverage requirement for the move SEP. In this scenario, the child is found Medicaid eligible while the parent is found QHP eligible and eligible for a hardship exemption on the basis of living in a non-expansion state with an income below 200% of the poverty line.	Eligibility results compliance conclusion: Auditor checked item to verify item 138/row 40 compliance conclusion: Auditor checked item to verify "May be eligible for Medicaid" wording/row 52 compliance conclusion:					
Test Case 1.D	AK, AZ, AR, DE, HI, IL, IN, IA, LA, MI, MN, MO, MT, NE, NH, ND, OH, OK, OR, UT, VA, WV	Initial application, 1 member household Seeking financial assistance Single, no dependents	EDE Entity allows applicant to disagree with projected annual income and report different amount Applicant may be eligible for Medicaid based on current monthly income	This is a simple scenario of a single individual with no dependents applying for financial assistance in Medicaid expansion states. This individual attests to weekly unemployment income and disagrees with the calculated projected annual income and reports her own amount. She resides in a Medicaid expansion state, and is found Medicaid eligible based on current monthly income.	Eligibility results compliance conclusion: Auditor checked item 9/row 12 compliance conclusion: Auditor checked item 4/row 33 compliance conclusion: Auditor checked item to check Eligibility Results Tab, Item 5/row 51 compliance conclusion:					
Test Case 1.D.2	State used in 1.D	Change in circumstance (CC) application for 1.D. 1 member household Seeking financial assistance Single, no dependents Pregnant application filer	EDE Entity demonstrates UI can support CC Applicant is routed to HealthCare.gov or alternate channel after attesting to pregnancy Proper disclaimer regarding unsupported scenarios displayed	This test case tests the UI and functionality related to reporting a life change on an existing application. For this test case, after completing test case 1.D, the tester must report a change in circumstance (CC) on the already submitted 1.D application. The household information for the individual would stay the same, except that on the CC application version, the consumer is now pregnant. Because pregnancy affects Medicaid eligibility, the consumer should be routed to an alternative pathway after <u>reporting a change in circumstance</u> .	Eligibility results compliance conclusion: Auditor checked item 9/row 12 compliance conclusion: Auditor checked item 19/row 20 compliance conclusion:					
Test Case 1.E	Any state	Initial application, 2 member household Not seeking financial assistance Married, no dependents Marriage SEP	The EDE Entity properly displays prior coverage question after Marriage SEP attestation Applicant and spouse are found eligible for QHP and SEP	In this scenario, a couple with no dependents in any state applies for coverage with no financial assistance. The consumer reports a marriage in the last 60 days. The UI should include a follow-up question asking if either spouse had coverage in the 60 days before the marriage. Because at least one consumer answers "no", they are found both QHP and SEP eligible.	Eligibility results compliance conclusion: Auditor checked item 32/row 36 compliance conclusion: Auditor checked item 246 to verify that income does not display on the review application page/row 48 compliance conclusion:					
Test Case 1.F	AZ, AR, DE, HI, IL, IN, IA, LA, MI, MN, MO, MT, NE, NH, ND, OH, OK, OR, UT, VA, WV	Initial application, 1 member household Seeking financial assistance Single, no dependents Medicaid denial SEP	EDE Entity properly displays follow up questions to Medicaid denial question Applicant is found QHP, APTC, CSR and SEP eligible due to Medicaid denial	In this simple scenario, a single consumer applies for financial assistance in a Medicaid expansion state. He attests to job income and to a recent Medicaid denial. The application should follow the same path to Medicaid denial to determine whether he originally applied during Open Enrollment as well as the date of the denial. Despite income below the Medicaid limit in his state, the consumer is found QHP, APTC, CSR and SEP eligible due to the Medicaid denial situation.	Eligibility results compliance conclusion: Auditor checked item 134 and item 138/row 40 compliance conclusion: Auditor checked item to check Eligibility Results Tab, Item 4/row 52 compliance conclusion:					
Test Case 1.H	Any state	Initial application, 4 member household Seeking financial assistance Single, 3 dependents Chaperone lives with parent not on the application filer's tax return	EDE Entity demonstrates UI properly screens out scenarios not supported by Phase 1 Applicant routed to HealthCare.gov or alternate channel after answering screening questions Proper disclaimer regarding unsupported scenarios displayed	This scenario demonstrates proper functionality of the screener tool for an unmarried parent seeking coverage and financial assistance for three tax dependents in any state. The application filer also lives with a domestic partner, which requires use of an alternative pathway only because that domestic partner is the parent of one or more of the application filer's tax dependents. Therefore the application filer should answer "No" to the screener question which asks whether their dependents live with a parent who's not on filer's tax return. Upon doing so, they should be directed to an <u>alternative pathway</u> .	Eligibility results compliance conclusion: Auditor checked item 12/row 15 compliance conclusion: Auditor checked item 20/row 22 compliance conclusion:					
Test Case 1.I	Any state	Initial application, 1 member household Not seeking financial assistance Single, no dependents Naturalized citizen	EDE Entity displays naturalized citizenship questions properly in screener Applicant routed to HealthCare.gov or alternate channel after answering screening questions Proper disclaimer regarding unsupported scenarios displayed	This test case demonstrates the screener tool UI and functionality for a consumer not applying for financial assistance. In this scenario, an unmarried consumer in any state with no dependents completes the screener on the EDE entity site. Although this consumer is a U.S. citizen, they were not born in the U.S. and became naturalized as a U.S. citizen in the 1990s. On the screener tool, when the consumer answers the question about naturalized citizenship accurately, they should be redirected to an <u>alternative pathway</u> .	Eligibility results compliance conclusion: Auditor checked item to verify consumer is guided to an alternate pathway with consumer friendly language/row 28 compliance conclusion:					
