ENHANCEMENT OF SURVIVAL PERMITS ASSOCIATED WITH CONSERVATION BENEFIT AGREEMENTS

ALL APPLICANTS MUST COMPLETE SECTION E.

- Provide the information outlined in Section E. on the following pages.
- Be as complete and descriptive as possible.
- Please do not send pages that are over 8.5" x 11", videotapes, or DVDs.

Do you want to include a return to baseline for your agreement? Permits for Conservation Benefit Agreements provide property owners a choice on whether to include return to baseline conditions for the covered species. Please indicate your choice:

- ☐ Yes
☐ No

Have you obtained all required Federal, Tribal, State, county, municipal or foreign government approval to conduct the activity you propose? Please be aware that there may be other requirements necessary to conduct this activity such as an import permit, collection permit, permission to work on Federal or Tribal lands, Federal bird banding permit, Corps of Engineers permits, Environmental Protection Agency NPDES permits, Tribal, State, county or municipal permits, etc.

- ☐ Yes. Provide a copy of the approval(s). List the Federal agency, Tribe, State, county, municipality or foreign countries involved and type of document required. Include a copy of these documents with the application.
- ☐ I have applied. List the Federal agency, Tribe, State, county, municipality or foreign countries involved and type of documents required. Provide the reasons why the permits have not been issued.

☐ Not required. The proposed activity is not regulated.

APPLICATION PROCESSING FEES

Administrative changes are amendments that do not alter the permit conditions, such as a change in the legal individual or business name, update to contact information, or revision of a technical error. You may update your name, address, telephone number, e-mail address in your current application package on file, or correct technical errors at any time and no application processing fee is required. If you wish to make an administrative change, please fill out page 1 and indicate the information that you are updating. Then check the box below, provide your permit number, and send the completed pages 1-2 to the appropriate Regional Office.

- ☐ Administrative change for permit number: _____.

If you wish to make changes other than an administrative change, then an application processing fee is required as described below. The application processing fee for a new Enhancement of Survival permit, or to renew or substantively amend an existing valid permit (*changes that exceed the original review analyses*) is \$50. If permit amendment (*with less substantive changes*) is required at a time other than renewal, the processing fee is \$25. For additional information on the application processing fee and the requirements to qualify for a fee exemption, please see the instructions for section D. on page 14.

If the information in your current application package on file has changed in a manner that triggers a substantive amendment or a change not otherwise specified in the permit or the Conservation Benefit Agreement, then you must apply for a substantive amendment to your valid permit. For example, such major changes may include changes in location, activity, amount or type of take, or species to be covered by the permit. Please contact our Ecological Services Field Office located closest to your proposed activity for technical assistance in making this determination. The contact information for our Ecological Services Field Offices can be found on the U.S. Fish and Wildlife Service's (USFWS) facility locator web page at: [Visit Us | U.S. Fish & Wildlife Service \(fws.gov\)](https://www.fws.gov/visit-us).

Check the appropriate box below and enclose check or money order payable to the *U.S. Fish and Wildlife Service* in the amount of

- ☐ **New.** \$50 [or ☐ fee exempt (attach justification if required)] for a **new** permit. Use Option I. below to provide the required information.

Renewal. \$50 permit application processing fee. If you are applying to renew a valid permit, your complete application package must be received at least **30 days** prior to the expiration of the valid permit ([50 CFR 13.22](https://www.ecfr.gov/current/title-50/chapter-I/subchapter-B/part-17/subpart-2/section-17.22)) to avoid a lapse in permit coverage.

- ☐ **Renew (with changes)** \$50 [or ☐ fee exempt (attach justification if required)] to **renew or substantively amend** my existing valid permit (*with major changes that may require publication in the Federal Register*) using my current application package on file. Use Option II. below to provide the required information. Please indicate the information that you are changing.

- ☐ **Renew (*without changes*)** \$50 [or ☐ fee exempt (attach justification if required)] to **renew/re-issue** my existing valid permit (*without changes*) using my current application package on file. Use Option III. below to provide the requested information.
- ☐ **Amendment.** \$25 [or ☐ fee exempt (attach justification if required)] to **amend** my existing valid permit (*with less substantive changes*) at a time other than permit renewal. Use Option II. below to provide the required information. Please indicate the information that you are changing.

