Reference: Joint Petition of the North American Electric Reliability Corporation and
Western Electricity Coordinating Council for Approval of Proposed
Regional Reliability Standard VAR-501-WECC-4

Dear Ms. Perotti:

On December 15, 2023, the North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC) filed a joint petition seeking approval of proposed Regional Reliability Standard VAR-501-WECC-4 (Power System Stabilizer (PSS)), the associated Violation Risk Factors and Violation Severity Levels, and the proposed implementation plan including the retirement of the currently-effective Regional Reliability Standard VAR-501-WECC-3.1.¹

The joint petition states that the proposed Regional Reliability Standard VAR-501-WECC-4 revisions are non-substantive changes to the currently-effective Regional Reliability Standard: (1) updating the document template, numbering, and template sections; (2) removing antiquated language from the Effective Date section and redundant language from Measure M4; (3) updating syntax; and (4) correcting language
