TITLE OF INFORMATION COLLECTION: Focus groups for feedback on the EJ TCTACs

PURPOSE:

EPA has selected 17 Environmental Justice Thriving Communities Technical Assistance Centers (EJ TCTACs) in partnership with the U.S. Department of Energy to help underserved and overburdened communities across the country. Each center, operating in cooperative agreements with EPA, will assist in removing barriers and improve accessibility for communities with environmental justice concerns by providing training and other assistance to build capacity for navigating federal grant application systems, writing strong grant proposals, and effectively managing grant funding. In addition, these centers will provide guidance on community engagement, meeting facilitation, and translation and interpretation services for limited English-speaking participants, thus removing barriers and improving accessibility for communities with environmental justice concerns. Each center will also create and manage communication channels to ensure all communities have direct access to resources and information.

With this ICR, the TCTACs seek authorization to collect information from program participants (i.e., those community stakeholders who receive the technical assistance from the EJ TCTACs) on services or products (such as guidance, information, training, and technical assistance) needed to address environmental and energy justice. The TCTACs will be in operation for a five-year period. This information will initially be collected with focus groups. The focus groups will allow the TCTACs to better understand the needs of the program participants receiving technical assistance (TA) and help the TCTACs identify pathways for how to best address those needs. The focus groups will be used to collect targeted information in moderated, small group settings.

The EJ TCTAC program supports [Executive Order 13985](#) Advancing Racial Equity and Support for Underserved Communities through the Federal Government (January 20, 2021), [Executive Order 14008](#), Tackling the Climate Crisis at Home and Abroad (January 27, 2021), and [Executive Order 14096](#) to Revitalize Our Nation’s Commitment to Environmental Justice for all. Executive Order 14096 includes a mandate to “provide opportunities for the meaningful engagement of persons and communities with environmental justice concerns...” These efforts will seek input, ideas, recommendation, and feedback to influence the TCTAC program and services provided.

DESCRIPTION OF RESPONDENTS:

The target audiences for this effort will be both other participating TCTACs and recipients of TCTACs services and products. Program participants will vary but may include community leaders, community members, community-based organization staff, locally elected officials, and local government staff from underserved communities and communities in remote and rural areas from across the nation, including Indian Country and territories.