Please check the **type of amendment** you are requesting –

- ☐ add species (specify) _____
- ☐ add new activity with previously permitted species (specify) _____
- ☐ add a geographic area _____
- ☐ change in personnel _____
- ☐ other (specify) _____

OR

- ☐ \$0 to **transfer** my existing valid permit. Use Option IV. Below to provide the required information.

If this application includes **transfer or succession** of a valid Enhancement of Survival permit, please check the box below:

- ☐ Transfer or succession of a valid Enhancement of Survival permit associated with a Conservation Benefit Agreement using the current application package on file. No application fee is required. Note all transfers or successions must include an application form signed by the “new” owner(s) and, in some cases, an assumption agreement (see instructions for Option IV below).

APPLICATION PROCESSING

To expedite a final decision on your application, you are urged to coordinate with us as soon as possible for guidance in assembling a complete application package, and to send us your complete permit application package at least three months prior to the start of your proposed activities. If you are renewing or amending a valid permit, your complete application package must be received at least 30 days prior to the expiration of the valid permit. These time periods begin with our acceptance of a complete permit application package and does not include any time required for requesting clarification or additional information about your application, or the length of time between our request and your response.

The information provided in your permit application will be used to evaluate your application for compliance with the Endangered Species Act, its implementing regulations (which may require a 30-day public comment period), and with U.S. Fish and Wildlife Service policy. Receipt and possession of a permit under the Endangered Species Act should be regarded as a privilege, as we must balance permit issuance with our duties to protect and recover listed species.

Up-to-date annual reports and any other required reports under your valid permit(s) must be on file before a permit will be considered for renewal, re-issuance or amendment.

If your activities may affect species under the authority of the National Marine Fisheries Service (NMFS/NOAA Fisheries), then you may need to obtain a separate permit from that agency. In addition, we share jurisdiction with NMFS/NOAA Fisheries for sea turtles (e.g., we evaluate applications for permits to conduct activities impacting sea turtles on land, and NMFS/NOAA Fisheries evaluates applications for permits to conduct activities impacting sea turtles in the marine environment). To apply for a permit to conduct activities with sea turtles in the marine environment or other species under NMFS/NOAA Fisheries jurisdiction, please contact them via their permit web page at [Permits | NOAA Fisheries](#).

Our general permit regulations at 50 CFR 13.12(a)(9) allow us to collect such other information as we determine that is relevant to the processing of a permit application. Before you submit an application for an Enhancement of Survival permit, we may require that you conduct biological surveys to determine which species and/or habitat would be impacted by the activities sought to be covered under the permit and to establish a baseline. Biological surveys provide information necessary to develop an adequate Conservation Benefit Agreement, and to assess the biological impacts of the proposed activities. In addition, the information provided in a biological survey can reduce the applicant's risk of take under Section 9 of the Endangered Species Act by ensuring that affected species and/or habitat are identified and appropriately covered under the permit.

Permits for Biological Surveys

Option 1: You are required to obtain a Scientific Purposes, Enhancement of Propagation or Survival permit (commonly called a Recovery permit) from us before engaging in any biological survey activities that would take listed species. Contact our Ecological Services Field Office closest to the location of your activity to obtain technical assistance in determining the need for both a biological survey and a Recovery permit for your survey activity. The contact information for our Ecological Services Field Offices can be found on the U.S. Fish and Wildlife Service's office directory web page at [Visit Us | U.S. Fish & Wildlife Service \(fws.gov\)](https://www.fws.gov)

If a biological survey is required, you will need to send us your complete Recovery permit application package and have it accepted at least 3 months prior to commencement of survey activities to facilitate processing of your Recovery permit application. The Recovery permit application is designated as U.S. Fish and Wildlife Service form # 3-200-59 and can be found on our ePermits web page at [3-200-59 - Scientific Purposes, Enhancement of Propagation, or Survival Permits \(servicenowservices.com\)](https://www.fws.gov).

Option 2: You may hire consultants who already possess Recovery Permits to conduct biological surveys. We maintain a list of Recovery permittees (such as biological consultants) who have authorized the release of their contact information to third parties for conducting biological surveys on a contract basis. This list is provided to the public at the discretion of each U.S. Fish and Wildlife Service Regional Office as time and workload allow. Please be aware that this list does not represent an endorsement by us of any particular permittee.