Test Case 1.J	NH	Initial application, 3 member household Seeking financial assistance Married, 2 dependents Current coverage through TRICARE Move SEP	EDE Entity UI handles multiple income and deduction types UI accounts for other coverage (TRICARE) and Move SEP One member is determined eligible for QHP with APTC, one member determined eligible for QHP without subsidy, and the child is assessed as eligible for Medicaid Correct APTC amount calculated	This test case demonstrates functionality for a mixed eligibility household with multiple income and deduction types, other health coverage, and a Move SEP. In a three member household financial assistance application, one member is determined eligible for QHP with a Move SEP, APTC, and CSR, one member determined eligible for QHP with a Move SEP without subsidy, and the child is assessed as eligible for Medicaid. This test case must be run in NH, zip code 03301.	Eligibility results compliance conclusion: Auditor checked item 195/row 46 compliance conclusion: Auditor checked item 239/row 47 compliance conclusion: Auditor checked item to check Eligibility Results Tab, Item 5/row 52 compliance conclusion:					
Test Case 1.L	SC	Initial application, 5 member household Seeking financial assistance Married, 3 dependents 1 non-applicant	EDE Entity handles multiple member's income and properly calculates APTC for a 5 member household EDE Entity supports non-applicants Four members are determined eligible for QHP with APTC, one member is not seeking coverage and receives no eligibility results Members are not eligible to enroll at this time due to lack of SEP	This test case verifies that the EDE Entity can support a five member household financial assistance application, and successfully grants QHP eligibility with correct subsidy amounts for Member 1, Member 3, Member 4, and Member 5, with Member 2 not seeking health insurance coverage. This test case must be run in SC, zip code 29601.	Eligibility results compliance conclusion: Auditor checked item 14/row 16 compliance conclusion: Auditor checked item 131/row 18 compliance conclusion: Auditor checked item 133 /155/row 42 compliance conclusion:					
Test Case 1.M	NH	Initial application, 4 member household Seeking financial assistance Married, 2 dependents Current coverage through other non-MEC health coverage	EDE Entity UI handles multiple income and deduction types and correctly calculates APTC UI accounts for other coverage (TRICARE) and Move SEP UI properly determines eligibility for mixed household – two members are determined eligible for QHP with APTC and two may be eligible for Medicaid	This scenario includes a four member household financial assistance application with multiple income and deduction types, where one member attests to having other non-MEC health coverage. The result is QHP with APTC for two (2) members and Medicaid for two (2) members. This test case must be run in NH, zip code 03301.	Eligibility results compliance conclusion: Auditor checked item 225/row 34 compliance conclusion: Auditor checked item 175, column G/row 43 compliance conclusion: Auditor checked item 192/row 46 compliance conclusion: Auditor checked item 239/row 47 compliance conclusion:					
Test Case 1.N	TX	Initial application, 5 member household Seeking financial assistance Married, 2 dependents Current coverage through TRICARE and Medicare Marriage SEP	EDE Entity handles multiple income and properly calculates APTC for a 5 member household EDE Entity properly displays marriage SEP and prior coverage questions UI accounts for CHIP waiting period and displays appropriate questions for minor children Parents are eligible for QHP without subsidy, two of the children are referred to Medicaid while one is granted APTC and CSR while in the CHIP waiting period due to the answers to the CHIP waiting period exceptions question	This scenario includes a five member household financial assistance application, where the household's income places a child within CHIP range in a state with a CHIP waiting period. Two of the children are referred to Medicaid while one is granted APTC and CSR while in the CHIP waiting period due to the answers to the CHIP waiting period exceptions question. This test case must be run in TX, zip code 77001.	Eligibility results compliance conclusion: Auditor checked item 154, Column G/row 42 compliance conclusion: Auditor checked items 243 and 244/row 46 compliance conclusion: Auditor checked item 246 to verify the application new page/row 51 compliance conclusion:					
Test Case 1.O	VA	Initial application, 9 member household Seeking financial assistance Married, 3 dependents Affirmative answers to non-MAGI questions Medicaid/CHIP denial Medicaid denial SEP	EDE Entity UI can handle complex large household with mixed eligibility results UI correctly calculates multiple income and deduction types and correctly calculates APTC UI accounts for physical disabilities multiple SEP income, loss of MEC, and Medicaid/CHIP denial) and current coverage through the Peace Corps and return correct eligibility results Members receive determinations of QHP without subsidy, QHP with APTC and CSR, and CHIP eligibility for the family members	This test case verifies the ability for the EDE Entity to handle a complex scenario in which a nine (9) member household is applying for financial assistance in Virginia. The application contains multiple income and deduction types, current coverage, multiple SEP, and attestations to physical disabilities multiple SEP income, loss of MEC, and Medicaid/CHIP denial) and current coverage through the Peace Corps and return correct eligibility results. Members receive determinations of QHP without subsidy, QHP with APTC and CSR, and CHIP eligibility for the family members. This test case must be run in VA with zip code 22032 (Fairfax County). <b>Summary:</b> This is a simple test case with a two person household—a married couple filing a joint tax return in any state. This test case allows the EDE Entity to demonstrate its ability to handle non-applicants, as the application filer’s spouse must be included on the application, but is not seeking coverage herself. Because the application filer is over age 65, the UI must display a message regarding impacts of Medicare and Marketplace coverage. This test case also demonstrates the collection of information about the consumer’s employer, because job-based income is reported, and about enrollment in other non-employer-sponsored health coverage. In this case, the application filer has Medicare which results in ineligibility for APTC.

