**TITLE OF INFORMATION COLLECTION:** DSIMB – ICIS Customer Support Training Questions

**PURPOSE:**

The Data Systems and Information Management Branch (DSIMB)’s ICIS Customer Support Section within the Office of Compliance’s Enforcement Targeting and Data Division conducts regular trainings on the data systems it manages including the Integrated Compliance Information System (ICIS), the NPDES eReporting Tools (NeT), and the Network Discharge Monitoring Report (NetDMR). These data systems support a wide range of users, activities, and functions. A standard set of post-training survey questions would allow DSIMB to gain critical feedback on what went well in the trainings and what could be improved. This brief post-training survey will allow DSIMB to improve trainings and make sure the audience’s training needs are being met. The survey will be optional for attendees of the trainings/webinars and will be delivered after the training is complete. Also included are standard poll questions to foster engagement during training and adjust the material to the level of expertise of the audience.

**DESCRIPTION OF RESPONDENTS:**

ICIS Customer Support Section organizes and leads a variety of trainings for ICIS, NeT and NetDMR that reach a varied audience of users including staff and managers from EPA (Regions and HQ), State environmental agencies, Local Control Agency (LCON) agencies, tribal personnel, and representatives from permitted facilities (data providers, permit preparers, signatories, and responsible officials). We plan to deliver the same set of survey questions after all trainings to chart feedback consistently.

**FEDERAL COST:** The estimated annual cost to the Federal government is **\$3,529 per year** for EPA staff to configure survey, review and summarize results and use the information collected.

35 Trainings per year:

- 45 min per training:
  - o 15 min to configure survey + 30 min reviewing results and summarizing them
- 35 hrs (1 hr/training) analyzing results to identify opportunities for improvement