If you are not applying as an individual but as a business, corporation, Tribe, institution, or non-Federal public agency (block B. on page 1 of the application), the person to whom the permit will be issued (e.g., the landowner, president, director, executive director, or executive officer) is legally responsible for implementing the permit. Although other people under the direct control of the permittee (e.g., employees, contractors, consultants) receive third party take authorization in their capacity as designees of the permittee, the individual named as the permittee ultimately is legally responsible for the permit and any activities carried out under the permit except as otherwise limited in the case of permits issued to State or local government entities under 50 CFR 13.25(e).

If you wish to coordinate the processing of this permit application through an **authorized agent who can apply on behalf of you**, (e.g., a consultant to apply on behalf of you) and have that agent represent you as the primary contact with us, check the box below. Sign ([in blue ink](#)) and date the authorization statement and provide contact information for your authorized agent.

- ☐ I hereby authorize the following person to act as an authorized agent on my behalf in the processing of this permit application and to furnish, upon request, supplemental information in support of this permit application.

ENHANCEMENT OF SURVIVAL PERMIT APPLICATION INSTRUCTIONS

You have 4 options for providing the required information for an Enhancement of Survival permit application.

Enhancement of Survival Permit Application: Option I. New Enhancement of Survival Permit

General permit regulations for the U.S. Fish and Wildlife Service can be found at 50 CFR 13. Regulations for an Enhancement of Survival permit associated with a Conservation Benefit Agreement under the Endangered Species Act can be found at 50 CFR 17.22(c)(1) for endangered wildlife species and 50 CFR 17.32(c)(1) for threatened wildlife species.

Each landowner who wishes to be covered under a new or amended Enhancement of Survival permit associated with a Conservation Benefit Agreement must also sign (in blue ink) and date the Enhancement of Survival Permit Application Certification Notice at the end of this application, unless the landowner will be covered under this U.S. Fish and Wildlife Service Enhancement of Survival permit via another vehicle, such as a certificate of inclusion (50 CFR 13.25(d)). Any change in the language of the Certification Notice must be reviewed by the Department of the Interior, Office of the Solicitor and approved by the U.S. Fish and Wildlife Service. The same person who signs in box D. on page 1 of the application must sign the certification.

If the information in items A. - B. below is already provided in your final Conservation Benefit Agreement, then you do not have to provide it here. Instead, check the box below and use the spaces provided in items A. - B. to indicate the page numbers in your Agreement that provide the requested information.

- ☐ I am not providing the following information for items A. - B. as part of my Enhancement of Survival permit application, because it is already provided in my final Conservation Benefit Agreement (copy attached or already submitted).

If the requested information in items A. - B. is not provided in your final Conservation Benefit Agreement, then attach separate pages for the missing information. In order to assist us in processing your request, please provide the item number (A. 1.a., etc.) of the required information before each of your responses. Thank you.

Please ensure that your final Conservation Benefit Agreement is attached if it has not been previously submitted.

If you have previously submitted a final draft Conservation Benefit Agreement, please indicate the document's date.

Date of final draft Conservation Benefit Agreement _____

Applications for an Enhancement of Survival permit associated with a Conservation Benefit Agreement must provide the following specific information (relevant to the activity) under items A.- B. below in addition to the general information on pages 1- 5 of this application.

A. Identify species and activity:

1. Provide the common and scientific names of the species requested for coverage in the permit and their status (endangered (E), threatened (T), proposed endangered (PE), proposed threatened (PT), candidate for listing (C), or species likely to become a candidate (LC)).
2. Provide the number, age and sex of such species to the extent known.
3. Quantify the anticipated effects to their habitat.
4. Describe each activity associated with your project that would result in the incidental take of each species.
5. If you are choosing to include a provision to return back to baseline, please provide a brief description of the baseline population and habitat conditions for each listed species proposed for coverage under the Conservation Benefit Agreement. (Note: Baseline conditions must be summarized in a manner appropriate for each covered species, generally in terms of numbers of individuals present or amount of suitable habitat.)