**Summary:** This is a scenario where the consumer is not requesting financial assistance. It can be tested using any state's application. This allows the EDE Entity to demonstrate that only limited screener questions and limited application questions appear based on the consumer's choice not to be considered for insurance affordability programs. The consumer attests to a recent loss of coverage and is therefore eligible to enroll through a SEP.

**Summary:** This scenario includes a single parent applying for herself and one young child. She selects Spanish as her preferred written and spoken language, and the EDN will be generated in Spanish as a result. In this scenario, the consumer reports a monthly deduction as well as weekly job income. Finally, the consumer in this scenario attests to a recent move. However, the consumer does not meet the prior coverage requirement for the move SEP. In this scenario, the child is found Medicaid eligible while the parent is found QHP eligible and eligible for a hardship exemption on the basis of living in a non-expansion state with an income below 100% of the poverty line.

---	--------------------------------	------------------------------	---	---

<p><b>Summary:</b> This test case tests the UI and functionality related to reporting a life change on an existing application. For this test case, after completing test case 1.D, the tester must report a change in circumstance (CiC) on the already-submitted 1.D application. The household information for the individual would stay the same, except that on the CiC application version, the consumer is now pregnant. Because pregnancy affects Medicaid eligibility, the consumer should be routed to an alternative pathway after accurately answering the screener questions.</p>				
UI Question Companion Guide Reference	Application Data	Application Input	Notes to Testers	Auditor Checklist
<b>Tab: UI Questions</b>		<b>Application State &amp; Coverage Year</b>		
Item 1	State	State used in 1.D	Because this is a CiC, the application coverage year and state should remain the same and the application from Test Case 1.D should be	
Item 2	Coverage Year	Coverage year used in 1.D		
<b>Tab: Phase 1 Screening</b>		<b>Screening Questions</b>		
Item 1	Marital Status	Single		
Item 2	Number of tax dependents	0		
Item 3	Who is applying for coverage?	Application filer		
Item 5 Items 4, 6, 7 (depending on implementation)	Seeking financial assistance?	Yes		
Item 8	Resides in application state	Yes, application filer lives in application state	Must provide a valid zip code for the application state	
Item 9	Tax filing status	Filing taxes		Check Item 9: Verify the question is written as or similarly to "Do you plan to file a federal tax return for [insert coverage year]? You don't have to file taxes to apply for coverage, but you'll need to file next year if you want to get a premium tax credit to help pay for coverage now."
Item 10	Responsible for a child 18 or younger not on tax return	Not responsible for a child 18 or younger who they live with but isn't on their tax return		
Item 11	Full-time student	Not a full-time student		
Item 12	Pregnant	<b>Application filer is pregnant</b>	The pathway for consumers to report this life change may vary by UI, but the tester should see similar screening questions that will allow them to report the pregnancy CiC. Pregnancy is not supported by Phase 1 applications, so this answer/input will result in the consumer being redirected to an alternate pathway	
Items 14, 17	Citizenship	Application filer is a U.S. citizen, not naturalized or derived		
Item 15	Can provide SSN	Yes		
Item 16	Applying with same name as name on SSN card	Yes		
Item 18	Incarceration	Not incarcerated		
Item 19	American Indian/Alaska Native	No one in household has AI/AN status		Check Item 19: The question should be written as or similarly to "Are you an American Indian or Alaska Native?"
Item 27	Offer of individual coverage HRA (ICHRA) or a qualified small employer Health Reimbursement Arrangement (QSEHRA)	Does not have an ICHRA or QSEHRA offer		