B. Identify location of the proposed activity:

1. Provide the name of the State, county, Tribal land, and the specific location of the proposed activity site(s). Include a formal legal description, section/township/range information, county tax parcel number, local address, or any other identifying property designation that will precisely place the location of the proposed activity site(s).
2. Provide the total number of acres covered by the Agreement _____
Is this the total acreage of the parcel? (check one) ☐ Yes ☐ No

3. Provide a complete description, including timeframes, for implementation of proposed voluntary management activities to enhance, restore, or maintain habitat benefiting federally listed, proposed or candidate species, or other species that may become candidates.

Enhancement of Survival Permit Application: Option II. Renewal or Amendment of an Existing Valid Enhancement of Survival Permit (*With Changes*)

Up-to-date annual reports and any other required reports under your valid permit(s) must be on file before a permit will be considered for renewal or amendment.

Sign the following statement if you are proposing to renew or amend an existing valid Enhancement of Survival permit with changes, including making major changes. Such major changes may include changes in location, activity, amount or type of take, or species to be covered by the permit.

The individual signing box D. on page 1 of the application must also sign (in blue ink) the following statement. This certification language is required under 50 CFR 13.22(a).

I certify that the statements and information submitted in support of my original application for a U.S. Fish and Wildlife Service Enhancement of Survival permit # _____ are still current and correct, except for the changes listed below, and hereby request (please check either ☐ renewal or ☐ amendment) of that permit.

Signature (in blue ink)

Please print name legibly

Date

Provide a brief description of the changes to your valid permit by answering the *appropriate* questions for these changes below. Please submit completed pages 1-9 of this application form to our Regional Office (see attached list) covering the location of your proposed activity.

A. Change in covered species:

1. Identify the species to be added to your valid permit (provide both the scientific, to the most specific taxonomic level, and common names), as well as the species' status (see 1.a. above).
2. Provide the number, age and sex of such species to the extent known.
3. Describe each activity associated with your project that would result in the incidental take of each added species.
4. Quantify any anticipated effects to the habitat of each added species.
5. Identify any species to be deleted from your valid permit and the reason(s) for the deletion.

Page(s) & source document: _____

B. Change in covered activities and/or conservation activities:

1. Identify any new activities to be added to your valid permit.
2. If any activities requested in this application differ from those in your valid permit, then for each species state the current activity, the requested new activity, and how the new activity will impact each species.
3. Provide a complete description, including timeframes, for implementation of proposed changes to voluntary conservation activities to enhance, restore, or maintain habitat benefiting federally listed, proposed or candidate species, or other species that may become candidates.
4. Identify any activities to be deleted from your valid permit and the reason(s) for the deletion.

C. Change in location of the proposed activity:

1. Provide the original location of the permit, including the name of the State, county, Tribal land, and the specific location of the proposed activity site(s). Include a formal legal description, section/township/range information, county tax parcel number, local address, or any other identifying property designation that will precisely place the location of the proposed activity site(s).
2. Describe any change, expansion, or contraction in the location of the renewed or amended permit or location of the proposed activity site(s).

3. Provide the total number of acres to be covered by the new Agreement _____
Is this the total acreage of the parcel? (check one) ☐ Yes ☐ No

Page(s) & source document: _____

D. Additional changes or revisions:

1. Describe any additional proposed changes or revisions to your valid permit.
-

Enhancement of Survival Permit Application: Option III. Renewal/Re-issue of an Existing Valid Enhancement of Survival Permit (*Without Changes*) Using My Current Application Package on File.

Up-to-date annual reports and any other required reports under your valid permit(s) must be on file before a permit will be considered for renewal or re-issue.

Sign the following statement if you are applying to renew or re-issue an existing valid Enhancement of Survival permit without changes. If you are proposing changes to your Enhancement of Survival permit, you must use Option II. above.

The individual signing box D. on page 1 of the application must also sign (in blue ink) the following statement. This certification language is required under 50 CFR 13.22(a).

I certify that the statements and information submitted in support of my original application for a U.S. Fish and Wildlife Service Enhancement of Survival permit #_____are still current and correct and hereby request (please check either ☐ renewal or ☐ re-issuance) of that permit without changes.

Signature (in blue ink)

Please print name legibly

Date

* Please note: If you have signed the above statement, then your renewal/re-issue request is complete. Please submit this page and completed pages 1 - 5 of this application to our Regional Office covering the location of your proposed activity. Requests for renewals/re-issuance must be complete and accepted by the Service no later than 30 days prior to permit expiration to ensure that your current permit remains in effect while we process your request.

Enhancement of Survival Permit Application: Option IV. Permit Transfer, Partial Permit Transfer, or Succession of a Permit

Complete the following if you are applying for transfer or partial transfer of an existing valid Enhancement of Survival permit to you or obtaining rights of succession of an existing valid Enhancement of Survival permit. In addition, you and the current permit holder may also need to sign an Assumption Agreement. Please contact our Ecological Services Field Office nearest your activity to determine whether you and the current permit holder need to execute an Assumption Agreement. The contact information for our Ecological Services Field Offices can be found on the U.S. Fish and Wildlife Service's facility locator web page at [Visit Us | U.S. Fish & Wildlife Service \(fws.gov\)](https://www.fws.gov/visit-us)

Please indicate the name of the Conservation Benefit Agreement to be transferred or succeeded and the document's date.

APPLICATION FORM INSTRUCTIONS

The following instructions pertain to U.S. Fish and Wildlife Service (USFWS) permit applications. The General Permit Procedures in 50 CFR 13 address the permitting process. For simplicity, all licenses, permits, registrations, and certificates are referred to as a permit.

GENERAL INSTRUCTIONS:

- Complete all relevant questions in Sections A **or** B, **and** C, D, and E.
- **An incomplete application may cause delays in processing or may be returned to the applicant. Be sure you are filling in the appropriate application form for the proposed activity.**
- Print clearly or type in the information. Illegible applications may cause delays.
- Sign the application in **blue** ink. Faxes or copies of the original signature will not be accepted.
- Mail the original application to the address at the top of page 1 of the application.
- **Keep a copy of your completed application.**
- **Please plan ahead. Allow at least 60 days for your application to be processed; however, some applications may take longer than 90 days to process (50 CFR 13.11).**
- Applications are processed in the order in which they are received.

SECTION A OR SECTION B:

Section A. **Complete if applying as an individual [do not complete this section if applying for Import/Export License (3-200-3)]:**

- Enter the complete name of the responsible individual who will be the permittee if a permit is issued. Enter personal information that identifies the applicant. **Fax and e-mail, while helpful in processing, are not required.**
- If you are applying on behalf of a client, the personal information must pertain to the client, and a document evidencing power of attorney must be included with the application.
- **Affiliation/Doing business as (dba):** business, agency, organizational, Tribe, or institutional affiliation directly related to the activity requested in the application (e.g., a taxidermist is an individual whose business can directly relate to the requested activity). The Division of Management Authority (DMA) and the Office of Law Enforcement (OLE) do not accept doing business as affiliations for individuals (complete Section B).

Section B. **Complete if applying as a business, corporation, public agency, Tribe, or institution:**

- Enter the complete name of the business, agency, Tribe, or institution that will be the permittee if a permit is issued. Give a brief description of the type of business the applicant is engaged in. Provide contact phone number(s) of the business. If you are applying on behalf of a client, a document evidencing power of attorney must be included with the application.
 - o **Principal Officer** is the person in charge of the listed business, corporation, public agency, Tribe, or institution and who is responsible for the application and any permitted activities. Often the Principal Officer is a director or president.
 - o **Primary Contact** is the person at the business, corporation, public agency, Tribe, or institution who will be available to answer questions about the application or permitted activities. Often, it is the preparer of the application.

ALL APPLICANTS COMPLETE SECTION C:

- For all applications submitted to the DMA and OLE, a physical U.S. address is required. Province and Country blocks are provided for those USFWS programs that use foreign addresses and are not required by DMA.
- **Mailing address** is the address to which communications from USFWS should be mailed if different from the applicant's physical address.

ALL APPLICANTS COMPLETE SECTION D:

Section D.1 **Application processing fee:**

- An application processing fee is required at the time of application, unless exempted under 50 CFR13. The application processing fee is assessed to partially cover the cost of processing a request. **The fee does not guarantee the issuance of a permit, nor will fees be refunded for applications for which processing has begun.**
- **Documentation of fee exempt status is not required for applications submitted Federal, Tribal, State, or local government agencies, but must be supplied by those applicants acting on behalf of such agencies.** Such applications must include a letter on agency letterhead and signed by the head of the unit of government for which the applicant is acting on behalf, confirming that the applicant will be carrying out the permitted activity for the agency.