Item 20	Offer of coverage through job or COBRA	No coverage through job or COBRA		
Item 21	Former foster care	Not former foster care		
Item 22	Claiming all dependents on tax return	N/A (should not display)		
Items 23, 25	Dependent is child, single (not married), 25 or younger, not step child or grandchild	N/A (should not display)		
Item 26	Dependents live with parent not on tax return	N/A (should not display)		
<b>Screening Pass/Fail</b>				
	Pass Screener?	No, consumer should be guided to alternate pathway and should not complete the application	When a consumer fails the screening questions, the UI should redirect the consumer to HealthCare.gov or a Direct Enrollment pathway and display consumer friendly language as to why they cannot continue the application on the entity site	

**Summary:** In this scenario, a couple with no dependents in any state applies for coverage with no financial assistance. The consumers attest to marriage in the last 60 days. The UI should include a follow-up question asking if either spouse had coverage in the 60 days before the marriage. Because at least one consumer answers "Yes", they are found both QHP and SEP eligible.

---	--------------------------------	---	--	---	--

**Summary:** In this simple scenario, a single consumer applies for financial assistance in a Medicaid Expansion state. He attests to job income and to a recent Medicaid denial. The application should include follow-up questions about his Medicaid denial to determine whether he originally applied during Open Enrollment as well as the date of the denial. Despite income below the Medicaid limit in his state, the consumer is found QHP, APTC, CSRs and SEP eligible due to the Medicaid denial attestation.

<b>Summary:</b> This scenario demonstrates proper functionality of the screener tool for an unmarried parent seeking coverage and financial assistance for three tax dependents in any state. The application filer also lives with a domestic partner, which requires use of an alternative pathway only because that domestic partner is the parent of one or more of the application filer's tax dependents. Therefore the application filer should answer "Yes" to the screener question which asks whether their dependents live with a parent who's not on his/her tax return. Upon doing so, they should be directed to an alternative pathway.

Item 20	Offer of coverage through job or COBRA	No applicants have access to coverage through a job or COBRA		Check Item 20: The question should be written as or similarly to "Are any of you offered health coverage through your job, someone else's job, or COBRA?" since there are more than two applicants on the application
Item 21	Former foster care	No applicants are former foster care		
Item 22	Claiming all dependents on tax return	Yes		
Items 23, 25	Dependent is child, single (not married), 25 or younger, not step child or grandchild	Yes		
Item 26	Dependents live with parent not on tax return	Yes	This scenario is not supported by Phase 1 applications. This answer will result in the consumer being redirected to an alternate pathway	
<b>Screening Pass/Fail</b>				

	Pass Screener?	No, consumer should be guided to alternate pathway and should not complete the application	When a consumer fails the screening questions, the UI should redirect the consumer to HealthCare.gov or a Direct Enrollment pathway and display consumer friendly language as to why they cannot continue the application on the entity site	
--	----------------	--	--	--

<b>Summary:</b> This test case demonstrates the screener tool UI and functionality for a consumer not applying for financial assistance. In this scenario, an unmarried consumer in any state with no dependents completes the screener on the EDE entity site. Although this consumer is a U.S. citizen, they were not born in the U.S. and became naturalized as a U.S. citizen in the 1990s. On the screener tool, when the consumer answers the question about naturalized citizenship accurately, they should be redirected to an alternative pathway.

**Summary:** This test case demonstrates functionality for a mixed eligibility household with multiple income and deduction types, other health coverage, and a Move SEP. In a three member household financial assistance application, one member is determined eligible for QHP with a Move SEP, APTC, and CSRs, one member determined eligible for QHP with a Move SEP and without subsidy, and the child is assessed as eligible for Medicaid. This test case must be run in NH, zip code 03301.

**Summary:** This test case verifies the ability for the EDE Entry UI to handle a complex scenario in which a nine (9) member household is applying for financial assistance in Virginia. The application contains multiple income and deduction types, current coverage, multiple SEPs, and attestations to physical disabilities and assistance with daily living that result in determinations of QHP without subsidy, QHP with APTC and CSR, and CHIP eligibility for the family members. The test case must be run in VA with zip code 22032 (Fairfax County).