Section D.2 Federal Fish and Wildlife permits:

- List the number(s) of your most recently issued USFWS permit. If applying for re-issuance of a Conference on International Trade in Endangered Species (CITES) permit, the original permit must be returned with this application.

Section D.3 CERTIFICATION:

- **The individual identified in Section A, the principal officer named in Section B, or person with a valid power of attorney (documentation must be included in the application) must sign and date the application [in blue ink](#).** This signature legally binds the applicant to the statement of certification. You are certifying that you have read and understand the regulations that apply to the permit. You are also certifying that all information included in the application is true to the best of your knowledge. Be sure to read the statement and re-read the application and your answers before signing.

NOTICES

PRIVACY ACT STATEMENT

Authority: The information requested is authorized by the following: the Bald and Golden Eagle Protection Act (16 U.S.C. 668), 50 CFR 22; the Endangered Species Act (16 U.S.C. 1531-1544), 50 CFR 17; the Migratory Bird Treaty Act (16 U.S.C. 703-712), 50 CFR 21; the Marine Mammal Protection Act (16 U.S.C. 1361, et seq.), 50 CFR 18; the Wild Bird Conservation Act (16 U.S.C. 4901-4916), 50 CFR 15; the Lacey Act: Injurious Wildlife (18 U.S.C. 42), 50 CFR 16; Convention on International Trade in Endangered Species of Wild Fauna and Flora (TIAS 8249), 50 CFR 23; General Provisions, 50 CFR 10; General Permit Procedures, 50 CFR 13; and Wildlife Provisions (Import/export/transport), 50 CFR 14.

Purpose: The collection of contact information is to verify the individual has an eligible permit to conduct activities which affect protected species. This helps FWS monitor and report on protected species and assesses the impact of permitted activities on the conservation and management of species and their habitats.

Routine Uses: The collected information may be used to verify an applicant's eligibility for a permit to conduct activities with protected wildlife; to provide the public and the permittees with permit related information; to monitor activities under a permit; to analyze data and produce reports to monitor the use of protected wildlife; to assess the impact of permitted activities on the conservation and management of protected species and their habitats; and to evaluate the effectiveness of the permit programs. More information about routine uses can be found in the System of Records Notice, Permits System, FWS-21.

Disclosure: The information requested in this form is voluntary. However, submission of requested information is required to process applications for permits authorized under the listed authorities. Failure to provide the requested information may be sufficient cause for the U.S. Fish & Wildlife Service to deny the request.

PAPERWORK REDUCTION ACT STATEMENT

We are collecting this information subject to the Paperwork Reduction Act (44 U.S.C. 3501) to provide the U.S. Fish and Wildlife Service the information needed to decide whether or not to allow the requested use and to respond to requests made under the Freedom of Information Act and the Privacy Act of 1974. The information that you provide is voluntary; however, submission of the requested information is required to evaluate the qualifications, determine eligibility, and document permit applicants. Failure to provide all required information is sufficient cause for the U.S. Fish and Wildlife Service to deny a permit. We may not conduct or sponsor, and you are not required to respond to a collection of information, unless it displays a currently valid OMB control number. OMB has approved this collection of information and assigned OMB Control No. 1018-0094.

ESTIMATED BURDEN STATEMENT

We estimate public burden for this collection of information to average:

Original submission (paper-based): 3 hours
Original submission (electronic): 2.75 hours
Amended submission (paper-based): 1.5 hours
Amended submission (electronic): 1.25 hours

FREEDOM OF INFORMATION ACT NOTICE

For organizations, businesses, or individuals operating as a business (i.e., permittees not covered by the Privacy Act), we request that you identify any information that should be considered privileged and confidential business information to allow the Service to meet its responsibilities under the Freedom of Information Act (FOIA). Confidential business information must be clearly marked "Business Confidential" at the top of the letter or page and each succeeding page and must be accompanied by a non-confidential summary of the confidential information. The non-confidential summary and remaining documents may be made available to the public under FOIA [43 CFR 2.23 and 43 CFR 2.24].
